

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549**

**FORM 10-K**

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended: December 31, 2015

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 000-53078

**Bone Biologics Corporation**  
(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

42-1743430  
(I.R.S. Employer  
Identification No.)

321 Columbus Ave., Boston, MA 02116  
(732) 661-2224

**Securities registered pursuant to Section 12(b) of the Act:**

None

**Securities registered pursuant to Section 12(g) of the Act:**

Common Stock, \$0.001 par value per share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Company is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer

Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the Company is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of March 14, 2016, there were 38,014,507 shares of common stock, par value \$.001, outstanding.

**Documents Incorporated by Reference**

None.

### **Cautionary Note on Forward-Looking Statements**

This annual report on form 10-K (“Annual Report”) contains forward-looking statements. Such forward-looking statements include those that express plans, anticipation, intent, contingency, goals, targets or future development and/or otherwise are not statements of historical fact. These forward-looking statements are based on our current expectations and projections about future events and they are subject to risks and uncertainties known and unknown that could cause actual results and developments to differ materially from those expressed or implied in such statements.

All statements other than historical facts contained in this Annual Report, including statements regarding our future financial position, capital expenditures, cash flows, business strategy and plans and objectives of management for future operations are forward-looking statements. The words “anticipated,” “believe,” “expect,” “plan,” “intend,” “seek,” “estimate,” “project,” “could,” “may,” and similar expressions are intended to identify forward-looking statements. These statements include, among others, information regarding future operations, future capital expenditures, and future net cash flow. Such statements reflect our management’s current views with respect to future events and financial performance and involve risks and uncertainties, including, without limitation, our ability to raise additional capital to fund our operations, obtaining Food and Drug Administration (“FDA”) and other regulatory authorization to market our drug and biological products, successful completion of our clinical trials, our ability to achieve regulatory authorization to market our lead product NELL-1, our reliance on third party manufacturers for our drug products, market acceptance of our products, our dependence on licenses for certain of our products, our reliance on the expected growth in demand for our products, exposure to product liability and defect claims, development of a public trading market for our securities, and various other matters, many of which are beyond our control.

Should one or more of these risks or uncertainties occur, or should underlying assumptions prove to be incorrect, actual results may vary materially and adversely from those anticipated, believed, estimated or otherwise indicated. Consequently, all of the forward-looking statements made in this Annual Report are qualified by these cautionary statements and accordingly there can be no assurances made with respect to the actual results or developments. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

Unless expressly indicated or the context requires otherwise, the terms “Company,” “we,” “us,” and “our” in this document refer to Bone Biologics Corporation, a Delaware corporation, and, its wholly owned subsidiary, as defined under Part I, Item 1-“Business” in this Annual Report.

---

## PART I

### Item 1. *Business*

#### OVERVIEW

We are a biotechnology company that is currently focused on bone regeneration in spinal fusion using the recombinant human protein, known as NELL-1/DBX®. The NELL-1/DBX® combination product is an osteoinductive recombinant protein that provides target specific control over bone regeneration. The protein, as part of the UCB-1 technology platform has been licensed exclusively for worldwide applications to us through a technology transfer from UCLA. UCLA and the Company received guidance from the FDA that NELL-1/DBX® will be classified as a combination product with a device lead.

The Company was founded by University of California professors in collaboration with an Osaka University professor and a University of Southern California surgeon in 2004 as a privately-held company with proprietary, patented technology that has been validated in sheep and non-human primate models to facilitate bone growth. Our platform technology has application in delivering improved outcomes in the surgical specialties of spinal, orthopedic, general orthopedic, plastic reconstruction, neurosurgery, interventional radiology, and sports medicine. Lead product development and clinical studies are targeted on spinal fusion surgery, one of the larger segments in the orthopedic market.

#### PRODUCTS

We have developed a stand-alone platform technology through significant lab, small animal and large animal research over more than ten years to generate the current applications across broad fields of use. The platform technology is UCB-1, a proprietary skeletal specific growth factor used in combination with DBX®, a proprietary demineralized bone matrix from Musculoskeletal Transplant Foundation (MTF). Together, with DBX®, or alone, NELL-1 provides regulation over skeletal tissue formation and stem cell differentiation during bone regeneration. The platform technology was obtained by the Company pursuant to an exclusive license agreement with the Regents of the University of California, as described below under “UCLA Exclusive License Agreement.”

We are currently focused on bone regeneration in lumbar spinal fusion using our recombinant human protein, known as NELL-1 which is a bone void filler. NELL-1/DBX® is an osteoinductive orthobiologic combination product that provides control over bone regeneration. Leveraging the resources of investors and strategic partners, we have successfully surpassed two critical milestones:

- Demonstrating a successful small laboratory scale pilot run for the manufacturing of the recombinant NELL-1 protein in Chinese hamster ovary cells; and
- Validation of protein dosing and efficacy in established large animal sheep models and non-human primate models.

We are targeting spinal fusion as the first clinical indication of our platform technology and are currently in the development phase with this proposed medical device. The lead product, purified NELL-1, is expected to be mixed with 510(k) cleared DBX® Demineralized Bone Putty recommended for use in conjunction with a cleared intervertebral body fusion device. The NELL-1/DBX® Fusion Device will be comprised of a single dose vial of NELL-1 recombinant protein freeze dried onto DBX®. A vial of NELL-1/DBX® will be sold in a convenience kit with a diluent and a syringe of 510(k) cleared demineralized bone (“DBX® Putty”), produced by MTF. A delivery device will allow the surgeon to mix the reconstituted NELL-1 with the appropriate quantity of DBX® Putty just prior to implantation.

The NELL-1/DBX® Fusion Device is intended for use in lumbar spinal fusion and may have a variety of other applications such as cervical spinal fusion.

While the product is initially targeted at the lumbar spine fusion market, we believe NELL-1’s unique set of characteristics, target specific mechanism of action, efficacy, safety, and affordability, position the product well for application in a variety of procedures, including:

Spine Implants. This is the largest market for bone substitute product, representing >70% of the total U.S. market according to Transparency Market Research. While use of the patient’s own bone, also referred to as autograft, to enhance fusion of vertebral segments remains the gold standard for this type of treatment, complications associated with use of autograft bone including pain, increased surgical time and infection limit its use.

Non-Union Trauma Cases. While the majority of fractures heal without the need for osteosynthetic products, bone substitutes are used in complicated breaks where the bone does not mend naturally. NELL-1 is expected to perform as well as high-priced growth factors in this market.

Hip & Knee Revisions. The use of bone substitutes in reconstruction surgery is generally limited to revision cases where the products are used to account for the significant bone loss that accompanies these cases. The treatment of osteoporotic patients also represents a substantial opportunity for NELL-1’s use in hip and knee reconstruction.

Implant Coating. The use of NELL-1 as a direct coating on hip and knee implants could have a very significant impact on the market. A NELL-1 coating may prolong the life of primary implants and allow for differentiation in a commodity market.

Osteoporosis. The medical need to find a solution to counter a decrease in bone mass and density seen in women most frequently after menopause or a similar effect on astronauts in microgravity environments for an extend period of time is a major medical challenge. The systemic use of NELL-1 to stimulate bone regeneration throughout the body thereby increasing bone density could have a very significant impact on the treatment of osteoporosis.

UCLA’s initial research was funded with approximately \$18 million in resources from UCLA and government grants. After licensing the exclusive worldwide intellectual property rights from UCLA, development was funded with additional grant funding and \$6.5 million in strategic investment from MTF. We anticipate that it will require an additional \$18 million to complete protein synthesis, animal studies, and commence first in man studies. An estimated additional \$155 million will be required to achieve product launch.

NELL-1’s powerful specific bone and cartilage forming properties are derived from the ability of NELL-1 to only target cells that exhibit an activated “master switch” to develop into bone or cartilage. NELL-1 is a function specific recombinant human protein that has been proven in lab bench models to recapitulate normal human growth and development to provide control over bone and cartilage regeneration.

NELL-1 was isolated in 1996, and the first NELL-1 patent on bone regeneration was filed in 1999. Subsequent patents and continuations in part describing NELL-1 manufacturing, delivery, and cartilage regeneration were filed in 2002, 2003, 2006, 2007, 2008, and 2009 to further strengthen the patent portfolio.

## **RESEARCH & PUBLICATIONS**

Our leading scientists have been published in notable scientific journals and publications in our field. There are more than 80 publications that serve to highlight the work and achievements of the researchers and the Company.

## **PROPOSED INITIAL CLINICAL APPLICATION**

The NELL-1/DBX® Fusion Device will be indicated for spinal fusion procedures in skeletally mature patients with degenerative disc disease (“DDD”) at one level from L4-S1. These DDD patients may also have up to Grade I spondylolisthesis at the involved level. The NELL-1/DBX® Fusion Device is to be implanted via an anterior open or an anterior laparoscopic approach in conjunction with a cleared intervertebral body fusion device. Patients receiving the device should have had at least six months of non-operative treatment prior to treatment with the device. A cervical indication is currently under consideration. This indication for use would fill a current clinical gap, created by potentially dangerous inflammatory responses caused by commercially available catalytic bone growth agents, the subject of a Public Health Notification from the United States Food and Drug Administration (the “FDA”) on July 1, 2008 about life threatening complications associated with a recombinant human protein in cervical spine fusion. We do not expect our product to see the same adverse events with NELL-1/DBX® as have been observed with other commercially available protein. We have performed a rat femoral onlay model to compare proinflammatory response of rhBMP-2 and NELL-1 within Helistate collagen sponges. While NELL-1 induced normal healing, rhBMP-2 induced significant amounts of swelling and histological evidence of intense inflammatory response.

## **DESCRIPTION OF THE DBX® PUTTY TO BE USED WITH NELL-1**

The DBX® Demineralized Bone Putty provided in the convenience kit with NELL-1/DBX® is a Class III device with a pre-market approval (PMA). The common name is “Bone Void Filler Containing Human Demineralized Bone Matrix.” The product is regulated under 21 C.F.R. §888.3045 Resorbable calcium salt bone void filler device, Product Codes MQV, GXP, and MBP. MTF is the manufacturer of the DBX® Putty. This product was cleared by the FDA under 510(k) number K053218 for spine indication in December 2006.

DBX® Putty is a matrix composed of processed human cortical bone. Demineralized bone granules are mixed with sodium hyaluronate to form the DBX® Putty. Every lot of final DBX® Putty product is tested in an athymic mouse model or in an alkaline phosphatase assay, which has been shown to have a positive correlation with the athymic mouse model, to ensure the osteoinductive potential of the final product.

Our instructions for use will recommend use of the NELL-1/DBX® Fusion Device with a lumbar indication. The surgeon can therefore choose to use the intervertebral fusion device that he or she is most experienced with and, in their judgment, is the best option for successful treatment. We have three precedent products, which are also osteoinductive, with intended uses similar or the same as NELL-1, that have been cleared by the FDA as medical devices. These are as follow:

- Infuse Bone Graft/LT-Cage Lumbar Tapered Fusion Device (PMA)-rhBMP-2 dissolved in water and applied to a collagen (bovine type I) sponge and placed in a cage;
- GEM 21S (PMA)-rhPDGF-BB and -tricalcium phosphate (growth factor enhanced matrix); and
- DBX® (510k)-human cortical bone (ground and demineralized) and mixed with sodium hyaluronate to form a putty.

Based upon extensive discussions with regulatory experts and a specific communication from the FDA in response to a submission of our plan under the Exclusive License between UCLA and the Company we believe the NELL-1/DBX® Fusion Device will be regulated as a Class III medical device and will therefore require submission and approval of a pre-market approval, (“PMA”). The FDA response to the submission of our plan is: “We have determined that the product is a combination product that will be regulated under Device authorities, with CDRH (Center for Devices and Radiological Health) as the lead center.”

## **OUR BUSINESS STRATEGY**

Our business strategy is to develop our target specific platform technology to meet a current established market with improvement in patient outcomes and reduction in costs to the healthcare delivery system. This narrowing of our focus from the research to the development stage is to allow for the approval for use of our target specific protein exhibiting efficacy and safety by matching or exceeding current market approved products. Identifying the best future strategic partners to facilitate the development through pre Investigational Device Exemption (“IDE”), clinical, and ultimate commercialization is critical as we fund the pre-IDE work and continue achieving milestones. We believe that the licensing of the distribution of the NELL-1 product in the fields of use focused upon will generate sufficient funding to provide for the ongoing development of the Platform Technology across other surgical and therapeutic fields.

## **DEVELOPMENT OF THE COMPANY**

The Company was incorporated in Delaware on October 18, 2007 as AFH Acquisition X, Inc. The Company and its wholly-owned subsidiary, Bone Biologics Acquisition Corp., (“Merger Sub”), entered into an Agreement and Plan of Merger, dated as of September 19, 2014 (the “Merger Agreement”), with Bone Biologics, Inc. (“Bone”). Pursuant to the terms of the Merger Agreement, Bone merged with Merger Sub on September 19, 2014 (the “Merger”), with Bone as the surviving entity and a wholly owned subsidiary of the Company. After the Merger, the Company ceased to be a shell company, as defined in the rules of the SEC, and the Company officially changed its name to Bone Biologics Corporation. The 5,000,000 outstanding shares of common stock of the Company prior to the Merger were consolidated into 3,853,600 shares of common stock and the remaining shares were cancelled. At the effective time of the Merger, all of the issued and outstanding shares of Bone common stock converted into a combined total of 19,897,587 shares of the Company’s Common Stock (including 2,151,926 shares issuable upon the exercise of outstanding warrants and 5,658,658 shares issuable upon conversion of debt). Unless the context indicates otherwise, as used in this Annual Report, the “Company,” “we,” “us,” and “our” also refer to and include Bone, its wholly owned subsidiary.

### ***UCLA Exclusive License Agreement***

On March 15, 2006, the Company entered into an exclusive license agreement (the “Initial Agreement”) with the Regents of the University of California Los Angeles (“UCLA”). The Initial Agreement has been amended through nine sets of amendments (as so amended, the “The UCLA License Agreement”).

The UCLA License Agreement provides us with an exclusive license to several of UCLA patents covering, among other things, enhanced NELL-1 bone mineralization. The grant of the UCLA License Agreement is subject to any license obligations to the U.S. government, and the term of the license lasts until the last-to-expire UCLA patent licensed under the UCLA License Agreement expires. Under the UCLA License Agreement, we are permitted to make, have made, use, sell, offer for sale and import any products covered by the UCLA License Agreement patents in a certain Field of Use which is currently defined as special function by local administration and expressly excludes osteoporosis and cartilage indications or systemic administration in all indications. Currently the parties are negotiating in good faith the terms pursuant to which UCLA will grant an option to exclusively license UCLA Patent Rights in the osteoporosis indication. After December 22, 2016, we may notify UCLA of our interest in requesting an expansion of the Field of Use to include additional available indications, including cartilage indications or systemic administration in the Field of Use. The parties will engage in good faith discussions of such requests.

We have agreed to pay an annual maintenance fee to UCLA of \$10,000 as well as to pay certain royalties to UCLA under the UCLA License Agreement at the rate of 3.0% of net sales of licensed products. We must pay the royalties to UCLA on a quarterly basis. Upon a first commercial sale, we also must pay between \$50,000 and \$250,000, depending on the calendar year which is after the first commercial sale. If we are required to pay any third party any royalties as a result of us making use of UCLA patents, then we may reduce the royalty owed to UCLA by 0.333% for every percentage point paid to a third party. If we grant sublicense rights to a third party to use the UCLA patent, then we will pay to UCLA 10% to 20% of the sublicensing income we receive from such sublicense.

We are obligated to make the following milestone payments to UCLA for each Licensed Product or Licensed Method:

- \$100,000 upon enrollment of the first subject in a Feasibility Study;
- \$250,000 upon enrollment of the first subject in a Pivotal Study;
- \$500,000 upon Pre-Market Approval of a Licensed Product or Licensed Method; and
- \$1,000,000 upon the First Commercial Sale of a Licensed Product or Licensed Method.

We are also obligated to pay UCLA a cash milestone payment within thirty (30) days of a Liquidity Event (including a Change of Control Transaction and a payment election by UCLA exercisable after December 22, 2016, such payment to equal the greater of:

- \$500,000; or
- 2% of all proceeds in connection with a Change of Control Transaction.

We are obligated to diligently proceed with developing and commercializing licensed products under UCLA patents set forth in the UCLA License Agreement. UCLA has the right to either terminate the license or reduce the license to a non-exclusive license if we do not meet certain diligence milestone deadlines set forth in the UCLA License Agreement.

We must reimburse or pre-pay UCLA for patent prosecution and maintenance costs incurred during the term of the UCLA License Agreement. We have the right to bring infringement actions against third party infringers of the UCLA License Agreement, UCLA may join voluntarily, at its own expense, or, at our expense, be joined involuntarily to the action. We are required to indemnify UCLA against any third party claims arising out of our exercise of the rights under the UCLA License Agreement or any sublicense.

