Emerging growth company

If an emerging growth company, indicate by checkmark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 3(a) of the Exchange Act.

Item 8.01 Other Events.

On September 8, 2023 CQENS Technologies Inc. (the “Company”) was informed that the European Patent Organisation has determined that a European patent for the Company’s Heat-not-Burn (“HnB”) tobacco system (the “EU Patent”) will be granted and published in the European Patent Bulletin of September 20, 2023. After the grant, the Company intends to validate the patent in the countries of Austria, Belgium, Bulgaria, Czech Republic, Germany, Spain, France, United Kingdom, Greece, Hungary, Italy, Luxembourg, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Switzerland, Liechtenstein, and Turkey. Under the national law of the extension and validation countries, a European patent extended to or validated in those countries has the effect of a national patent granted by the relevant country and is subject to the same conditions.

The Company believes that its development stage HnB System, which heats tobacco for inhalation without the constituents of combustion, is less toxic, as satisfying and far more convenient than other methods of tobacco use—especially when compared to the inhalation of smoke produced by combustible products, such as cigarettes, cigars and pipes. The Company now has 44 US and international patents and pending patents for its HnB System and, as referenced above, will have the EU Patent validated in another 21 countries after the requisite translations and filings have been completed.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
