**HUBILU VENTURE CORPORATION**  
**Notes to the Consolidated Financial Statements**  
**September 30, 2019**  
**(unaudited)**

**NOTE 1 – NATURE OF BUSINESS**

Hubilu Venture Corporation (“the Company”) was incorporated under the laws of the state of Delaware on March 2, 2015 and is a publicly traded real estate consulting, asset management and business acquisition company, which specializes in acquiring student housing income properties and development/business opportunities located near the Los Angeles Metro/subway stations and within the Los Angeles area

**NOTE 2 – BASIS OF PRESENTATION AND ABILITY TO CONTINUE AS A GOING CONCERN**

The accompanying consolidated financial statements include the accounts of the Company and each of its wholly owned subsidiaries: Akebia Investments LLC, Zinnia Investments, LLC, Sunza Investments, LLC, Lantana Investments LLC., and Elata Investments, LLC. All intercompany transactions have been eliminated on consolidation.

The financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for the next year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At September 30, 2019, the Company had not yet achieved profitable operations, had an accumulated deficit of \$1,269,345 and expects to incur further losses in the development of its business, all of which casts substantial doubt upon the Company’s ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. Management intends to focus on raising additional funds either by way of debt or equity issuances in order to continue operations. The Company cannot provide any assurance or guarantee that it will be able to obtain additional financing or generate revenues sufficient to maintain operations.

**NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Preparation and Summary of Significant Accounting Policies**

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company in accordance with Securities and Exchange Commission rules and regulations and generally accepted accounting principles in the United States of America (“US GAAP”) and in the opinion of management contain all adjustments necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018.

## Fair Value Measurements

The fair value hierarchy under GAAP is based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value which are the following:

- Level 1      quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2      observable inputs other than Level 1, quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model-derived prices whose inputs are observable or whose significant value drivers are observable; and
- Level 3      assets and liabilities whose significant value drivers are unobservable by little or no market activity and that are significant to the fair value of the assets or liabilities.

## New Accounting Pronouncements

### Adopted in the Current Year

In February 2016, the Financial Accounting Standards Board, or FASB, established Topic 842, Leases, by issuing Accounting Standards Update (“ASU”) No. 2016-02, which requires lessors to classify leases as a sales-type, direct financing, or operating lease and requires lessees to recognize leases on-balance sheet and disclose key information about leasing arrangements. Topic 842 was subsequently amended by ASU No. 2018-01, Land Easement Practical Expedient for Transition to Topic 842; ASU No. 2018-10, Codification Improvements to Topic 842, Leases; and ASU No. 2018-11, Targeted Improvements. The Company adopted the new standard effective January 1, 2019 and elected the effective date method for the transition. The Company elected the following practical expedients:

- Transition method practical expedient – permits the Company to use the effective date as the date of initial application. Upon adoption, the Company did not have a cumulative-effect adjustment to the opening balance of retained earnings. Financial information and disclosures for periods before January 1, 2019 were not updated.
- Short-term lease practical expedient – permits the Company not to recognize leases with a term equal to or less than 12 months.

### Lessor Accounting

The accounting for lessors under the new standard remained relatively unchanged with a few targeted updates impacting the Company, which included: (i) narrower definition of initial direct costs that requires certain costs to be expensed rather than capitalized, and (ii) provisions for uncollectible rents to be recorded as a reduction in revenue rather than as bad debt expense.

### Lessee Accounting

The new standard requires lessees to recognize a right-of-use asset and lease liability on the balance sheet for all leases with a term longer than 12 months. Leases are classified as finance or operating at inception, with classification affecting the pattern and recording of expenses in the statement of operations. There was no impact on the Company’s financial statements on the adoption of Topic 842 given that its office lease does not exceed 12 months in duration.

## Forward Looking Statements

This Quarterly Report on Form 10-Q, including “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 2 of Part I of this report include forward-looking statements within the meaning of Section 27A of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995 (collectively, the “Reform Act”). The Reform Act provides a safe harbor for forward-looking statements to encourage companies to provide prospective information about themselves so long as they identify these statements as forward-looking and provide meaningful cautionary statements identifying important factors that could cause actual results to differ from the projected results. All statements, other than statements of historical fact that we make in this Quarterly Report on Form 10-Q are forward-looking. The words “anticipates,” “believes,” “expects,” “intends,” “will continue,” “estimates,” “plans,” “projects,” the negative of these terms and similar expressions are intended to identify forward-looking statements. However, the absence of these words does not mean the statement is not forward-looking.

Forward-looking statements involve risks, uncertainties or other factors which may cause actual results to differ materially from the future results, performance or achievements expressed or implied by the forward-looking statements. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Certain risks, uncertainties or other important factors are detailed in this Quarterly Report on Form 10-Q and may be detailed from time to time in other reports we file with the Securities and Exchange Commission, including on Forms 8-K and 10-K. Examples of forward looking statements in this Quarterly Report on Form 10-Q include, but are not limited to, our expectations regarding our ability to generate operating cash flows and to fund our working capital and capital expenditure requirements. Important assumptions relating to the forward-looking statements include, among others, assumptions regarding demand for our future products, the timing and cost of capital expenditures, competitive conditions and general economic conditions. These assumptions could prove inaccurate. Although we believe that the estimates and projections reflected in the forward-looking statements are reasonable, our expectations may prove to be incorrect. Important factors that could cause actual results to differ materially from the results and events anticipated or implied by such forward-looking statements include:

- the risks of a start-up company;
- management’s plans, objectives and budgets for its future operations and future economic performance;
- capital budget and future capital requirements;
- meeting future capital needs;
- our dependence on management and the need to recruit additional personnel;
- limited trading for our common stock, if listed or quoted
- the level of future expenditures;
- impact of recent accounting pronouncements;
- the outcome of regulatory and litigation matters; and
- the assumptions described in this report underlying such forward-looking statements. Actual results and developments may materially differ from those expressed in or implied by such statements due to a number of factors, including:
  - those described in the context of such forward-looking statements;
  - the political, social and economic climate in which we conduct operations; and
  - the risk factors described in other documents and reports filed with the Securities and Exchange Commission

We operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for us to predict all of those risks, nor can we assess the impact of all of those risks on our business or the extent to which any factor may cause actual results to differ materially from those contained in any forward-looking statement. We believe these forward-looking statements are reasonable. However, you should not place undue reliance on any forward-looking statements, which are based on current expectations. Further, forward-looking statements speak only as of the date they are made, and unless required by law, we expressly disclaim any obligation or undertaking to update publicly any of them in light of new information or future events.