#### ***AFH Holding & Advisory LLC***

In connection with the Merger, the Company and MTF entered into a letter agreement with AFH Holdings & Advisory, LLC (“AFH”) dated May 7, 2014 (the “AFH/MTF Agreement”). Amir Heshmatpour is the controlling party of AFH and an affiliate and board observer of the Company. The AFH Agreement contemplated among other things (a) the sale of Notes in the principal amount of \$50,000 and warrants to purchase common stock, and (b) certain assistance to be provided by AFH in connection with the Merger, the subsequent quotation of the Company’s common stock, procuring private funding and a possible initial public offering. In consideration of AFH’s advisory services, the Company granted to AFH certain anti-dilution protection arising from future issuances of the Company’s common stock. The Company granted to each of AFH and MTF the right to appoint three members of the Board and to the original founding scientists and then minority shareholders the right to appoint one member with each of MTF and AFH having the right to appoint one individual with observer status with respect to the Board. The Company also granted to AFH the right to act as advisor to the Company on all financings for a period of two years. The AFH/MTF Agreement also granted to AFH and MTF restricted shares equal to 2.5% of the fully diluted shares of the Company (the “Milestone Shares”) at the time of completion of certain milestone targets. The milestone targets were not met and pursuant to separate side letter agreements dated August 11, 2015, the Company agreed to issue to each of AFH and MTF 867,163 shares in exchange for forfeiture of any claims to receive any Milestone Shares.

On October 28, 2015, the Company agreed (i) to issue to AFH 915,614 shares of common stock of the Company and warrants to purchase 158,229 shares of common stock and (ii) to make a payment of \$275,000. The warrants have an exercise price of \$1.58. The shares and warrants were issued and the payment was made to AFH as payment for advisory services rendered to the Company.

In addition to the shares and warrants issued for services, AFH received cash totaling \$408,750 for services during the year ended December 31, 2015.

Pursuant to a letter agreement dated February 10, 2016, the Company agreed to issue a total of 1,260,255 shares of common stock of the Company to AFH. The Letter Agreement was entered into in connection with the AFH/MTF Agreement under which AFH and its affiliated entities, individuals or assignees (“AFH Group”) were entitled to 10% of the outstanding shares of common stock of the Company on a fully diluted basis (the “Share Adjustment”) after giving effect to an anticipated private placement of between \$8,000,000 and \$10,000,000 (the “PIPE”). In the Letter Agreement, the Company recognized that, at the time the AFH/MTF Agreement was entered into, it was not anticipated that certain events in addition to the PIPE would dilute directly or indirectly the interest of AFH Group as stockholders of the Company, including the Ninth Amendment to the UCLA License Agreement and the issuance of the Company’s Common Shares pursuant to the Professional Services Agreement with each of Dr. Chia Soo, Dr. Ben Wu, and Dr. Eric Ting discussed below. Accordingly, the Company agreed to issue the 1,260,255 shares in connection with the Share Adjustment.

#### ***Musculoskeletal Transplant Foundation (MTF)***

We have formed a formal strategic alliance with Musculoskeletal Transplant Foundation (MTF) on the collaborative development of osteoinductive products that incorporate MTF’s current product line of natural bone graft substitutes with NELL-1. MTF is the exclusive allograft supplier for BIOBONE-X™. MTF has become one of the major investors of the Company. MTF is the world’s largest allograft bone supplier. It is also the country’s largest full service tissue organization dedicated to providing quality tissue through a commitment to excellence in education, research, recovery and care for recipients, donors and their families. A not-for-profit organization, MTF is a consortium of academic medical institutions and organ and tissue recovery organizations across the country. We anticipate that MTF, with its proven ISO 9001 manufacturing and packaging of FDA approved osteogenic carriers, will significantly accelerate the clinical development cycle of NELL-1 related products.

The Company and MTF entered into a loan agreement in 2008 and a credit agreement in 2009 (collectively, the “MTF Credit Agreements”), and accompanying promissory and convertible promissory notes in January 2008, November 2008, March 2009 and August 2009 to fund the development of Bone. As of September 19, 2014, \$5,192,684 in principal and interest was outstanding under the MTF Credit Agreements. On September 19, 2014, \$1,533,356 of the amounts due under the MTF Credit Agreements were converted to shares of the Company. The remaining amounts due under the MTF Credit Agreements were cancelled and a new Convertible Note in the principal amount of \$3,659,328 was issued by the Company.

In 2013, the Company and MTF also entered into a bridge note in the principal amount of \$100,000. Prior to consummation of the Merger, the 2013 bridge note and accrued interest were converted into Common Stock at a conversion price of \$1.00 per share.

Pursuant to the AFH/MTF Agreement, MTF has the right to appoint three members to the Company’s Board of Directors together with one non-voting observer.

On September 15, 2014, the Company and MTF entered into a loan agreement and accompanying promissory note to fund the continued operations of the Company prior to the Merger. On October 27, 2014, the balance in the amount of \$303,371 was paid in full and the line of credit was cancelled.

On February 22, 2016, the Company entered into a share purchase agreement with MTF, pursuant to which MTF purchased from the Company an aggregate of 731,707 shares of common stock of the Company at a price per share equal to \$2.05.

On February 24, 2016 the Company entered into an Option Agreement for the Distribution and Supply of Sygnal™ demineralized bone matrix (“Sygnal”) with MTF pursuant to which:

- a. MTF grants to the Company the exclusive right and option (the “Option”) to distribute Sygnal upon the critical terms as described in the Option Agreement (the “Option Rights”). The Company will exercise the Option, if at all, by providing written notice to MTF of its intent to do so. During the term of the Option, MTF will not enter into any agreements with any third parties which include the transfer by MTF of the Option Rights.
- b. Upon the exercising of the Option, the Company will grant to MTF 700,000 shares of common stock in the Company.
- c. Within 30 days of exercising the Option, MTF will provide the Company with a written proposal of a Definitive Agreement that includes, *inter alia*, the Critical Terms and those other commercially reasonable terms as agreed upon by the parties. The parties will fully negotiate in good faith all of the terms of the Definitive Agreement, and any ancillary agreements thereto consistent with the Critical Terms.
- d. In the event the Company does not exercise the Option within the Term of the Option Agreement, MTF will be free to enter into any other agreement relating to the Option Rights as it deems appropriate without liability to the Company.

Sygnal is a bone void filler contouring allograft bone that has the inorganic mineral removed, leaving behind the organic “collagen” matrix.

## **Hankey Capital LLC**

### ***First Secured Convertible Note and Warrant***

On October 24, 2014, the Company issued a convertible promissory note in the amount of \$5,000,000 to Hankey Capital, LLC (“Hankey Capital”). The Convertible Note matures on October 24, 2017 and bears interest at an annual rate of interest of the “prime rate” plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Maturity Date, Hankey Capital has a right, in its sole discretion, to convert the Convertible Note into shares of the Company’s Common Stock, at a conversion rate equal to the greater of (i) \$1.58 per share or (ii) 70% of the average daily price for the Common Stock as measured over the course of the 60 day period prior to the conversion.

The Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50% (the “Collateral”). 6,329,114 shares were issued upon closing the lending. The number of shares in the Collateral shall be adjusted on a yearly basis. The shares representing the Collateral contain a restrictive legend. The Company shall seek to register the Collateral shares initially delivered on the date of the Convertible Note pursuant to the Registration Rights Agreement described below. Upon the effectiveness of such Registration Statement, the Company will remove the restrictive legends from the Collateral shares so long as Hankey Capital agrees in any event not to sell any Collateral shares if Hankey Capital is notified that the Registration Statement is no longer effective. Hankey Capital may hold the Collateral in any brokerage account of its choosing, but shall not transfer, sell or otherwise dispose of any Collateral, except during the existence of an Event of Default, as defined in the Convertible Note. The Convertible Note is further secured by collateral assignments of all the Company’s license agreements. The principal amount of the loan is pre-payable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital will return Collateral shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all Collateral shares shall be returned return and cancelled. Hankey Capital will also return Collateral shares under the same terms in case of partial or full conversion of the Convertible Note. The Company paid a commitment fee in the amount of 3.0% of the original principal amount of the loan (\$150,000) to Hankey Capital. On October 24, 2014, the Company also issued a warrant to Hankey Capital for 3,955,697 shares of Common Stock at an exercise price per share of \$1.58. The Warrant was amended as of February 10, 2016 to extend the expiration date to October 24, 2019. The Note and Warrant contain provisions limiting the exercise/conversion thereof.

### ***Second Secured Convertible Note and Warrant***

On May 4, 2015, the Company issued a convertible promissory note in the amount of \$2,000,000 to Hankey Capital. The 2nd Convertible Note matures on May 4, 2018 and bears interest at an annual rate of interest of the “prime rate” plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Maturity Date, Hankey Capital has a right, in its sole discretion, to convert the Convertible Note into shares of the Company’s Common Stock, at a conversion rate equal to the greater of (i) \$1.58 per share or (ii) 70% of the average daily price for the Common Stock as measured over the course of the 60 day period prior to the conversion. The Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50%. The number of shares in the Collateral shall be adjusted on a yearly basis. The Convertible Note is further secured by collateral assignments of all the Company’s license agreements. The principal amount of the loan is pre-payable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital shall return Collateral shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all the collateral shares shall be returned and cancelled. Hankey Capital shall also return the collateral shares under the same terms in case of partial or full conversion of the Convertible Note. In connection with the Convertible Note, on May 4, 2015 the Company issued 2,531,646 common shares as collateral. The Company paid a commitment fee in the amount of \$60,000 (3% of the original principal amount of the loan) to Hankey Capital. On May 4, 2015, the Company also issued a warrant to Hankey Capital for 1,898,734 shares of Common Stock at an exercise price per share of \$1.58. The Warrant was amended as of February 10, 2016 to extend the expiration date to May 4, 2020. The Note and Warrant contain provisions limiting the exercise/conversion thereof.

### ***Third Convertible Secured Term Note and Warrant***

On February 24, 2016, the Company issued a convertible promissory note in the amount of \$2,000,000 to Hankey Capital. The Convertible Note matures on February 23, 2019 (the “Maturity Date”) and bears interest at an annual rate of interest at the “prime rate” (as quoted in the “Money Rates” section of The Wall Street Journal) plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Maturity Date, Hankey Capital has a right, in its sole discretion, to convert the Convertible Note into shares of the Company’s common stock (the “Conversion Shares”), at a conversion rate equal to \$1.58 per share. The Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50%. The number of Collateral Shares will be adjusted on a yearly basis. The Convertible Note is further secured by all of the Company’s personal property, including collateral assignments of all the Company’s license agreements and the Option Agreement. The principal amount of the loan is prepayable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital will return Collateral Shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all Collateral Shares will be returned and cancelled. Hankey Capital will also return Collateral Shares under the same terms in case of partial or full conversion of the Convertible Note. In connection with the Convertible Note, on February 24, 2016 the Company issued 2,531,646 common shares as collateral, paid a commitment fee in the amount of \$40,000 (2% of the original principal amount of the Loan) and a warrant to Hankey Capital for 1,463,415 shares of Common Stock at an exercise price per share of \$2.05. The Warrant will expire on February 23, 2021. The Note and Warrant contain provisions limiting the exercise/conversion thereof.

In connection with the financing with Hankey Capital, Hankey Capital exercised warrants to purchase an aggregate of 791,139 shares resulting in gross proceeds to the Company of \$1,250,000, and the parties agreed to extend the maturity date of the first two convertible secured notes to December 31, 2019 and fix the conversion rate to \$1.58. The Company also agreed to extend the term of all outstanding warrants to five years from issuance.

## **Founders**

The Company entered into a Letter Agreement effective October 2, 2015, with each of Dr. Chia Soo (who currently serves as a director of the Company), Dr. Eric Kang Ting and Dr. Ben Wu (who currently serves as a director of the Company) (collectively, the “Founders”). The Founders were three of the original shareholders of the Company. Pursuant to the Letter Agreement, the Founders agrees to deliver to the Company all past work product and past data related to NELL-1 (the “Data”) for use by the Company in its sole discretion, within the applicable licensing rights granted under the UCLA license and in exchange the Company agreed to the future issuance of an aggregate of 1,153,846 shares of the Company’s common stock. The Shares are to be equally distributed between the Founders upon the earlier of (i) the third anniversary of the Agreement and (ii) the occurrence of a Liquidity Event (as defined in the Letter Agreement). The Letter Agreement also provides the Shares with certain piggyback registration rights upon the occurrence of an equity financing by the Company. The Letter Agreement related to past work product and past data and therefore will be expensed as research and development costs upon the effective date and recorded a liability to issue shares.

## **Founders Professional Services Agreement**

Effective January 8, 2016, the Company entered into separate Professional Services Agreements with each of the Founders. Pursuant to each of the Agreements, each Founder has agreed to provide certain services to the Company, including providing strategic advice and strategic introductions to the Company’s management team as well as specific services set forth on an Exhibit to each Agreement. The Agreements are substantially identical. In consideration for the services to be rendered under the applicable Agreement, each Founder is granted 10-year stock options (the “Options”) to purchase 1,800,364 shares of the Company’s common stock corresponding to 4% of the Company’s outstanding common stock, on a fully diluted basis, at an exercise price of \$1.59 per share. The shares subject to the Options will vest 25% on each of the first, second and third anniversary of the effective date and 12.5% on each of the fourth and fifth anniversary of the effective date. The options fully vest on a change of control of the Company, if the Company terminates the Agreement without cause or the Founder terminates the Agreement with cause. Additionally, beginning January 1, 2017, the Company will pay each Founder an annual consulting fee of \$200,000 in cash or, at the option of the Company, in shares of its common stock valued as provided in the Agreement.

Dr. Soo and Dr. Wu are directors of the Company, and Dr. Ting is on the Company’s Scientific Advisory Board. Each of the Advisors were involved in the founding of the Company.

## **COMPETITION**

The orthobiologic and orthopedic industries are characterized by rapidly advancing technologies, intense competition and a strong emphasis on intellectual property. We face substantial competition from many different sources, including large and specialty orthopedic companies, biotechnology companies, academic research institutions and governmental agencies along with public and private research institutions.

Our business is in a very competitive and evolving field, that faces competition from large established orthopedic companies such as (but not limited to) Medtronic, Stryker, Zimmer-Biomet, and DePuy-Synthes that possess considerably more resources than Bone Biologics.

Our commercial opportunity could be reduced if our competitors develop and commercialize products that are safer, more effective, have fewer or less severe side effects, are more convenient or are less expensive than any products that we may develop. Our competitors also may obtain FDA or other regulatory approval for their products more rapidly than we may obtain approval for ours, which could result in our competitors establishing a strong market position before we are able to enter the market.

The NELL-1 growth factor is mechanistically distinct from BMPs and can minimize complications associated with BMP therapies. The early proof of concept animal studies has shown the efficacy of NELL-1 combined with demineralized bone matrix (DBM) as a novel bone graft material for interbody spine fusion.

## CUSTOMERS

The populations of interest include spine surgeons, and patients with a skeletal bone defect or bone-related condition in their spine, for which intervention is undertaken to correct such a defect. Spine surgeons and patients can choose to eliminate the need to perform a second painful surgery to obtain autograft harvest of hip bone for fusion procedures by utilizing various other types of biologics.

Most cases of lower back pain can be linked to a general cause such as muscle strain, injury, overuse, or can be attributed to a specific condition like herniated disc, degenerative disc disease, spondylolisthesis, spinal stenosis, or osteoarthritis.

## INTELLECTUAL PROPERTY

We have an intellectual property portfolio that includes exclusive, worldwide licenses from UCLA which we believe constitute a formidable barrier to entry.

Additional patent applications are currently in preparation. The intellectual property is unique and comprehensively covers NELL-1 manufacture, NELL-1 compositions and NELL-1 use in wide ranging clinical and diagnostic applications. We protect our proprietary technology through all mechanisms including U.S. and foreign patent filings, trade secret protections, and collaboration agreements with domestic and international corporations, universities and research institutions. We are the exclusive licensee for the following twelve (12) UCLA issued patents:

<u>U.S. Patent No.</u>	<u>Summary</u>	<u>Date Issued</u>
7052856	NELL-1 Enhanced Bone Mineralization	5/20/2006
7544486	NELL-1 Peptide Expression Systems	6/9/2009
7687462	Composition for promoting Cartilage	3/30/2010
7691607	Expression system of NELL-1 peptide	4/6/2010
7776361	NELL-1 Enhanced Bone Mineralization	8/17/2010
7807787	NELL-1 Peptide	10/5/2010
7833968	Pharmaceutical compositions for treating or preventing bone conditions	11/16/2010
7844066	NELL-1 Enhanced Bone Mineralization	2/8/2011
8044026	Composition for promoting cartilage	10/25/2011
8048646	NELL-1 peptide expression systems	11/1/2011
8053412	NELL-1 Peptides	11/8/2011
8207120	NELL-1 Enhanced Bone Mineralization	6/26/2012

## GOVERNMENT REGULATION

The manufacturing and marketing of any product which we may formulate with our technologies as well as our related research and development activities are subject to regulation for safety, efficacy and quality by governmental authorities in the U.S. and other countries. We anticipate that these regulations will apply separately to each biotechnology product. The Company believes that complying with these regulations will involve a considerable level of time, expense and uncertainty.

In the U.S., drugs are subject to rigorous federal regulation and, to a lesser extent, state regulation. The Federal Food, Drug and Cosmetic Act, as amended, and the regulations promulgated thereunder, and other federal and state statutes and regulations govern, among other things, the testing, manufacture, safety, efficacy, labeling, storage, record keeping, approval, advertising and promotion of our products. Drug development and approval within this regulatory framework is difficult to predict, requires a number of years and involves the expenditure of substantial resources. Moreover, ongoing legislation by U.S. Congress and rule making by the United States Food and Drug Administration (“FDA”) presents an ever-changing landscape where we could be required to undertake additional activities before any governmental approval is granted allowing us to market our products. The steps required before a pharmaceutical agent may be marketed in the U.S. include:

- Laboratory and non-clinical tests for safety and small scale manufacturing of the agent;
- The submission to the FDA of an IDE which must become effective before human clinical trials can commence;
- Clinical trials to characterize the efficacy and safety of the product in the intended patient population;
- The submission of a New Drug Application (“NDA”) or PMA to the FDA; and
- FDA approval of the NDA or PMA prior to any commercial sale or shipment of the product.

In addition to obtaining FDA approval for each product, each manufacturing establishment must be registered with, and approved by, the FDA. Moreover, manufacturing establishments are subject to biennial inspections by the FDA and must comply with the FDA’s current Good Manufacturing Practices “cGMP” for products, drugs and devices.

### *Non-clinical Trials*

Non-clinical testing includes laboratory evaluation of chemistry and formulation as well as tissue culture and animal studies to assess the safety and potential efficacy of the product. Non-clinical safety tests must be conducted by laboratories that comply with FDA regulations regarding good laboratory practices. Non-clinical testing is inherently risky and the results can be unpredictable or difficult to interpret. The results of non-clinical testing are submitted to the FDA as part of an IDE and are reviewed by the FDA prior to the commencement of clinical trials. Unless the FDA objects to an IDE, clinical studies may begin 30 days after the IDE is submitted. We have relied and intend to continue to rely on third-party contractors to perform non-clinical trials.

### *Clinical Trials*

Clinical trials involve the administration of the investigational product to healthy volunteers or to patients under the supervision of a qualified investigator. Clinical trials must be conducted in accordance with good clinical practices under protocols that detail the objectives of the study, the parameters to be used to monitor safety and the efficacy criteria to be evaluated. Each protocol must be submitted to the FDA prior to its conduct. Further, each clinical study must be conducted under the auspices of an independent institutional review board. The institutional review board will consider, among other things, ethical factors, the safety of human subjects and the possible liability of the institution. The drug product used in clinical trials must be manufactured according to the FDA’s current Good Manufacturing Practices.

Clinical trials under IDE regulations are typically conducted in two sequential trials. In the Pilot trial, the initial introduction of the product into healthy human subjects, the drug is tested for safety (adverse side effects), absorption, metabolism, bio-distribution, excretion, food and drug interactions, abuse as well as limited measures of pharmacologic effect and proof of principle that involves studies in a limited patient population in order to:

- assess the potential efficacy of the product for specific, targeted indications;
- demonstrate efficacy in a limited patient population;
- identify the range of doses likely to be effective for the indication; and
- identify possible adverse events and safety risks.

When there is evidence that the product may be effective and has an acceptable safety profile in Pilot evaluations, Pivotal trials are undertaken to establish and confirm the clinical efficacy and establish the safety profile of the product within a larger population at geographically dispersed clinical study sites. Pivotal trials frequently involve randomized controlled trials and, whenever possible, studies are conducted in a manner so that neither the patient nor the investigator knows what treatment is being administered. The Company, or the FDA, may suspend clinical trials at any time if it is believed that the individuals participating in such trials are being exposed to unacceptable health risks. We intend to rely upon third-party contractors to advise and assist us in the preparation of our IDEs and the conduct of clinical trials that will be conducted under the IDEs.

#### ***Premarket Approval and FDA Approval Process***

The results of the manufacturing process, development work, non-clinical studies and clinical studies are submitted to the FDA in the form of a PMA prior to marketing and selling the product. The testing and approval process is likely to require substantial time and effort. In addition to the results of non-clinical and clinical testing, the PMA applicant must submit detailed information about chemistry, manufacturing and controls that will describe how the product is made and tested through the manufacturing process.

The PMA review process involves FDA investigation into the details of the manufacturing process, as well as the design and analysis of each of the non-clinical and clinical studies. This review includes inspection of the manufacturing facility, the data recording process for the clinical studies, the record keeping at a sample of clinical trial sites and a thorough review of the data collected and analyzed for each non-clinical and clinical study. Through this investigation, the FDA reaches a decision about the risk-benefit profile of a product candidate. If the benefit is worth the risk, the FDA begins negotiating with the company about the content of an acceptable package insert and associated Risk Evaluation and Mitigation Strategies (“REMS”), if required.

The approval process is affected by a number of factors, including the severity of the disease, the availability of alternative treatments and the risks and benefits demonstrated in clinical trials. Consequently, there is a risk that approval may not be granted on a timely basis, if at all. The FDA may deny a PMA if applicable regulatory criteria are not satisfied, require additional testing or information or require post-marketing testing (Phase 4) and surveillance to monitor the safety of a company’s product if it does not believe the PMA contains adequate evidence of the safety and efficacy of the product. Moreover, if regulatory approval of a product is granted, such approval may entail limitations on the indicated uses for which it may be marketed. Finally, product approvals may be withdrawn if compliance with regulatory standards is not maintained or health problems are identified that would alter the risk-benefit analysis for the product. Post-approval studies may be conducted to explore the use of the product for new indications or populations such as pediatrics.

Among the conditions for PMA approval is the requirement that any prospective manufacturer’s quality control and manufacturing procedures conform to the FDA’s Good Manufacturing Practices and the specifications approved in the PMA. In complying with standards set forth in these regulations, manufacturers must continue to expend time, money and effort in the area of product and quality control to ensure full technical compliance. Manufacturing establishments, both foreign and domestic, also are subject to inspections by or under the authority of the FDA and by other federal, state or local agencies. Additionally, in the event of non-compliance, FDA may issue warning letters and/or seek criminal and civil penalties, enjoin manufacture, seize product or revoke approval.

### ***International Approval***

Whether or not FDA approval has been obtained, approval of a product by regulatory authorities in foreign countries must be obtained prior to the commencement of commercial sales of the drug in such countries. The requirements governing the conduct of clinical trials and drug approvals vary widely from country to country, and the time required for approval may be longer or shorter than that required for FDA approval. Although there are some procedures for unified filings for certain European countries, in general, each country at this time has its own procedures and requirements.

### ***Other Regulation***

In addition to regulations enforced by the FDA, we are also subject to U.S. regulation under the Controlled Substances Act, the Occupational Safety and Health Act, the Environmental Protection Act, the Toxic Substances Control Act, the Resource Conservation and Recovery Act and other present and potential future federal, state, local or similar foreign regulations. Our research and development may involve the controlled use of hazardous materials, chemicals and radioactive compounds. Although we believe that its safety procedures for handling and disposing of such materials comply with the standards prescribed by state and federal regulations, the risk of accidental contamination or injury from these materials cannot be completely eliminated. In the event of any accident, we could be held liable for any damages that result and any such liability could exceed our resources.

### **EMPLOYEES**

As of the date hereof, we have three (3) full-time employees.

#### ***Item 1A. Risk Factors***

Not applicable.

#### ***Item 1B. Unresolved Staff Comments***

None.

#### ***Item 2. Properties***

We lease our primary office is located at 321 Columbus Ave., Boston, MA 02116.

#### ***Item 3. Legal Proceedings***

In the normal course of our business, the Company may periodically become subject to various lawsuits. However, there are currently no legal actions pending against us or, to our knowledge, are any such proceedings contemplated.

#### ***Item 4. Mine Safety Disclosures***

Not applicable.

## PART II

### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities

#### Market.

Our common stock trades over-the-counter and is quoted on the OTCQB of the OTC Markets under the symbol "BBLG" effective January 27, 2016. From December 10, 2015 through listing on the OTCQB our stock was quoted on the OTC Bulletin Board. The table below sets forth the high and low bid prices for our common stock as reflected on the OTC Bulletin Board. Quotations represent prices between dealers, do not include retail markups, markdowns or commissions, and do not necessarily represent prices at which actual transactions were affected.

Common Stock			
Fiscal Year 2015		High	Low
Fourth Quarter		\$ 0.01	\$ 0.01

#### Holder.

As of March 14, 2016, there are approximately 40 record holders of 38,014,507 shares of Common Stock.

#### Dividends.

To date, we have paid no cash dividends on our Common Stock. For the foreseeable future, earnings generated from our operations will be retained for use in our business and not to pay dividends.

#### Securities Authorized for Issuance under Equity Compensation Plans

##### 2015 Equity Incentive Plan

The Company has 14,000,000 shares of Common Stock authorized and reserved for issuance under our 2015 Equity Incentive Plan for option awards. This reserve may be increased by the Board each year by up to the number of shares of stock equal to 5% of the number of shares of stock issued and outstanding on the immediately preceding December 31. Appropriate adjustments will be made in the number of authorized shares and other numerical limits in our 2015 Equity Incentive Plan and in outstanding awards to prevent dilution or enlargement of participants' rights in the event of a stock split or other change in our capital structure. Shares subject to awards granted under our 2015 Equity Incentive Plan which expire, are repurchased or are cancelled or forfeited will again become available for issuance under our 2015 Equity Incentive Plan. The shares available will not be reduced by awards settled in cash. Shares withheld to satisfy tax withholding obligations will not again become available for grant. The gross number of shares issued upon the exercise of stock appreciation rights or options exercised by means of a net exercise or by tender of previously owned shares will be deducted from the shares available under our 2015 Equity Incentive Plan.

Awards may be granted under our 2015 Equity Incentive Plan to our employees, including officers, director or consultants, and our present or future affiliated entities. While we may grant incentive stock options only to employees, we may grant non-statutory stock options, stock appreciation rights, restricted stock purchase rights or bonuses, restricted stock units, performance shares, performance units and cash-based awards or other stock based awards to any eligible participant.

The 2015 Equity Incentive Plan will be administered by our compensation committee. Subject to the provisions of our 2015 Equity Incentive Plan, the compensation committee determines, in its discretion, the persons to whom, and the times at which, awards are granted, as well as the size, terms and conditions of each award. All awards are evidenced by a written agreement between us and the holder of the award. The compensation committee has the authority to construe and interpret the terms of our 2015 Equity Incentive Plan and awards granted under our 2015 Equity Incentive Plan.

<b>Plan category</b>	<b>Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)</b>	<b>Weighted-average exercise price of outstanding options, warrants and rights (b)</b>	<b>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)</b>
Equity compensation plans approved by security holders	6,294,226	\$ 1.59	7,705,774
Equity compensation plans not approved by security holders			
<b>Total</b>	<b>6,294,226</b>	<b>\$ 1.59</b>	<b>7,705,774</b>

**Item 6. Selected Financial Data**

Not applicable.

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Overview**

We are a biotechnology company that is currently focused on bone regeneration in spinal fusion using the recombinant human protein, known as NELL-1/DBX®. The NELL-1/DBX® combination product is an osteoinductive recombinant protein that provides target specific control over bone regeneration. The protein, as part of the UCB-1 technology platform has been licensed exclusively for worldwide applications to us through a technology transfer from UCLA. UCLA and the Company received guidance from the FDA that NELL-1/DBX® will be classified as a combination product with a device lead.

We are a development stage entity. The production and marketing of our products and ongoing research and development activities will be subject to extensive regulation by numerous governmental authorities in the United States. Prior to marketing in the United States, any combination product developed by us must undergo rigorous preclinical (animal) and clinical (human) testing and an extensive regulatory approval process implemented by the FDA under the Food, Drug and Cosmetic Act. There can be no assurance that we will not encounter problems in clinical trials that will cause us or the FDA to delay or suspend the clinical trial.

Our success will depend in part on our ability to obtain patents and product license rights, maintain trade secrets, and operate without infringing on the proprietary rights of others, both in the United States and other countries. There can be no assurance that patents issued to or licensed by us will not be challenged, invalidated, or circumvented, or that the rights granted thereunder will provide proprietary protection or competitive advantages to us.

#### ***UCLA Exclusive License Agreement***

On March 15, 2006, the Company entered into an exclusive license agreement (the “Initial Agreement”) with the Regents of the University of California Los Angeles (“UCLA”). The Initial Agreement has been amended through nine sets of amendments (as so amended, the “The UCLA License Agreement”).

The UCLA License Agreement provides us with an exclusive license to several of UCLA patents covering, among other things, enhanced NELL-1 bone mineralization. The grant of the UCLA License Agreement is subject to any license obligations to the U.S. government, and the term of the license lasts until the last-to-expire UCLA patent licensed under the UCLA License Agreement expires. Under the UCLA License Agreement, we are permitted to make, have made, use, sell, offer for sale and import any products covered by the UCLA License Agreement patents in a certain Field of Use which is currently defined as special function by local administration and expressly excludes osteoporosis and cartilage indications or systemic administration in all indications. Currently the parties are negotiating in good faith the terms pursuant to which UCLA will grant an option to exclusively license UCLA Patent Rights in the osteoporosis indication. After December 22, 2016, we may notify UCLA of our interest in requesting an expansion of the Field of Use to include additional available indications, including cartilage indications or systemic administration in the Field of Use. The parties will engage in good faith discussions of such requests.

The UCLA License Agreement provides us with an exclusive license to several of UCLA patents covering, among other things, enhanced NELL-1 bone mineralization. The grant of the UCLA License Agreement is subject to any license obligations to the U.S. government, and the term of the license lasts until the last-to-expire UCLA patent licensed under the UCLA License Agreement expires. Under the UCLA License Agreement, we are permitted to make, have made, use, sell, offer for sale and import any products covered by the UCLA License Agreement patents in a certain field of use. We have agreed to pay an annual maintenance fee to UCLA of \$10,000 as well as to pay certain royalties to UCLA under the UCLA License Agreement at the rate of 3.0% of net sales of licensed products. We must pay the royalties to UCLA on a quarterly basis. Upon a first commercial sale, we also must pay between \$50,000 and \$250,000, depending on the calendar year which is after the first commercial sale. If we are required to pay any third party any royalties as a result of us making use of UCLA patents, then we may reduce the royalty owed to UCLA by 0.333% for every percentage point paid to a third party. If we grant sublicense rights to a third party to use the UCLA patent, then we will pay to UCLA 10% to 20% of the sublicensing income we receive from such sublicense.

We are obligated to make the following milestone payments to UCLA for each Licensed Product or Licensed Method:

- \$100,000 upon enrollment of the first subject in a Feasibility Study;
- \$250,000 upon enrollment of the first subject in a Pivotal Study;
- \$500,000 upon Pre-Market Approval of a Licensed Product or Licensed Method; and
- \$1,000,000 upon the First Commercial Sale of a Licensed Product or Licensed Method.

We are also obligated to pay UCLA a cash milestone payment within thirty (30) days of a Liquidity Event (including a Change of Control Transaction and a payment election by UCLA exercisable after December 22, 2016, such payment to equal the greater of:

- \$500,000; or
- 2% of all proceeds in connection with a Change of Control Transaction.

We are obligated to diligently proceed with developing and commercializing licensed products under UCLA patents set forth in the UCLA License Agreement. UCLA has the right to either terminate the license or reduce the license to a non-exclusive license if we do not meet certain diligence milestone deadlines set forth in the UCLA License Agreement.

We must reimburse or pre-pay UCLA for patent prosecution and maintenance costs incurred during the term of the UCLA License Agreement. We have the right to bring infringement actions against third party infringers of the UCLA License Agreement, UCLA may join voluntarily, at its own expense, or, at our expense, be joined involuntarily to the action. We are required to indemnify UCLA against any third party claims arising out of our exercise of the rights under the UCLA License Agreement or any sublicense.

#### *Recapitalization*

We were incorporated under the laws of the State of Delaware on October 18, 2007 as AFH Acquisition X, Inc. Through a reverse merger in September 2014 (the “Merger”), the Company acquired its operating subsidiary Bone Biologics, Inc. Upon the consummation of the Merger, the Company officially changed its name to “Bone Biologics Corporation” to more accurately reflect the nature of its business, and Bone Biologics, Inc. became a wholly-owned subsidiary of the Company. Bone Biologics, Inc. was incorporated in California on March 9, 2004.

In connection with the Merger, the 5,000,000 outstanding shares of Common Stock of the Company prior to the Merger were consolidated into 3,853,600 shares of Common Stock and the remaining shares were cancelled.

Additionally, all of the issued and outstanding shares of Bone Biologics Inc.’s \$0.0001 par value common stock converted into a combined total of 19,897,587 shares of the Company’s Common Stock (including 2,151,926 shares issuable upon the exercise of outstanding warrants and 5,648,658 shares issuable upon the conversion of debt). In exchange, Bone Biologics, Inc. agreed to pay AFH Holding & Advisory, LLC (“AFH Advisory”), former majority shareholder of AFH Acquisition X, Inc., the principal sum of \$590,000.

#### **Results of Operations**

Since our inception, we devoted substantially all of our efforts and funding to the development of the NELL-1 protein and raising capital. We have not yet generated revenues from our planned operations.

#### *Year ended December 31, 2015 compared to the year ended December 31, 2014*

	Year ended December 31, 2015	Year ended December 31, 2014	% Change

### Research and Development

Our research and development expenses increased from \$623,522 during the year ended December 31, 2014 to \$3,666,108 during the year ended December 31, 2015. The \$3,042,586 or 487.97% increase was primarily due to the fair value of shares to be issued pursuant to our agreement with our Founders of \$1,823,077 and increases in development activities for our lead product NELL-1. We will continue to incur significant expenses for development activities for NELL-1. We also had an increase in the stock compensation expense related to the issuance of additional options.

### General and Administrative

Our general and administrative expenses increased from \$1,509,306 during the year ended December 31, 2014 to \$8,329,978 during the year ended December 31, 2015. The \$6,820,672 or 451.91% increase was primarily due to the issuance of shares for the MTF Revised Milestone Side Letter Agreement totaling \$1,370,118, increased wages and issuance of stock options to our new Chief Executive Officer and Chief Operating Officer and the issuance of options and shares to our directors during the year ended December 31, 2015. None of these costs were incurred during the year ended December 31, 2014. We also incurred increased legal expenses during year ended December 31, 2015 resulting from services provided for various agreements entered into during the year.

### Transaction Costs

Transaction costs are expenses associated with our recapitalization which include accounting, legal and other professional services and the \$590,000 fee paid to AFH Advisory incurred in 2014. This applies only to the merger transaction therefore no costs were incurred for the year ended December 31, 2015.

### Interest Expense

Our net interest expense increased from \$1,402,585 for the year ended December 31, 2014 to \$1,872,001 during the year ended December 31, 2015. The \$469,416 or 33.47% increase was related to the secured convertible note issuance in May 2015 and offset by a non-cash charge for warrants issued in connection with a short term line of credit secured in 2014.

We have no significant operating history and, from our inception to December 31, 2015, we have generated a net loss of approximately \$25.9 million. The financial statements for the years ended December 31, 2015 and 2014 were prepared assuming we will continue as a going concern. Operating expenditures for the next twelve months are estimated at \$6.9 million. The Company has no principal payment requirements for the next 12 months.

The Company will continue to incur significant expenses for development activities for their lead product NELL-1. The Company's December 31, 2015 audited financial statements contained a notation by our auditors regarding the Company's ability to continue as a going concern. The accompanying consolidated financial statements for the year ended December 31, 2015, have been prepared assuming the Company will continue as a going concern. Management intends to raise additional debt and/or equity financing to fund future operations and to provide additional working capital. However, there is no assurance that such financing will be consummated or obtained in sufficient amounts necessary to meet the Company's needs.

As of December 31, 2015 and 2014, we had cash of \$1,115,109 and \$2,661,396, respectively.

On February 22, 2016, the Company entered into share purchase agreements, pursuant to which the Company sold an aggregate of 1,219,511 shares of common stock of the Company at a price per share equal to \$2.05 for gross proceeds of \$2.5 million.

On February 24, 2016, the Company issued a convertible promissory note in the amount of \$2,000,000 to Hankey Capital. The Convertible Note matures on February 23, 2019 (the "Maturity Date") and bears interest at an annual rate of interest at the "prime rate" (as quoted in the "Money Rates" section of The Wall Street Journal) plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Maturity Date, Hankey Capital has a right, in its sole discretion, to convert the Convertible Note into shares of the Company's common stock (the "Conversion Shares"), at a conversion rate equal to \$1.58 per share. The Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50%. The number of Collateral Shares will be adjusted on a yearly basis. The Convertible Note is further secured by all of the Company's personal property, including collateral assignments of all the Company's license agreements and the Option Agreement. The principal amount of the loan is prepayable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital will return Collateral Shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all Collateral Shares will be returned and cancelled. Hankey Capital will also return Collateral Shares under the same terms in case of partial or full conversion of the Convertible Note.

In connection with the financing with Hankey Capital, Hankey Capital exercised warrants to purchase an aggregate of 791,139 shares resulting in gross proceeds to the Company of \$1,250,000.

## Cash Flows

The following is a summary of our cash flows provided by operating, investing and financing activities for the years ended December 31, 2015 and 2014:

	Year Ended December 31, 2015	Year Ended December 31, 2014
<b>Operating activities</b>		
Net loss	\$ (13,876,927)	\$ (4,424,413)
Adjustments to reconcile net loss to net cash provided by (used in) operating activities:		
Depreciation	4,451	280
Accrued interest expense	105,669	318,215
Amortization of deferred financing costs	661,617	60,398
Debt discount amortization	623,101	437,115
Stock-based compensation	3,700,431	256,642
Warrants issued with Line of Credit	-	520,487
Warrants issued to consultants	497,003	379,349
Loss on sale of marketable securities	-	9,624
Shares issued for services	2,825,943	-
Transaction costs financed through notes payable	-	590,000
Shares to be issued for research & development service	1,823,077	-
Loss on disposal of fixed equipment	1,870	-
Changes in operating assets and liabilities:		
Prepaid expenses and other current assets	3,519	(78,750)
Deferred financing costs	(185,000)	(543,401)
Other receivables – related party	75,000	(75,000)
Advances due to related party	-	(41,300)
Accounts payable and accrued expenses	194,463	(164,864)
Net cash (used in) operating activities	<u>(3,545,783)</u>	<u>(2,755,618)</u>
<b>Investing activities</b>		
Purchase of property and equipment	(504)	(11,901)
Proceeds from sale of marketable securities	-	37,377
Net cash (used in) provided by investing activities	<u>(504)</u>	<u>25,476</u>
<b>Financing activities</b>		
Proceeds from the issuance of common stock	-	480,000
Repayment of debt	-	(590,000)
Proceeds from issuance of notes payable - related party	-	553,371
Repayment of notes payable – related party	-	(303,371)
Proceeds from issuance of notes payable	2,000,000	5,250,000
Net cash provided by financing activities	<u>2,000,000</u>	<u>5,390,000</u>
<b>Net increase (decrease) in cash</b>	<b>(1,546,287)</b>	<b>2,659,858</b>
<b>Cash, beginning of period</b>	<b>2,661,396</b>	<b>1,538</b>
<b>Cash, end of period</b>	<b><u>\$ 1,115,109</u></b>	<b><u>\$ 2,661,396</u></b>
<b>Supplemental non-cash information</b>		
Legal expenses paid through relief of related party receivable	\$ 75,000	\$ -
Issuance of warrants in connection with Notes Payable, net of amortization included above	\$ -	\$ 248,744
Related Party Debt and accrued interest converted into Common Shares	\$ 3,852,771	\$ -
Issuance of warrants in payment of financing fees	\$ -	\$ 21,738
Note payable received in the form of investments	\$ -	\$ 50,000
Interest paid	\$ 544,708	\$ 72,014
Taxes paid	<u>\$ 8,840</u>	<u>\$ 1,600</u>

### *Operating activities*

In the years ended December 31, 2015 and 2014, cash used in operating activities was \$3,545,783 and \$2,755,618 respectively. Cash expenditures for the year ended December 31, 2015 increased primarily due to patent costs, increased wages for our new Chief Executive Officer and Chief Operating Officer and professional fees as a result of the Company's financing activities and costs of becoming a public entity.

### *Investing activities*

In the year ended December 31, 2015, cash used in investing activities of \$504 was a purchase of equipment. In the year ended December 31, 2014, cash provided by investing activities of \$25,476 resulted from the sale of marketable securities which were received in lieu of cash for a bridge note with AFH Advisory reduced by the purchases of equipment of \$11,901.

### *Financing activities*

During the year ended December 31, 2015, cash provided by financing activities was from the issuance of a \$2,000,000 convertible note issued in May 2015. During the year ended December 31, 2014, cash provided by financing activities was \$5,390,000 and resulted from the proceeds received from the issuance of notes and sale of shares.

### **Off-Balance Sheet Arrangements**

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

### **Item 7A. *Quantitative and Qualitative Disclosures about Market Risk***

Not applicable.

### **Item 8. *Financial Statements and Supplementary Data***

The financial statements and supplementary data required by Regulation S-X are included in Item 15. "Exhibits, Financial Statements Schedules" contained in Part IV, Item 15 of this Annual Report.

### **Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure***

None.

### **Item 9A. *Controls and Procedures***

#### *Evaluation of Disclosure Controls and Procedures*

Under the supervision and with the participation of our management, including our Chief Financial Officer and Chief Executive Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act)) as of December 31, 2015. Based upon that evaluation, our Chief Financial Officer and Chief Executive Officer concluded that as of December 31, 2015, our disclosure controls and procedures were not effective.

### *Management's Annual Report on Internal Control over Financial Reporting*

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, the company's principal executive officers and effected by the company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Because of the inherent limitations of internal control, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

As of December 31, 2015, management assessed the effectiveness of our internal control over financial reporting and based on that evaluation, they concluded that our internal controls and procedures were not effective.

### *Changes in Internal Control over Financial Reporting*

During 2014, we identified a material weakness related to the valuation of options and warrants issued. The Company has engaged a third party to review our calculations. During the quarter ended September 30, 2015, the Company granted options in excess of the 2014 Stock Option Plan Stock reserve. The 2015 Equity Incentive Plan was developed and approved by the Board and majority shareholders. Sufficient shares have been reserved and any additional issuances are first assessed against the available reserve.

Except for the changes noted above, there was no change in our internal control over financial reporting that occurred during the year ended December 31, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

### **Item 9B. Other Information**

None.

### Part III

#### Item 10. Directors, Executive Officers and Corporate Governance

The Company's directors are elected annually for a one year term or until their respective successors are duly elected and qualified or until their earlier resignation or removal. The following table sets forth certain information regarding the Company's directors and executive officers as of March 14, 2016:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Stephen R. LaNeve	56	Chief Executive Officer and President and Director
Jeffrey Frelick	50	Chief Operating Officer
Deina H. Walsh	51	Chief Financial Officer
Bruce Stroever	66	Chairman of the Board of Directors
Dr. Chia Soo	48	Director
William Coffin	70	Director
John Booth	61	Director
Jimmy Delshad	75	Director
Dr. Benjamin Wu	54	Director

#### **Stephen R. LaNeve: Chief Executive Officer and President**

Stephen R. La Neve has served as our Chief Executive Officer since August 17, 2015. He brings thirty years of health care experience, leadership and success. Prior to his current position, Steve held leadership roles in the device and diagnostic segments which include: CEO and president of Etex Corporation; president of Becton Dickinson's Pre-Analytical Systems business; president of Medtronic's \$3.5b Spine and Biologics business; and president of Medtronic's second largest country business unit, Medtronic Japan. He also served as senior vice president and executive vice president at Premier, one of the largest GPOs in the United States and ran the global Injection Systems business unit for Becton Dickinson. Additionally, Steve has held a number of commercial leadership roles at Becton Dickinson, Roche Diagnostics and E Merck Diagnostic Systems in sales, marketing, strategic planning and project management both in the US and outside the US. He serves on the board of directors for SkelRegen, LLC and Rapid Pathogen Screening, Inc. (RPS), and he consults for private equity companies in the medical device area. Steve holds a B.S. in Health Planning and Administration from the Pennsylvania State University, an M.B.A. from West Chester University, and is a member of the omicron delta epsilon honor society for academic excellence in economics.

#### **Jeffrey Frelick: Chief Operating Officer**

Jeffrey Frelick has served as our Chief Operating Officer since August 17, 2015. He was the COO of Life Science Enterprises, where he brings more than 25 years of med-tech experience. He spent the past 15 years on Wall Street as a sell-side analyst following the med-tech industry at investment banks such as Canaccord Genuity, ThinkEquity and Lazard. Prior to becoming an equity research analyst, Jeff worked at Boston Biomedical Consultants where he provided strategic planning assistance, market research data and due diligence for diagnostics companies. He previously held sales and sales management positions at Becton Dickinson's Primary Care Diagnostic Division after gaining technical experience as a laboratory technologist with Clinical Pathology Facility. Jeff received a B.S. in Biology from University of Pittsburgh and an M.B.A. from Suffolk University's Sawyer Business School.

#### **Deina H. Walsh: Chief Financial Officer**

Deina Walsh has served as our Chief Financial Officer since November 2014. She is a certified public accountant and owner/founder of DHW CPA, PLLC a Public Companies Accounting Oversight Board (PCAOB) registered firm since 2014. Prior to forming her firm, Ms. Walsh has 13 years at a public accounting firm where as a partner she was actively responsible for leading firm audit engagements of publicly held entities in accordance with PCAOB standards and compliance with SEC regulations, including internal control requirements under section 404 of the Sarbanes-Oxley Act. Ms. Walsh had a global client base including entities throughout the United States, Canada and China. These entities encompass a diverse range of industries including manufacturing, wholesale, life sciences, pharmaceuticals, and technology. Her experience includes work with start-up companies and well-established operating entities. She has assisted many entities seeking debt and equity capital. Areas of specialty include mergers, acquisitions, reverse mergers, consolidations, complex equity structures, foreign currency translations and revenue recognition complexities. Ms. Walsh has an Associates of Science Degree in Business Administration from Monroe Community College and a Bachelor of Science Degree in Accounting from the State University of New York at Brockport.

**Bruce Stroever: Chairman of the Board of Directors**

Mr. Stroever has forty years of product development and general management experience in the medical device and orthobiologics fields. Mr. Stroever joined MTF in late 1988 as General Manager and is currently the President and Chief Executive Officer of MTF. He has served as MTF's President since his appointment in 1992 and as Chief Executive Officer since 1996. Under Mr. Stroever's leadership, MTF has grown to be the largest tissue bank in the world providing over 500,000 grafts per year. From 1971 to 1988, Mr. Stroever held several positions with Ethicon, Inc., a Johnson & Johnson, Inc. subsidiary. Mr. Stroever currently serves on the advisory board for the New Jersey Organ and Tissue Sharing Network. He was elected to the Board of Governors of the American Association of Tissue Banks for a three year term in 1999 and subsequently in 2012. Mr. Stroever has served as the Chairman of Bone's Board of Directors since 2012. Mr. Stroever received his B.E. in Mechanical/Chemical Engineering from Stevens Institute of Technology in 1972 and a Masters of Science in Bioengineering from Columbia University in 1977. Given Mr. Stroever's forty years of experience in the medical device and orthobiologics fields, as well as, the roles he has held at Bone, the Company believes he is well qualified to serve as the Chairman of the Board of Directors.

**Dr. Chia Soo. MD: Director**

Dr. Soo is a Professor in the UCLA Department of Orthopedics and a Professor and Vice Chair for Research in the UCLA Division of Plastic and Reconstructive Surgery. She graduated magna cum laude in 1989 with a bachelors of science in Biology from UCLA and obtained her medical degree at UCLA in 1993 with election to Alpha Omega Alpha. She completed UCLA Plastic and Reconstructive Surgery training in 2002 and was certified by the American Board of Plastic Surgery in 2005 and made a Fellow of the American College of Surgeons in 2007. Since 2011, Dr. Soo has served as a consultant to MTF, the world's largest tissue bank for allograft product development. She has also consulted extensively on the FDA regulatory issues related to allograft products, wound care products and bone growth products. Dr. Soo is one of the world's foremost experts on NELL-1 protein and has authored over 100 peer-reviewed publications on musculoskeletal regeneration, cutaneous repair, and translational applications of stem cells as well as an inventor on over 16 patents in the area of regenerative medicine. She is also an expert on large and small translational animal models for device, combination product, and drug development. Dr. Soo is a standing member of the prestigious Musculoskeletal Tissue Engineering Study Section at the National Institutes of Health (NIH) and she continues to be and has been a principal investigator on numerous awards funded by the NIH, the Department of Defense (DOD), the California Institute of Regenerative Medicine (CIRM), and most recently, the Center for Advancement of Science in Space (CASIS), the sole manager of the International Space Station U.S. National Laboratory. She also is a Founder and has served as a member of Bone's Board of Directors since 2004. Dr. Soo's unique background in NELL-1 and translational product development strongly positions her to be a Director of the Company.

**William Coffin: Director**

Founder and CEO of CCG, a national investor relations agency which during his leadership conducted business through offices in New York, Los Angeles, Beijing, Mr. Coffin was an investor relations counselor for over 30 years until his retirement in 2012. In this role, Mr. Coffin represented numerous publicly held and private companies, assisted in over 100 initial public offerings, counseled and participated in over 50 mergers and acquisitions, and worked with virtually every major investment banking firm in the country. Since 2004 until 2015, Mr. Coffin has served as Chairman of the Board of the California Council on Economic Education ("CCEE"), a nonprofit, nonpartisan organization that works towards implementing and increasing economic and financial literacy among California primary and secondary school students. Mr. Coffin is currently Chairman Emeritus of the CCEE. Mr. Coffin is also an adjunct professor in the MBA program at Mount St. Mary's University, a private liberal arts college in Los Angeles, where he teaches modern theories of corporate governance and corporate communications. Mr. Coffin received a B.A. in journalism from California State University, Los Angeles.

**John Booth: Director**

Mr. Booth has been CEO of Spineology Inc. since 2004 and has been a board member since its inception in 1998. Spineology is involved in the development and commercialization of minimally invasive spinal implants and access systems. Mr. Booth held various executive level positions at Phillips Plastics Corporation, most recently serving as CEO from June of 2001 to December 2002. Before serving as CEO of Phillips, he was CEO of Microvena Corporation, a cardiovascular device subsidiary of Phillips, from 1999 to 2001 and CEO of Phillips Origen Group Division from 1998 to 1999. Prior to Phillips, Mr. Booth was President and CEO of INCSTAR Corporation, a publicly held medical technology company involved in in-vitro diagnostics. He has held various positions in both financial and general management in the medical technology industry since 1981. Mr. Booth has also serve on the boards of directors of INCSTAR Corporation from 1994 to 1997, Microvena Corporation from 1998 to 2001, Phillips Plastics Corporation from 2000 to 2002, Imricor Medical Systems Inc. from 2007 to 2014, Spineology Inc. from 1998 to the present. Mr. Booth received a B.S. degree in accounting from Villanova University and an MBA from Seton Hall University.

**Jimmy Delshad: Director**

Mr. Delshad brings more than ten years of elected public service to the Company. From 2003 through 2011, Mr. Delshad served as Mayor and Councilmember of the City of Beverly Hills, California. In this role, Mr. Delshad was responsible for, among other things: the formulation of city policies and ordinances; the establishment and monitoring of a budget of approximately \$500 million; and the management of more than 1000 city employees. Additionally, since his retirement as Mayor in 2011, Mr. Delshad has served as a Goodwill Ambassador for the City of Beverly Hills. Since 2012, Mr. Delshad has held the position of Chairman of Delshad Capital, which guides companies in technology, security, crowd-funding and marketing. During 2011 through 2012, Mr. Delshad was Vice Chairman at Pacific Capital Group where he evaluated and managed various projects, such as Smart City initiatives, fuel technology and software products. From 1978 through 2002, Mr. Delshad was founder and Chief Executive Officer of American International Business, Inc., a manufacturer of computer storage technologies with offices in Germany, London and Brussels. Mr. Delshad served on the board of directors of Evryx Corp from 2008 through 2010 and Dream Team Gaming from 2007 through 2009. Mr. Delshad has also served on the Boards of Directors of the Iranian American Jewish Federation from 2002 through the present, the World Affair Council from 2011 through 2012, Sheba Medical Center from 2003 through 2008, Maple Counseling Center from 2001 through 2003, Mount Sinai Mortuaries from 2001 through the present and Nessah Synagogue from 2001 through 2004. Mr. Delshad received his B.S. in Computer Science from California State University and completed additional post-graduate coursework at the University of Southern California.

**Benjamin Wu: Director**

Dr. Ben Wu, DDS, PhD is a founder and has served on served as a member of Bone's Scientific Advisory Board since 2005. He is Professor and Chair of the Division of Advanced Prosthodontics, the Director of the Weintraub Center for Reconstructive Biotechnology at the School of Dentistry and the Executive Director of the UCLA Wireless Health Institute. He also chaired the Department of Bioengineering at the School of Engineering. Dr. Wu provides multidisciplinary patient care in the UCLA Faculty Group Dental Practice, where he focuses on the treatment of advanced, complex oral rehabilitation using implant, fixed, and removable prosthodontics. He is a fellow of the Academy of Prosthodontics. Dr. Wu is internationally recognized for his cutting-edge research in the formation of biomimetic apatites, development of bioinspired growth factors, and engineering of biomimetic microenvironment to deliver cells, proteins, and genes to promote repair and regeneration of hard and soft tissues. Dr. Wu has been highly prolific throughout his entire career (over 170 original research articles, 22 issued patents with more pending) and has been continuously funded by federal research grants. Professor Wu's research group has extensively analyzed the effects of processing parameters on the formation of biomimetic apatites, and his fundamental understanding has led to applications in the areas of art conservation, drug delivery, separations, and biosensors. His research group has also shed light on the interplay between orthobiologic growth factors and adult stem cells in the area of bone repair. His experimental skills are complemented by insightful mathematical modeling of complex, moving boundary diffusion-reaction problems that have led to key design criteria for tissue engineering, material degradation, and cancer survival mechanisms. His work has impacted clinical disciplines ranging from Orthopedics, Interventional Radiology, Urology, Pediatric Surgery, Orthodontics, and Dentistry. He has work with Dr. Ting and Dr. Soo as to develop novel material systems to deliver NELL-1 to promote bone and cartilage regeneration. He received residency in advanced prosthodontics at Harvard School of Dental Medicine, PhD from the Dept. of Material Science and Engineering at MIT.

## **Family Relationships**

Drs. Ting and Soo are husband and wife.

## **Board of Directors and Corporate Governance**

Our Board of Directors currently consists of seven (7) members, including Bruce Stroeve, Dr. Chia Soo, William Coffin, John Booth, Jimmy Delshad, Benjamin Wu, and Stephen R. LaNeve.

### *Board Committees*

Our Board of Directors has appointed an audit committee, governance committee and compensation committee. The Board of Directors met or acted by written consent 12 times during 2015.

### *Audit Committee*

The audit committee is responsible for overseeing: (i) our accounting and reporting practices and compliance with legal and regulatory requirements regarding such accounting and reporting practices; (ii) the quality and integrity of our financial statements; (iii) our internal control and compliance programs; (iv) our independent auditors' qualifications and independence and (v) the performance of our independent auditors and our internal audit function. In so doing, the audit committee maintains free and open means of communication between our directors, internal auditors and management. We are not required to have an Audit Committee consisting solely of independent directors or required to have an "audit committee financial expert" as we are neither listed on NASDAQ nor the New York Stock Exchange.

Our audit committee consists of John Booth, as Chairman, and Jimmy Delshad. The Audit committee met four times during 2015.

### *Compensation Committee*

The compensation committee is responsible for reviewing and approving the compensation of our executive officers and directors and our performance plans and other compensation plans. The compensation committee makes recommendations to our Board of Directors in connection with such compensation and performance plans.

Our compensation committee consists of John Booth, as Chairman, and Bill Coffin. The compensation committee met six times.

### *Nominating and Corporate Governance Committee*

The nominating and corporate governance committee is responsible for (i) identifying, screening and reviewing individuals qualified to serve as directors (consistent with criteria approved by our Board of Directors) and recommending to our Board candidates for nomination for election at the annual meeting of shareholders or to fill board vacancies or newly created directorships; (ii) developing and recommending to our Board of Directors and overseeing the implementation of our corporate governance guidelines (if any); (iii) overseeing evaluations of our Board of Directors and (iv) recommending to our Board of Directors candidates for appointment to board committees.

Our nominating and corporate governance committee consists of Bill Coffin, as Chairman, and Jimmy Delshad.

#### *Code of Ethics*

On February 9, 2014 the Company adopted a formal code of ethics within the meaning of Item 406 of Regulation S-K promulgated under the Securities Act, that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions and that that establishes, among other things, procedures for handling actual or apparent conflicts of interest. Our Code of Ethics is available at our website <http://bonebiologics.com/investor-relations/corporate-governance/>.

#### *Section 16(a) Beneficial Ownership Reporting Compliance*

Section 16(a) of the Exchange Act requires the Company's directors and executive officers, and persons who own more than ten percent of a registered class of the Company's equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. Officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the fiscal year ended December 31, 2015, all Section 16(a) filing requirements applicable to its officers, directors and greater than ten percent beneficial owners were complied with; except that each of the following each failed to file one report of one transaction Mr. Booth, Mr. Coffin, Mr. Delshad, Mr. Oram, Mr. Warnecke. Both Dr. Soo and Dr. Wu each failed to file two reports of one transaction.

#### *Indemnification Agreements*

Our Board has approved a form of indemnification agreement for our directors and executive officers ("Indemnification Agreement"). Following Board approval, we entered into Indemnification Agreements with each of our current directors and executive officers.

The Indemnification Agreement provides for indemnification against expenses, judgments, fines and penalties actually and reasonably incurred by an indemnitee in connection with threatened, pending or completed actions, suits or other proceedings, subject to certain limitations. The Indemnification Agreement also provides for the advancement of expenses in connection with a proceeding prior to a final, non-appealable judgment or other adjudication, provided that the indemnitee provides an undertaking to repay to us any amounts advanced if the indemnitee is ultimately found not to be entitled to indemnification by us. The Indemnification Agreement sets forth procedures for making and responding to a request for indemnification or advancement of expenses, as well as dispute resolution procedures that will apply to any dispute between us and an indemnitee arising under the Indemnification Agreement.

The foregoing description is qualified in its entirety by reference to the form of Indemnification Agreement filed as Exhibit 10.17 to the Current Report on Form 8-K filed on September 25, 2014.

Effective as of September 19, 2014, our Board of Directors also approved the Former D&O Indemnification Agreement to be entered into between us, Don Hankey and Amir Heshmatpour. The Former D&O Indemnification Agreement requires that for a period of four (4) years from and after September 19, 2014, we will indemnify (including advancement of expenses) and hold harmless persons who were officers and directors of the Company (i) by reason of being an officer or director of the Company prior to the Merger, including through all transactions relating to the Merger, or (ii) is related to acts in connection with the Merger taken by the Former D&O Indemnified Persons, provided however, that the foregoing indemnity shall be excess of all any insurance coverage available to the Former D&O Indemnified Parties for any such loss. The accuracy of the Hankey Affidavit and Heshmatpour Affidavit in connection with the Former D&O Indemnification is a condition precedent to the foregoing indemnity (including advancement of expenses). The Company has no insurance coverage that would cover any claim asserted against the Company by any Former D&O Indemnified Person pursuant to this Former D&O Indemnification Agreement.

This description is qualified in its entirety by the Former D&O Indemnification Agreement filed as Exhibit 10.18 to the Current Report on Form 8-K filed on September 25, 2014 and incorporated herein by reference.

### **Scientific Advisory Board**

**Mr. Gertzman** has served as a member of Bone's Scientific Advisory Board since 2005. He is the former Executive Vice President for Research and Development from MTF since 1996 and is currently a consultant to MTF in patent prosecution. He has been engaged in industrial product development of surgical implants for forty years. From 1964 to 1993, he was employed by Ethicon, Inc., a Johnson & Johnson Company as Director of Product Engineering Johnson & Johnson USA. From 1993 to 1996, he was employed by Xomed Medical Products and served in several positions of responsibility in research and product development, after his appointment as Vice President, Research and Development in 1993. Mr. Gertzman was appointed Vice President, Research and Development for MTF in 1996 and is currently employed in the development of new tissue forms and related processes. He holds over twenty-five (25) U.S. patents, with many more pending, both in the U.S. and internationally. He completed a Bachelor of Science at CCNY in 1960 and a Master's of Science degree in Chemistry from Boston University in 1963.

**Dr. Shun'ichi Kuroda** has served as a member of Bone's Scientific Advisory Board since 2005. He taught as a professor at the Department of Bio-agricultural Sciences of Nagoya University since 2009 and has served as the Chairman of the Department since 2012. Dr. Kuroda has expertise is in recombinant protein engineering and manufacturing.

**Dr. Jeffrey C. Wang, MD** has served as a member of Bone's Scientific Advisory Board since 2005. Dr. Wang has been Chief of the Orthopaedic Spine Surgery Service since 1997, Fellowship Director of the UCLA Orthopaedic Spine Surgery Fellowship, and is Currently Professor of Orthopaedic Surgery and Neurosurgery. He is also the Vice Chair of Clinical Operations for the UCLA Department of Orthopaedic Surgery. He is Co-Director of the UCLA Spine Center. Dr. Wang's research areas include the use of osteoinductive and osteoconductive materials for spinal fusion as well as novel gene therapy and minimally invasive techniques for spinal surgery. He obtained his undergraduate degree from Stanford University and his medical degree from the University of Pittsburgh. He then completed his Orthopaedic Surgery training at UCLA and his Spine Fellowship at Case Western Reserve University.

**Dr. Xinli Zhang** has served as a member of Bone's Scientific Advisory Board since 2005. Since 2009, he has served as an Associate Professor at the UCLA School of Dentistry. Prior to joining UCLA, Dr. Zhang was Associate Professor in the Third Military Medical University in China from 1994 to 2000. Dr. Zhang combines his specialized training as a pathologist with a PhD in molecular biology. Dr. Zhang brings over twenty years of experience in medical and dental research in both China and the U.S. Dr. Zhang is an expert in developmental molecular biology and pathology of various bone and cartilaginous tissue related conditions.

**Dr. Mark Spilker** joined MTF in early 2009 and is currently managing the R&D, Project Management, Clinical Studies, Quality Assurance and Regulatory departments. Mark has been leading the continued development and expansion of MTF's human allograft tissue portfolio. Under his leadership, the MTF team has developed new tissue forms including allograft bone designs for extremity surgery, allograft scaffolds for cartilage regeneration and a living allogeneic stem cell graft for orthopedic surgery. Over his career, Mark has held positions in Marketing, R&D and Program Management. Prior to MTF, Mark was formerly Vice President, R&D and Program Management for Integra NeuroSciences where he was responsible for development programs ranging from collagen-based scaffolds for bone and soft tissue regeneration to medical electronics and implantable fluid-handling shunts and valves. Prior to joining Integra he conducted his post-graduate studies at Massachusetts Institute of Technology, making significant contributions in the field of biomaterials technology and tissue engineering in neurosurgery. He received a B.S. degree in Mechanical Engineering from the University of Utah and an M.S. and Ph.D. in Mechanical Engineering from the Massachusetts Institute of Technology.

**Dr. Eric Ting, MD** as a founder and has served on served as a member of Bone’s Scientific Advisory Board since 2005. He is a UCLA (Harvard trained orthodontist) is fully endowed Department Chair in Department of Surgery and Director of UCLA Craniofacial Abnormalities Laboratory. He is an endowed professor and Director of UCLA Laboratory for Craniofacial Anomalies at the Dental and Craniofacial Research Institute and holds a faculty position in the UCLA Dept of Surgery. His research interests include the molecular mechanism of craniosynostosis, which is the premature fusion of calvarial suture line in infants and tissue engineering of bone. Craniosynostosis requires surgeries through childhood to alleviate and open the skull. Starting in the mid 1990’s the research identified that the NELL protein (a protein whose sole purpose was to create the bone growth to close the skull and after performing its task went dormant) was over expressed in the infants, which created the premature closing. Dr. Ting received his Doctorate of Dental Medicine Degree from Harvard University, School of Dental Medicine and completed his Postdoctoral Orthodontic Residency and also received the Doctorate of Medical Sciences from Harvard.

**Item 11. Executive Compensation**

The table below summarizes the compensation earned for services rendered to us in all capacities, for the fiscal years indicated, by its named executive officers:

Name and Principal Position	Year	Salary	Bonus (\$)	Stock Awards (\$) <sup>(5) (6)</sup>	Option Awards (\$) <sup>(2) (3) (4)</sup>	Non-Equity	Deferred	All Other	Total
						Incentive Plan Compensation (\$)	Compensation (\$)	Compensation (\$)	Compensation (\$)
Mike Schuler, Chief Executive Officer <sup>(1)</sup>	2015	\$112,500							\$ 112,500
	2014	\$ 47,500							\$ 47,500
Stephen R. LaNeve, Chief Executive Officer, President, Director	2015	\$187,500		\$78,750	\$3,392,775				\$ 3,659,025
	2014	-							
Jeffrey Frelick, Chief Operating Officer	2015	\$112,500		\$33,750	\$1,696,388				\$ 1,842,638
	2014	-							
Dr. William Jay Treat, Chief Technology Officer	2015	\$300,000			\$ 987,419				\$ 1,287,419
	2014	\$195,000			\$ 418,016				\$ 613,016
Deina Walsh, Chief Financial Officer	2015	\$108,333		\$22,764	\$ 938,427				\$ 1,069,524
	2014	\$ 25,000			\$ 135,774				\$ 160,774

- (1) MTF was paid compensation for Mr. Schuler's CEO services per a consulting agreement with the Company. On August 17, 2015, the Company appointed Steven R. LaNeve as our full-time Chief Executive Officer and our agreement with MTF for the services of Mr. Schuler concluded.
- (2) The amounts shown reflect the aggregate grant date fair value computed in accordance with FASB ASC 718. These amounts reflect our accounting for these awards and do not correspond to the actual values that may be realized by the named executive officers and do not represent actual cash compensation paid to the recipient. Pursuant to SEC rules, we disregarded the estimates of forfeitures related to service-based vesting conditions.
- (3) We granted option awards in 2015 in connection with the appointments of Mr. LaNeve, Mr. Frelick and Ms. Walsh as executive officers of the Company. Valuation assumptions used to determine grant date fair value as required by FASB ASC 718 are disclosed in Note 9 to our consolidated financial statements for the year ended December 30, 2015. 1/3 of the shares subject to the options vest on each anniversary of the Vesting Commencement Date, subject to the option holder's Continuous Service (as defined in the Plan) on each vesting date.
- (4) Our 2014 Stock Option Plan was never submitted for approval to the shareholders therefore ineffective. Our 2015 Equity Incentive Plan was approved by majority shareholder consent on December 30, 2015 and all options outstanding as of the effective date were cancelled and re-issued under the new plan at current plan terms. The change in terms was considered a modification to the existing stock options and the incremental fair value is included in the amounts reflected above.
- (5) The amounts shown reflect the aggregate grant date fair value computed in accordance with FASB ASC 718. Under ASC 718, the fair value of such stock awards is determined as of the date of grant using the closing market price of common stock on the date of grant. These amounts reflect our accounting for these awards and do not correspond to the actual values that may be realized by the named executive officers and do not represent actual cash compensation paid to the recipient. Pursuant to SEC rules, we disregarded the estimates of forfeitures related to service-based vesting conditions.
- (6) We granted restricted stock awards in 2015 to Mr. LaNeve, Mr. Frelick and Ms. Walsh. These awards vest 100% upon four (4) years from the date of issuance.

### Changes in Executive Compensation

Our 2015 Equity Incentive Plan was approved by majority shareholder consent on December 30, 2015 and all options outstanding as of the effective date were cancelled and re-issued under the new plan at current plan terms.

- **Base Salary:** The Company's base salaries are designed as a means to provide a fixed level of compensation in order to attract and retain talent. The base salaries of our named executive officers depend on their job responsibilities, the market rate of compensation paid by companies in our industry for similar positions, our financial position and the strength of our business.
- **Performance-Based Cash Awards:** As part of the Company's executive compensation program, the board intends to establish an annual performance-based cash award program for our executive officers and other key employees based upon individual performance and the Company's performance. The award program will also be designed to reinforce the Company's goals and then current strategic initiatives. The annual performance-based cash awards will be based on the achievement of Company and individual performance metrics established at the beginning of each fiscal year by the compensation committee and our Board of Directors. Following the end of each fiscal year, the compensation committee will be responsible for determining the bonus amount payable to the executive officer based on the achievement of the Company's performance and the individual performance metrics established for such executive.

- **Long-Term Equity Awards:** Our Board of Directors believes that equity ownership by our executive officers and key employees encourages them to create long-term value and aligns their interest with those of our stockholders. We grant annual equity awards to our executive officers under our 2015 Equity Incentive Plan. Our Board of Directors adopted and approved the following 2015 Equity Incentive Plan and intends to submit it for approval by our stockholders.
- **2015 Equity Incentive Plan:** The Company has 14,000,000 shares of Common Stock authorized and reserved for issuance under our 2015 Equity Incentive Plan for option awards. This reserve may be increased by the Board each year by up to the number of shares of stock equal to 5% of the number of shares of stock issued and outstanding on the immediately preceding December 31. Appropriate adjustments will be made in the number of authorized shares and other numerical limits in our 2015 Equity Incentive Plan and in outstanding awards to prevent dilution or enlargement of participants' rights in the event of a stock split or other change in our capital structure. Shares subject to awards granted under our 2015 Equity Incentive Plan which expire, are repurchased or are cancelled or forfeited will again become available for issuance under our 2015 Equity Incentive Plan. The shares available will not be reduced by awards settled in cash. Shares withheld to satisfy tax withholding obligations will not again become available for grant. The gross number of shares issued upon the exercise of stock appreciation rights or options exercised by means of a net exercise or by tender of previously owned shares will be deducted from the shares available under our 2015 Equity Incentive Plan.
- Awards may be granted under our 2015 Equity Incentive Plan to our employees, including officers, director or consultants, and our present or future affiliated entities. While we may grant incentive stock options only to employees, we may grant non-statutory stock options, stock appreciation rights, restricted stock purchase rights or bonuses, restricted stock units, performance shares, performance units and cash-based awards or other stock based awards to any eligible participant.
- The 2015 Equity Incentive Plan will be administered by our compensation committee. Subject to the provisions of our 2015 Equity Incentive Plan, the compensation committee determines, in its discretion, the persons to whom, and the times at which, awards are granted, as well as the size, terms and conditions of each award. All awards are evidenced by a written agreement between us and the holder of the award. The compensation committee has the authority to construe and interpret the terms of our 2015 Equity Incentive Plan and awards granted under our 2015 Equity Incentive Plan.

Our Board of Directors approved the following compensation for our named executive officers:

**Stephen R. LaNeve, Chief Executive Officer:**

**Base Salary:** Mr. LaNeve's base salary is \$500,000.

**Bonus:** During each calendar year, Mr. LaNeve shall be eligible to earn an annual target bonus of seventy percent (70%) of his base salary as in-effect for the applicable calendar year, subject to the achievement of personal and corporate objectives or milestones to be established by the board of directors, or any compensation committee thereof, (after considering any input or recommendations from Mr. LaNeve) within sixty (60) days following the beginning of each calendar year during Mr. LaNeve's employment. In order to earn the annual bonus under this provision, the applicable objectives must be achieved and Mr. LaNeve must be employed by Company at the time the annual bonus is distributed by Company. The annual bonus, if any, shall be paid on or before March 15th of the calendar year following the year in which it is considered earned. The actual annual bonus paid may be more or less than seventy percent (70%) of Mr. LaNeve's base salary.

**Stock Options:** Mr. LaNeve was granted an option to purchase 6% of the then outstanding shares of the Company's common stock, at an exercise price that equals to the fair market price on the date of the grant. These options will vest annually over three (3) years such that they are vested in full on the third year anniversary of the employment agreement date, provided, that any stock option that is unvested on the date of termination shall be forfeited on such date of termination, subject to certain exceptions.

**Jeffrey Frelick, Chief Operating Officer:**

**Base Salary: Mr. Frelick's base salary is \$300,000.**

**Bonus:** During each calendar year, Mr. Frelick shall be eligible to earn an annual target bonus of fifty percent (50%) of his base salary as in-effect for the applicable calendar year, subject to the achievement of personal and corporate objectives or milestones to be established by the board of directors, or any compensation committee thereof, (after considering any input or recommendations from Mr. Frelick) within sixty (60) days following the beginning of each calendar year during Mr. Frelick's employment. In order to earn the annual bonus under this provision, the applicable objectives must be achieved and Mr. Frelick must be employed by Company at the time the annual bonus is distributed by Company. The annual bonus, if any, shall be paid on or before March 15th of the calendar year following the year in which it is considered earned. The actual annual bonus paid may be more or less than fifty percent (50%) of Mr. Frelick's base salary.

**Stock Options:** Mr. Frelick was granted an option to purchase 3% of the then outstanding shares of the Company's common stock, at an exercise price that equals to the fair market price on the date of the grant. These options will vest annually over three (3) years such that they are vested in full on the third year anniversary of the employment agreement date, provided, that any stock option that is unvested on the date of termination shall be forfeited on such date of termination, subject to certain exceptions.

**Deina H. Walsh, Chief Financial Officer:**

**Base Salary: Ms. Walsh's base salary is \$200,000.**

**Bonus:** During each calendar year beginning in 2016, Ms. Walsh shall be eligible to earn an annual target bonus of thirty-five percent (35%) of her base salary as in-effect for the applicable calendar year, subject to the achievement of personal and corporate objectives or milestones to be established by the board of directors, or any compensation committee thereof, (after considering any input or recommendations from Ms. Walsh) within sixty (60) days following the beginning of each calendar year during Ms. Walsh's employment. In order to earn the annual bonus under this provision, the applicable objectives must be achieved and Ms. Walsh must be employed by Company at the time the annual bonus is distributed by Company. The annual bonus, if any, shall be paid on or before March 15th of the calendar year following the year in which it is considered earned. The actual annual bonus paid may be more or less than thirty-five percent (35%) of Ms. Walsh's base salary.

**Stock Options:** On November 4, 2014, Ms. Walsh was granted an option to purchase 0.75% of the Company's fully diluted shares of common stock. The option will be granted under Company's stock plan and related stock option documents. The Option is intended to be an "incentive stock option" (within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended) to the greatest extent permitted under the code. The option has an exercise price of \$1.00 per share, equal to the price of the shares awarded under the Merger Agreement in connection with the Merger. As a condition of receipt of the option, Ms. Walsh was required to sign Company's standard form of stock option agreement and the option is subject to the terms and conditions of the plan, the option agreement and her employment agreement. The option vests over a three-year period from the effective date subject to Ms. Walsh's continued Service (as defined in the plan), with 33.33% of the shares subject to the option becoming vested and exercisable on the date that Ms. Walsh's employment agreement is executed, 33.33% of the shares subject to the option becoming vested and exercisable on the date that is twelve (12) months after the effective date, and 33.34% of the shares subject to the option vesting and becoming exercisable on the date that is twenty four (24) months after the effective date; provided, however, that all unvested shares subject to the option (and any additional equity awards hereafter issued by Company to Ms. Walsh pursuant to the plan) shall fully vest and be exercisable if Ms. Walsh's service ceases as a result of a "qualifying termination" occurring on or within twelve (12) months after a "change in control."

On December 1, 2015, Ms. Walsh is entitled to purchase 465,795 shares of Common Stock of the Company as of the date of the grant on the condition that i) the exercise price will be the current market price on the date of the grant; and ii) 155,265 of the shares underlying the grant shall vest on the first anniversary of the execution of the Letter Agreement, 155,265 of the shares underlying the grant shall vest on the second anniversary of the execution of the Letter Agreement and 155,265 of the shares underlying the grant shall vest on the third anniversary of the Letter Agreement. Any portion of the stock option grant that is unvested on the date of her termination shall be forfeited on such date of termination except: (i) in the case of termination by the Company without cause; and (ii) upon a change in control (as defined in the equity incentive plan) of the Company, which shall result in the immediate accelerated vesting of all options granted but unvested under the letter agreement as of (i) or (ii). such options shall be subject to the terms of the equity incentive plan and stock option agreements which shall be entered into at a later mutually agreed-upon date to prevent or mitigate dilution of her equity interests in the Company, in connection with each financing, she shall be provided an opportunity to invest in the Company such that her interest, at her option, remains un-diluted or partially diluted.

The Company's compensation committee believes these agreements and other incentives granted to these named executive officers in 2015 align our named executive officers' interests with those of our stockholders. Our compensation committee and board of directors continues to evaluate our executive compensation program with a view toward motivating our named executive officers to meet our strategic operational and financial goals in the best interests of our stockholders.

**Potential Payments upon Termination of Change in Control**

None.

**Changes to Potential Payments upon Termination of Change in Control**

None.

**Consulting Agreements for Executives**

None other than noted above.

**Grants of Plan-Based Awards**

Dr. Benjamin Wu	4,167	64,500	-	68,667
Total	\$ 204,167	\$ 712,280	408,998	\$ 1,325,445

(1) MTF is paid compensation for Mr. Stroeve's services per a consulting agreement with the Company.

(2) Mr. Warnecke resigned March 1, 2016.

(3) Mr. Oram resigned March 11, 2016.

## Changes in Director Compensation

The Board adopted a Non-Employee Director Compensation Policy (the "Director Compensation Policy") which revised the directors' compensation to the following:

### Annual Cash Compensation

Commencing at the beginning of the first calendar quarter following the Effective Date, each Non-Employee Director will receive the cash compensation set forth below for service on the Board. The annual cash compensation amounts will be payable in equal quarterly installments, in arrears following the end of each quarter in which the service occurred, pro-rated for any partial months of service. All annual cash fees are vested upon payment.

1. Annual Board Service Retainer:
  - a. All Non-Employee Directors other than the Board Chair: \$25,000
  - b. Non-Employee Director who is the Board Chair: \$35,000
2. Annual Committee Chair Service Retainer (in addition to Annual Board Service Retainer):
  - a. Chairman of the Audit Committee: \$5,000
  - b. Chairman of the Compensation Committee: \$5,000
  - c. Chairman of the Corporate Governance Committee: \$5,000

### Equity Compensation

Equity awards will be granted under the Company's 2015 Equity Incentive Plan or any successor equity incentive plan (the "Plan"). All stock options granted under this Director Compensation Policy will be Nonstatutory Stock Options (as defined in the Plan), with a term of ten years from the date of grant and an exercise price per share equal to 100% of the Fair Market Value (as defined in the Plan) of the underlying common stock of the Company ("Common Stock") on the date of grant.

(a) Automatic Equity Grants.

(i) **Initial Grant for New Directors.** Without any further action of the Board, each person who, after the Effective Date, is elected or appointed for the first time to be a Non-Employee Director will automatically, upon the date of his or her initial election or appointment to be a Non-Employee Director, be granted a Nonstatutory Stock Option to purchase 50,000 shares of Common Stock (the “Initial Grant”), regardless of when such person is elected or appointed to the Board. Each Initial Grant will fully vest on the date of the annual meeting of the stockholders of the Company (“Annual Meeting”) next following the Initial Grant.

(ii) **Annual Grant.** Without any further action of the Board, at the close of business on the date of each Annual Meeting following the Effective Date, each person who is then a Non-Employee Director will automatically be granted a Nonstatutory Stock Option to purchase a number of shares of Common Stock having an Option Value (calculated on the date of grant) of \$50,000 (the “Annual Grant”). Each Annual Grant will vest in a series of four (4) successive equal quarterly installments over the one-year period measured from the date of grant.

**Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**

The following table sets forth information with respect to the beneficial ownership of the Company’s Common Stock as of March 14, 2016, by each person or group of affiliated persons known to the Company to beneficially own 5% or more of its Common Stock, each director, each named executive officer, and all of its directors and named executive officers as a group.

<u>Name of Beneficial Owner or Identity of Group</u>	<u>Title of Class</u>	<u>Shares<sup>(1)</sup></u>	<u>Percentage</u>

Option Plan		2,250,682	

- (1) Based on 38,014,507 issued and outstanding shares. The number of shares issued and outstanding that was used to calculate the percentage ownership of each listed person includes the shares underlying convertible debt, stock options and warrants that are exercisable 60 days from our report date.
- (2) Consists of 11,640,096 shares, 793,383 shares underlying warrants exercisable within 60 days and 50,000 shares underlying stock options exercisable within 60 days.
- (3) Consists of 450,000 shares owned by Don R. Hankey, Trustee of the Don Hankey Trust over which Mr. Hankey has voting and investment control and 731,139 shares and 800,000 shares underlying debt convertible at any time held by Hankey Capital, LLC over which Mr. Hankey has voting and investment control. This amount does not include the 11,392,407 shares that were issued as collateral for the three (3) convertible notes to Hankey Capital, 4,896,203 shares underlying debt conversion and 5,577,340 shares underlying warrants in accordance with provisions limiting the exercise/conversion thereof.
- (4) Includes 1,632,596 shares underlying warrants exercisable within 60 days.
- (5) Consists of (a) 6,287,209 shares beneficially owned by AFH Holding of which Mr. Heshmatpour is the sole member and over which he has sole voting and investment control, (b) 300,000 shares owned by KIG LLC of which Mr. Heshmatpour's spouse is the sole member and over which she has sole voting and investment control and (c) 900,000 shares owned by Mr. Heshmatpour's children.
- (6) Includes 458,334 shares underlying warrants exercisable within 60 days.
- (7) Includes 159,884 shares underlying stock options exercisable within 60 days.
- (8) Mr. Stroever is the President and Chief Executive Officer of the Musculoskeletal Transplant Foundation, Inc. (MTF) and, as such, advises MTF with respect to voting and investment decisions relating to the shares of the Company owned by MTF but does not have or share voting and investment power over such shares. Mr. Stroever disclaims beneficial ownership of any shares owned by MTF.
- (9) Includes 119,318 shares underlying warrants exercisable within 60 days, 384,616 issuable on the earlier of September 24, 2018 and the occurrence of certain events described in a letter agreement dated September 24, 2015 and 68,553 shares underlying stock options exercisable within 60 days.
- (10) Includes 384,615 issuable on the earlier of September 24, 2018 and the occurrence of certain events described in a letter agreement dated September 24, 2015 and 50,000 shares underlying stock options exercisable within 60 days.
- (11) Includes 68,553 shares underlying stock options exercisable within 60 days.
- (12) Includes 68,553 shares underlying stock options exercisable within 60 days.
- (13) Includes 68,553 shares underlying stock options exercisable within 60 days.
- (14) Includes 119,318 shares underlying warrants exercisable within 60 days, 769,231 shares issuable on the earlier of September 24, 2018 and the occurrence of certain events described in a letter agreement dated September 24, 2015 and 484,096 shares underlying stock options exercisable within 60 days.

**Item 13. *Certain Relationships and Related Transactions, and Director Independence***

Except as disclosed below, none of the following persons has any direct or indirect material interest in any transaction to which we are a party since our incorporation or in any proposed transaction to which we are proposed to be a party:

- Any of our directors or officers;
- Any proposed nominee for election as our director;
- Any person who beneficially owns, directly or indirectly, shares carrying more than 5% of the voting rights attached to our Common Stock; or
- Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same house as such person or who is a director or officer of any parent or subsidiary of our Company.

## **Review, Approval or Ratification of Transactions with Related Persons**

Due to the small size of our Company, we do not at this time have a formal written policy regarding the review of related party transactions, and rely on our full Board of Directors to review, approve or ratify such transactions and identify and prevent conflicts of interest. Our Board of Directors reviews any such transaction in light of the particular affiliation and interest of any involved director, officer or other employee or stockholder and, if applicable, any such person's affiliates or immediate family members. Management aims to present transactions to our Board of Directors for approval before they are entered into or, if that is not possible, for ratification after the transaction has occurred. If our Board of Directors finds that a conflict of interest exists, then it will determine the appropriate action or remedial action, if any. Our Board of Directors approves or ratifies a transaction if it determines that the transaction is consistent with our best interests and the best interest of our stockholders.

## **Director Independence**

Our Board of Directors currently consists of seven (7) members, including Bruce Stroever, Dr. Chia Soo, William Coffin, John Booth, Jimmy Delshad, Dr. Benjamin Wu and Stephen R. LaNeve. Our Board of Directors undertook a review of the composition of our Board of Directors and the independence of each director. Based upon information requested from and provided by each director concerning his background, employment and affiliations, including family relationships, our Board of Directors has determined that William Coffin, John Booth, and Jimmy Delshad (the "Independent Directors") would qualify as "independent" as that term is defined by NASDAQ Listing Rule 5605(a) (2). Further, our Board of Directors has determined that each of the independent directors would qualify as "independent" under NASDAQ Listing Rules applicable to such board committees. Bruce Stroever would not qualify as "independent" under applicable NASDAQ Listing Rules applicable to the Board of Directors generally or to separately designated board committees because he is the Chief Executive Officer of MTF, a significant shareholder of the Company and an entity to whom the Company continues to owe obligations to pursuant to notes outstanding to MTF. Dr. Chia Soo would not qualify as "independent" under applicable NASDAQ Listing Rules applicable to the Board of Directors generally or to separately designated board committees because she has a professional services agreement with the Company to provide services in excess of \$120,000. Dr. Benjamin Wu would not qualify as "independent" under applicable NASDAQ Listing Rules applicable to the Board of Directors generally or to separately designated board committees because he has a professional services agreement with the Company to provide services in excess of \$120,000. In making such determinations, our Board of Directors considered the relationships that each of our nonemployee directors has with the Company and all other facts and circumstances deemed relevant in determining independence, including the beneficial ownership of our capital stock by each non-employee director.

Subject to some exceptions, NASDAQ Listing Rule 5605(a)(2) provides that a director will only qualify as an "independent director" if, in the opinion of our Board of Directors, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director, and that a director cannot be an "independent director" if (a) the director is, or in the past three years has been, an employee of ours; (b) a member of the director's immediate family is, or in the past three years has been, an executive officer of ours; (c) the director or a member of the director's immediate family has received more than \$120,000 per year in direct compensation from us within the preceding three years, other than for service as a director or benefits under a tax-qualified retirement plan or non-discretionary compensation (or, for a family member, as a non-executive employee); (d) the director or a member of the director's immediate family is a current partner of our independent public accounting firm, or has worked for such firm in any capacity on our audit at any time during the past three years; (e) the director or a member of the director's immediate family is, or in the past three years has been, employed as an executive officer of a company where one of our executive officers serves on the compensation committee; or (f) the director or a member of the director's immediate family is an executive officer, partner or controlling shareholder of a company that makes payments to, or receives payments from, us in an amount which, in any twelve-month period during our past three fiscal years, exceeds the greater of 5% of the recipient's consolidated gross revenues for that year or \$200,000 (except for payments arising solely from investments in our securities or payments under non-discretionary charitable contribution matching programs). Additionally, in order to be considered an independent member of an audit committee under Rule 10A-3 of the Exchange Act, a member of an audit committee may not, other than in his or her capacity as a member of the audit committee, the Board of Directors, or any other committee of the Board of Directors, accept, directly or indirectly, any consulting, advisory, or other compensatory fee from the applicable company or any of its subsidiaries or otherwise be an affiliated person of the applicable company or any of its subsidiaries.

## Item 14. Accounting Fees and Services

### Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

The audit committee pre-approves all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. The audit committee has adopted policies and procedures for the pre-approval of services provided by our independent registered public accounting firm. The policies and procedures provide that management and our independent registered public accounting firm jointly submit to the audit committee a schedule of audit and non-audit services for approval as part of the annual plan for each year. In addition, the policies and procedures provide that the audit committee may also pre-approve particular services not in the annual plan on a case-by-case basis. For each proposed service, management must provide a detailed description of the service and the projected fees and costs (or a range of such fees and costs) for the service. The policies and procedures require management and our independent registered public accounting firm to provide quarterly updates to the audit committee regarding services rendered to date and services yet to be performed.

The following table sets forth the aggregate fees billed to us for the years ended December 31, 2015 and 2014.

#### Audit Fees

	2015	2014
Anton & Chia <sup>(1)</sup>	\$ 58,347	\$ 73,628
BDO <sup>(2)</sup>	\$ -	\$ 28,925
Anton & Chia <sup>(3)</sup>	\$ -	\$ 2,080

- (1) Includes review and consent of Form S-1 registration statement and the audit of the historical financial statements of Bone Biologics Inc. included in the Company's Form 8k filed on September 24, 2014.
- (2) BDO was initially engaged to audit the historical financial statements of Bone Biologics Inc.
- (3) Fees paid for services provided prior to the merger for audit of the shell entity.

#### Audit Related Fees

There were no fees billed to the Company by Anton & Chia for assurance and related services that are reasonably related to the performance of the audit related fees.

#### Tax Fees

Foster, Griffith and Allen, Inc.	\$ 3,775	\$ 3,373
----------------------------------	----------	----------

CERTIFIED PUBLIC ACCOUNTANTS

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors

Bone Biologics, Corp.  
321 Columbus Ave.  
Boston, MA 02116

We have audited the accompanying consolidated balance sheets of Bone Biologics, Corp. (the “Company”) as of December 31, 2015 and 2014 and the related consolidated statements of operations, consolidated changes in stockholders’ deficit and consolidated cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company was not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2015 and 2014 and the consolidated results of its operations and its consolidated cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, these conditions raise substantial doubt about its ability to continue as a going concern. Management’s plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

*See accompanying notes to consolidated financial statements.*

**Bone Biologics Corporation**  
**Notes to Consolidated Financial Statements**

---

## **1. The Company**

Bone Biologics Corporation (the “Company”) was incorporated under the laws of the State of Delaware on October 18, 2007 as AFH Acquisition X, Inc. Pursuant to a Merger Agreement, dated September 19, 2014, by and among the Company, its wholly-owned subsidiary, Bone Biologics Acquisition Corp., a Delaware corporation (“Merger Sub”), and Bone Biologics, Inc. Merger Sub merged with and into Bone Biologics Inc., with Bone Biologics remaining as the surviving corporation in the Merger. Upon the consummation of the Merger, the separate existence of Merger Sub ceased. On September 22, 2014 the Company officially changed its name to “Bone Biologics Corporation” (“Bone” or “Bone Biologics”) to more accurately reflect the nature of its business and Bone Biologics, Inc. became a wholly-owned subsidiary of the Company. Bone Biologics, Inc. was incorporated in California on March 9, 2004.

Bone is a biotechnology company that is currently focused on bone regeneration in spinal fusion using the recombinant human protein, known as UCB-1 (or “NELL-1”). The NELL-1 protein is an osteoinductive recombinant protein that provides target specific control over bone regeneration. The protein has been licensed exclusively for worldwide applications to Bone Biologics through a technology transfer from the University of California, Los Angeles (“UCLA”). Bone Biologics received guidance from the United States Food and Drug Administration (“FDA”) that NELL-1 will be classified as a combination product with a device lead.

The Company is a development stage entity. The production and marketing of the Company’s products and its ongoing research and development activities will be subject to extensive regulation by numerous governmental authorities in the United States. Prior to marketing in the United States, any drug developed by the Company must undergo rigorous preclinical (animal) and clinical (human) testing and an extensive regulatory approval process implemented by the FDA under the Food, Drug and Cosmetic Act. The Company has limited experience in conducting and managing the preclinical and clinical testing necessary to obtain regulatory approval. There can be no assurance that the Company will not encounter problems in clinical trials that will cause the Company or the FDA to delay or suspend clinical trials.

The Company’s success will depend in part on its ability to obtain patents and product license rights, maintain trade secrets, and operate without infringing on the proprietary rights of others, both in the United States and other countries. There can be no assurance that patents issued to or licensed by the Company will not be challenged, invalidated, or circumvented, or that the rights granted thereunder will provide proprietary protection or competitive advantages to the Company.

### ***Recapitalization***

In connection with the Merger, the 5,000,000 outstanding shares of common stock of the Company, par value \$0.001 per share (“Common Stock”), prior to the Merger were consolidated into 3,853,600 shares of Common Stock and the remaining shares were cancelled.

Additionally, all of the issued and outstanding shares of Bone Biologics Inc.’s \$0.0001 par value common stock converted into a combined total of 19,897,587 shares of the Company’s Common Stock (including 2,151,926 shares issuable upon the exercise of outstanding warrants and 5,648,658 shares issuable upon the conversion of debt). In exchange, Bone Biologics agreed to pay AFH Holding & Advisory, LLC (“AFH”) the principal sum of \$590,000.

### ***Going Concern and Liquidity***

The Company has no significant operating history and, since inception to December 31, 2015, has generated a net loss of approximately \$25.9 million. The Company will continue to incur significant expenses for development activities for their lead product NELL-1. Operating expenditures for the next twelve months are estimated at \$6.9 million. The accompanying consolidated financial statements for the year ended December 31, 2015 have been prepared assuming the Company will continue as a going concern. In connection with the LOI (See Note 5), management intends to raise additional debt and/or equity financing to fund future operations and to provide additional working capital. However, there is no assurance that such financing will be consummated or obtained in sufficient amounts necessary to meet the Company’s needs.

## **2. Summary of Significant Accounting Policies**

### ***Basis of Presentation***

The accompanying consolidated financial statements and related notes included activities of the Company and have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

### ***Use of Estimates***

The preparation of the accompanying consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Significant estimates include warrants and income tax valuation allowances. Actual results could differ from those estimates.

### ***Fair Value of Financial Instruments***

The Company's consolidated financial instruments are accounts payable and notes payable. The recorded values of accounts payable approximate their values based on their short term nature. Notes payable are recorded at their issue value or if warrants are attached at their issue value less the value of the warrant.

The Company defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy is based on three levels of inputs that may be used to measure fair value, of which the first two are considered observable and the last is considered unobservable:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 assumptions: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities including liabilities resulting from embedded derivatives associated with certain warrants to purchase common stock.

### ***Property and Equipment***

Property and equipment are stated at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets, ranging from three to seven years. Expenditures for additions and improvements are capitalized, while repairs and maintenance costs are expensed as incurred. The cost and related accumulated depreciation of property and equipment sold or otherwise disposed of are removed from the accounts and any gain or loss is recorded in the year of disposal.

### ***Impairment of Long-Lived Assets***

The long-lived assets held and used by the Company are reviewed for impairment no less frequently than annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In the event that facts and circumstances indicate that the cost of any long-lived assets may be impaired, an evaluation of recoverability is performed. Management has determined that there was no impairment in the value of long-lived assets during the year ended December 31, 2015.

### ***Research and Development Costs***

Research and development costs include, but are not limited to, patents and license expenses, payroll and other personnel expenses, consultants, expenses incurred under agreements with contract research and manufacturing organizations and animal clinical investigative sites and the cost to manufacture clinical trial materials. Costs related to research, design and development of products are charged to research and development expense as incurred.

### ***Patents and Licenses***

In March 2006, the Company entered into an exclusive license agreement (“Exclusive License Agreement”), with UCLA for the worldwide application of the NELL-1 protein through a technology transfer. See Note 5 for commitments related to the Exclusive License Agreement. Patent expenses include costs to acquire the license of Nell -1, which was de minimus, and costs to file patent applications related to NELL-1.

The Company expenses the costs incurred to file patent applications, all costs related to abandoned patent applications and maintenance costs, and these costs are included in research and development expenses. Costs associated with licenses acquired to be able to use products from third parties prior to receipt of regulatory approval to market the related products are also expensed. The Company’s licensed technologies may have alternative future uses in that they are enabling (or platform) technologies that can be the basis for multiple products that would each target a specific indication. Costs of acquisition of licenses are expensed.

### ***Deferred Financing Costs***

Deferred financing costs represent costs incurred in connection with the issuance of the convertible notes payable and private equity financing. Deferred financing costs related to the issuance of debt are being amortized over the term of the financing instrument using the effective interest method, while deferred financing costs from equity financings are netted against the gross proceeds received from the equity financings.

As a result, the deferred financing cost as of December 31, 2014 was \$983,857. During the year ended December 31, 2015, the Company incurred and capitalized \$551,034 related cost associated with the May 2015 financing. As of December 31, 2015, the deferred financing cost was \$873,274. Amortization of deferred financing costs was \$661,617 and \$60,398 for the years ended December 31, 2015 and 2014, respectively.

### ***Other receivables – related party***

Other receivables – related party represented a receivable from AFH, a shareholder, for fees paid on their behalf for legal services. In 2015 the Company offset the receivable against legal expenses incurred by AFH for Company expenses.

### ***Concentration of Credit Risk and Other Risks and Uncertainties***

Cash balances are maintained at financial institutions and, at times, balances may exceed federally insured limits. The Company has never experienced any losses related to these balances. As of January 1, 2013, federal insurance coverage is \$250,000 per depositor at each financial institution. A substantial majority of the Company’s cash balances exceed federally insured limits.

### ***Stock Based Compensation***

ASC 718, *Compensation – Stock Compensation*, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the consolidated financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, *Equity – based Payments to Non-Employees*. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

### ***Income Taxes***

Income taxes are provided for the tax effects of transactions reported in the consolidated financial statements and consist of taxes currently due and deferred taxes resulting from timing differences in recording of transactions for tax purposes and financial reporting purposes.

The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are received or settled. Valuation allowances are established when necessary to reduce deferred tax assets to amounts expected to be realized.

The accounting provisions related to uncertain income tax positions require the Company to determine whether any tax position in all open years meets a more likely than not threshold of being sustained upon examination by the applicable taxing authority. The Company did not have any changes to its liability for uncertain tax positions as at December 31, 2015 and 2014.

The Company's policy is to recognize interest and/or penalties related to income tax matters in income tax expense. No such amounts are accrued as of December 31, 2015 and 2014.

### ***Loss per Common Share***

The Company utilizes FASB ASC Topic No. 260, *Earnings per Share*. Basic loss per share is computed by dividing loss available to common shareholders by the weighted-average number of common shares outstanding. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted loss per common share reflects the potential dilution that could occur if convertible debentures, options and warrants were to be exercised or converted or otherwise resulted in the issuance of common stock that then shared in the earnings of the entity.

Since the effects of outstanding options, warrants, and the conversion of convertible debt are anti-dilutive in all periods presented, shares of common stock underlying these instruments have been excluded from the computation of loss per common share.

The following sets forth the number of shares of common stock underlying outstanding options, warrants, and convertible debt as of December 31, 2015 and 2014:

	December 31,	
	<u>2015</u>	<u>2014</u>
Warrants	9,779,464	7,023,464
Stock options	6,294,226	757,977
Convertible promissory notes	4,430,380	6,911,659
	<u>20,504,070</u>	<u>14,693,100</u>

### ***New Accounting Standards***

The Company has reviewed all recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its results of operation, financial position or cash flows. Based on that review, the Company believes that none of these pronouncements will have a significant effect on its consolidated financial statements.

In September 2014, the FASB issued ASU 2014-12, “*Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could be Achieved after the Requisite Service Period.*” This ASU provides more explicit guidance for treating share-based payment awards that require a specific performance target that affects vesting and that could be achieved after the requisite service period as a performance condition. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2015. The Company does not expect the adoption of this guidance to have a material impact on the consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, “*Presentation of Financial Statements - Going Concern (Topic 205-40),*” which requires management to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern for each annual and interim reporting period. If substantial doubt exists, additional disclosure is required. This new standard will be effective for the Company for annual and interim periods beginning after December 15, 2016. Early adoption is permitted. The Company adopted this new standard for the fiscal year ending December 31, 2014.

In April 2015, the FASB issued ASU 2015-3, “*Interest - Imputation of Interest (Subtopic 835-30),*” related to the presentation of debt issuance costs. This standard will require debt issuance costs related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the debt liability rather than as an asset. These costs will continue to be amortized to interest expense using the effective interest method. This pronouncement is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015, and retrospective adoption is required. We will adopt this pronouncement for our year beginning January 1, 2016. We do not expect this pronouncement to have a material effect on our consolidated financial statements.

### **3. Property and Equipment**

Property and equipment consist of the following at:

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Furniture and equipment	\$ 9,786	\$ 11,901
Less accumulated depreciation	(3,982)	(280)
	<u>\$ 5,804</u>	<u>\$ 11,621</u>

Depreciation expense for the year ended December 31, 2015 and 2014 was \$4,451 and \$280, respectively.

### **4. Accounts Payable and Accrued Expenses**

Accounts payable and accrued expenses consist of the following:

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Interest expense	\$ -	\$ 87,774
Accounts payable	186,814	119,776
Accrued Bonuses	135,264	-
Payroll liabilities	-	7,839
	<u>\$ 322,078</u>	<u>\$ 215,389</u>

## 5. Commitments and Contingencies

### *Letter Agreement*

In August of 2012, Bone Biologics, Inc., along with its then majority owner and debt holder, Musculoskeletal Transplant Foundation (“MTF”), entered into a letter agreement (the “AFH/MTF Agreement”) with AFH to consummate a business combination through a share exchange, reverse merger, or other similar transactions resulting in the Company becoming a public entity (the “Transaction”). In August 2013, the letter agreement (the “AFH/MTF Agreement”) was amended and restated, and on May 7, 2014, the AFH/MTF Agreement was again amended and restated. The Amended and Restated letter agreement dated May 7, 2014 (the “Amended AFH/MTF Agreement”) contemplates and defines the following events:

#### *Consummation of Bridge Financings (“Closing I”)*

In April 2013 and September 2013, the Company’s Board approved the Company to borrow up to an aggregate principal amount of \$300,000 (the “April Bridge Financing”) and \$250,000 (the “September Bridge Financing”) pursuant to the sale and issuance of convertible promissory notes and warrants to purchase common stock of the Company (collectively, the “Bridge Financings”). The note accrues interest at a rate of 12% per year and is payable each quarter. A warrant to purchase the Company’s common stock equal to 50% of the original principal amount at \$1.00 per share was issued to each Bridge Financing participant. Principal and unpaid accrued interest may be converted into equity securities issued in the Company’s next equity financing in an aggregate amount of at least \$2.5 million at a price equal to the price paid by investors in the next equity financing. On April 29, 2013 and on September 5, 2013, the Company borrowed \$100,000 from MTF and \$100,000 from Orthofix, Corp. (“Orthofix”), respectively, under the April Bridge Financing. In September 2013, the Company borrowed \$50,000 from AFH under the April Bridge Financing. In October 2013, the Company borrowed an additional \$150,000 from Orthofix under the September Bridge Financing.

#### *Consummation of Business Combination (“Closing II”)*

Under the Amended AFH/MTF Agreement, it was contemplated that the Company and its equity holders would consummate a share exchange, reverse merger, or other business combination with a Delaware corporation publicly reporting pursuant to United States Securities Exchange Act of 1934, as amended (the “Exchange Act”), or a private Delaware corporation (“Acquisition Co.”), either directly or indirectly through an affiliate. If the post-business combination entity was not already a corporation publicly reporting pursuant to the Exchange Act, AFH would assist the post-business combination entity with the filing of an appropriate registration statement resulting in the Company becoming a public company (“PubCo”). The Company affected a merger on September 19, 2014 (See Note 1 Recapitalization). AFH received \$590,000 in connection with the business combination.

#### *Consummation of the Private Placement (“Closing III”)*

Subsequent to Closing II, AFH agreed to use its best efforts to assist PubCo in procuring one or more investors for a private financing, whether debt or equity, of up to \$10.0 million. Such transaction is to include an over-allotment option of 15% at AFH’s discretion (the “Private Placement”). At the consummation of Closing III, AFH received warrants to purchase up to 500,000 share of common stock of PubCo at the per share price of the shares offered in the Private Placement with a 5 year term and a cashless exercise provision (the “Extra Warrants”).

#### *Consummation of the PIPE Transaction (“Closing IV”)*

Subsequent to Closing III, AFH will use its best efforts to assist PubCo in procuring an investment bank (the “Bank”) to facilitate a private investment in public equity transaction in an amount between \$8.0 million and \$10.0 million through the sale of securities of PubCo (the “PIPE”). Such transaction will include a 15% over allotment at AFH and/or the Bank’s discretion. Such transaction is contingent upon the appointment of a Bank and filing appropriate forms with the Financial Industry Regulatory Authority (“FINRA”).

#### *Consummation of Initial Public Offering (“Closing V”)*

Subsequent to Closing IV, AFH will assist PubCo in procuring a Bank to act as underwriter for an initial public offering in an amount of up to \$40.0 million (the “Initial Public Offering”). The Initial Public Offering shall include a 15% over allotment option at AFH and/or the Bank’s discretion. Such a transaction is contingent upon the appointment of the Bank.

### *UCLA Exclusive License Agreement*

On March 15, 2006, the Company entered into an exclusive license agreement (the “Initial Agreement”) with the Regents of the University of California Los Angeles (“UCLA”). The Initial Agreement has been amended through nine sets of amendments (as so amended, the “UCLA License Agreement”).

The UCLA License Agreement provides us with an exclusive license to several of UCLA patents covering, among other things, enhanced NELL-1 bone mineralization. The grant of the UCLA License Agreement is subject to any license obligations to the U.S. government, and the term of the license lasts until the last-to-expire UCLA patent licensed under the UCLA License Agreement expires. Under the UCLA License Agreement, we are permitted to make, have made, use, sell, offer for sale and import any products covered by the UCLA License Agreement patents in a certain Field of Use which is currently defined as special function by local administration and expressly excludes osteoporosis and cartilage indications or systemic administration in all indications. Currently the parties are negotiating in good faith the terms pursuant to which UCLA will grant an option to exclusively license UCLA Patent Rights in the osteoporosis indication. After December 22, 2016, we may notify UCLA of our interest in requesting an expansion of the Field of Use to include additional available indications, including cartilage indications or systemic administration in the Field of Use. The parties will engage in good faith discussions of such requests.

We have agreed to pay an annual maintenance fee to UCLA of \$10,000 as well as to pay certain royalties to UCLA under the UCLA License Agreement at the rate of 3.0% of net sales of licensed products. We must pay the royalties to UCLA on a quarterly basis. Upon a first commercial sale, we also must pay between \$50,000 and \$250,000, depending on the calendar year which is after the first commercial sale. If we are required to pay any third party any royalties as a result of us making use of UCLA patents, then we may reduce the royalty owed to UCLA by 0.333% for every percentage point paid to a third party. If we grant sublicense rights to a third party to use the UCLA patent, then we will pay to UCLA 10% to 20% of the sublicensing income we receive from such sublicense.

We are obligated to make the following milestone payments to UCLA for each Licensed Product or Licensed Method:

- \$100,000 upon enrollment of the first subject in a Feasibility Study;
- \$250,000 upon enrollment of the first subject in a Pivotal Study;
- \$500,000 upon Pre-Market Approval of a Licensed Product or Licensed Method; and
- \$1,000,000 upon the First Commercial Sale of a Licensed Product or Licensed Method.

We are also obligated to pay UCLA a cash milestone payment within thirty (30) days of a Liquidity Event (including a Change of Control Transaction and a payment election by UCLA exercisable after December 22, 2016, such payment to equal the greater of:

- \$500,000; or
- 2% of all proceeds in connection with a Change of Control Transaction.

We are obligated to diligently proceed with developing and commercializing licensed products under UCLA patents set forth in the UCLA License Agreement. UCLA has the right to either terminate the license or reduce the license to a non-exclusive license if we do not meet certain diligence milestone deadlines set forth in the UCLA License Agreement.

We must reimburse or pre-pay UCLA for patent prosecution and maintenance costs incurred during the term of the UCLA License Agreement. We have the right to bring infringement actions against third party infringers of the UCLA License Agreement, UCLA may join voluntarily, at its own expense, or, at our expense, be joined involuntarily to the action. We are required to indemnify UCLA against any third party claims arising out of our exercise of the rights under the UCLA License Agreement or any sublicense.

### **Contingencies**

The Company is subject to claims and assessments from time to time in the ordinary course of business. The Company's management does not believe that any such matters, individually or in the aggregate, will have a material adverse effect on the Company's business, financial condition, results of operations or cash flows.

### **Indemnification**

In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties and provide for general indemnifications. The Company's exposure under these agreements is unknown because it involves claims that may be made against the Company in the future, but have not yet been made. To date, the Company has not paid any claims or been required to defend any action related to its indemnification obligations. However, the Company may record charges in the future as a result of these indemnification obligations.

In accordance with its amended and restated certificate of incorporation and amended and restated bylaws, the Company has indemnification obligations to its officers and directors for certain events or occurrences, subject to certain limits, while they are serving at the Company's request in such capacity. There have been no claims to date and the Company has a director and officer insurance policy that enables it to recover a portion of any amounts paid for future potential claims.

## **6. Notes Payable to Related Party**

As of December 31, 2015 and 2014, the Company's notes outstanding, with MTF a related party, consisted of the following:

<u>Note Type</u>	<u>Issue Date</u>	<u>Maturity Date</u>	<u>Interest Rate</u>	<u>December 31, 2015</u>	<u>December 31, 2014</u>
New MTF Convertible Promissory Note	9/19/14	3/31/15	8.5%	-0-	3,747,102
Less: Accrued interest expense				-0-	87,774
Notes payable to related party				<u>\$ -0-</u>	<u>\$ 3,659,328</u>

### **Convertible Related Party Promissory Notes**

The related party convertible promissory notes are considered hybrid instruments, which consist of a debt host instrument together with a conversion feature, thus giving the holder of a convertible note an option to convert into an equity instrument providing the holder a residual interest in the Company. The holder of a convertible promissory note also has the option to present its convertible promissory note to the Company and demand payment under the terms of the note after the maturity date or upon the occurrence of certain events such as the failure of the Company to make a payment on the note when due, bankruptcy or certain other liquidation events. The Company concluded that the convertible promissory note would be accounted for as a typical debt instrument with related interest expense recorded in the Company's statements of operations. The Company concluded that there is no beneficial conversion feature as of the date of issuance of the convertible notes. However, the note contains a contingent feature whereby the conversion rate may be lowered if a financing occurs at a lower rate than the note's conversion rate. If the contingency is met and the conversion feature is determined to be "beneficial" in a future accounting period, an additional financing cost would be recorded for the beneficial conversion feature in the Company's statements of operations at that time.

### ***New MTF Convertible Note***

On September 19, 2014, MTF's 2008 and 2009 Promissory Notes and any related loan agreements, credit agreements, guarantee agreements or other agreements related to the MTF 2008 and 2009 Promissory Notes were cancelled and the Company issued MTF a convertible promissory note in the face amount of \$3,659,328 (the "New MTF Convertible Note"). Pursuant to the terms of the New MTF Convertible Note, 50% of all principal and accrued and unpaid interest due under the New MTF Convertible Note will be converted into common stock of the Company upon the closing of the PIPE. The remainder of the New MTF Convertible Note, including all accrued and unpaid interest, will be converted upon consummation of the Initial Public Offering.

On May 4, 2015, MTF converted their New MTF Convertible Note in the amount of \$3,659,328 plus accrued interest of \$193,443 into 2,438,463 shares of Common Stock of the Company.

## **7. Notes Payable**

### ***Convertible Notes Payable***

The convertible promissory notes are considered hybrid instruments, which consist of a debt host instrument together with a conversion feature, thus giving the holder of a convertible note an option to convert into an equity instrument providing the holder a residual interest in the Company. The holder of a convertible promissory note also has the option to present its convertible promissory note to the Company and demand payment under the terms of the note after the maturity date or upon the occurrence of certain events such as the failure of the Company to make a payment on the note when due, bankruptcy or certain other liquidation events. The Company concluded that the convertible promissory notes would be accounted for as a typical debt instrument with related interest expense recorded in the Company's statements of operations. The Company concluded that there is no beneficial conversion feature as of the date of issuance of the convertible notes.

### ***First Secured Convertible Note and Warrant***

On October 24, 2014, the Company issued a convertible promissory note in the amount of \$5,000,000 (the "Convertible Note") to Hankey Capital, LLC ("Hankey Capital"). The Convertible Note matures on October 24, 2017 (the "Maturity Date") and bears interest at an annual rate of interest of the "prime rate" (as quoted in the "Money Rates" section of The Wall Street Journal) plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Maturity Date, Hankey Capital has a right, in their sole discretion, to convert the Convertible Note into shares of the Company's Common Stock, at a conversion rate equal to the greater of (i) \$1.58 per share and (ii) 70% of the average daily price for the Common Stock as measured over the course of the 60 day period prior to the conversion.

The Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50% (the "Collateral"). 6,329,114 shares were issued upon closing the Convertible Note. The number of shares in the Collateral shall be adjusted on a yearly basis. The shares representing the Collateral contain a restrictive legend. The Company shall seek to register the Collateral shares initially delivered on the date of the Convertible Note pursuant to a registration rights agreement (the "Registration Rights Agreement") as described below. Upon the effectiveness of such Registration Statement, the Company will remove the restrictive legends from the Collateral shares so long as Hankey Capital agrees in any event not to sell any Collateral shares if Hankey Capital is notified that the Registration Statement is no longer effective. Hankey Capital may hold the Collateral in any brokerage account of its choosing, but shall not transfer, sell or otherwise dispose of any Collateral, except during the existence of an Event of Default, as defined in the Convertible Note. The Convertible Note is further secured by collateral assignments of all the Company's license agreements.

The principal amount of the loan is pre-payable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital shall return Collateral shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all Collateral shares shall be returned and cancelled. Hankey Capital shall also return Collateral shares under the same terms in case of partial or full conversion of the Convertible Note.

The Company paid a commitment fee in the amount of \$150,000 (3% of the original principal amount of the loan) to Hankey Capital. The Company intends to use the proceeds of the Convertible Note for working capital and general corporate purposes.

On October 24, 2014, the Company also issued a warrant to Hankey Capital for 3,955,697 shares of Common Stock at an exercise price per share of \$1.58 (the "Warrant"). The Warrant will expire on October 24, 2017. The Warrant also includes such other terms that are normal and customary for warrants of this type.

#### ***Registration Rights Agreement***

On October 24, 2014, the Company entered into a Registration Rights Agreement with Hankey Capital, for certain demand registration rights and unlimited piggyback registration rights for the shares underlying the Convertible Note and the Warrant, and subject to an agreed lock up period. Pursuant to the Registration Rights Agreement, Hankey Capital may at any time request registration of their registrable shares. Within 30 days of such demand, the Company will provide written notice of such request to all other holders of registrable securities and will include in such registration all registrable shares with respect to which the Company has received written requests for inclusion within twenty-five (25) days after delivery of the Company's notice. The Company has agreed to pay all registration expenses relating to up to three long-form registrations or short-form registrations for Hankey Capital.

Whenever the Company proposes to register any of its securities under the Securities Act of 1933, as amended (the "Securities Act") (other than pursuant to a demand registration under the Registration Rights Agreement) and the registration form to be used may be used for the registration of any registrable shares, the Company will give prompt written notice to all holders of the registrable shares of its intention to effect such a registration and will include in such registration all registrable shares (in accordance with the priorities set forth in the Registration Rights Agreement) with respect to which the Company has received written requests for inclusion within fifteen (15) days after the delivery of the Company's notice. Pursuant to Registration Rights Agreement, holders of registrable shares and the Company agree not to effect any public sale or distribution of equity securities of the Company, or any securities convertible into or exchangeable or exercisable for such securities, during the nine (6) months following, the effective date of the Company's merger with Bone Biologics, Inc. on September 19, 2014.

On October 24, 2014, Forefront Capital ("Forefront") was issued a warrant to purchase 126,582 shares of Common Stock upon completion of the Hankey Capital Convertible Note.

#### ***Second Secured Convertible Note and Warrant***

On May 4, 2015, the Company issued a convertible promissory note in the amount of \$2,000,000 (the "Second Convertible Note") to Hankey Capital. The Second Convertible Note matures on May 4, 2018 (the "Second Maturity Date") and bears interest at an annual rate of interest of the "prime rate" (as quoted in the "Money Rates" section of The Wall Street Journal) plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Second Maturity Date, Hankey Capital has a right, in their sole discretion, to convert the Second Convertible Note into shares of the Company's Common Stock, at a conversion rate equal to the greater of (i) \$1.58 per share or (ii) 70% of the average daily price for the Common Stock as measured over the course of the 60 day period prior to the conversion.

The Second Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50% (the "Second Collateral"). The number of shares in the Second Collateral shall be adjusted on a yearly basis. The shares representing the Second Collateral contain a restrictive legend. Hankey Capital may hold the Second Collateral in any brokerage account of its choosing, but shall not transfer, sell or otherwise dispose of any Second Collateral, except during the existence of an Event of Default, as defined in the Second Convertible Note. The Second Convertible Note is further secured by collateral assignments of all the Company's license agreements.

The principal amount of the loan is pre-payable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital shall return Second Collateral shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all the collateral shares shall be returned and cancelled. Hankey Capital shall also return the collateral shares under the same terms in case of partial or full conversion of the Second Convertible Note.

In connection with the Second Convertible Note to Hankey Capital, on May 4, 2015 the Company issued 2,531,646 common shares as collateral.

The Company paid a commitment fee in the amount of \$60,000 (3% of the original principal amount of the loan) to Hankey Capital. The Company intends to use the proceeds of the Convertible Note for working capital and general corporate purposes.

On May 4, 2015, the Company also issued a warrant to Hankey Capital for 1,898,734 shares of Common Stock at an exercise price per share of \$1.58 (the "Second Warrant"). The Second Warrant will expire on May 4, 2018. The Second Warrant includes such other terms that are normal and customary for warrants of this type.

Under the terms of both the Second Convertible Note and the Second Warrant, at any time that any of the Company's equity securities are registered under Section 12 of the Securities and Exchange Act of 1934, the aggregate number of Common Stock shares that may be acquired by Hankey Capital upon any exercise of any conversion under the Second Convertible Note or exercise of the Second Warrant, shall be limited to the extent necessary to insure that, following such exercise, or other acquisition, the total number of Common Stock shares then beneficially owned by Hankey Capital and its affiliates may not exceed 4.999% of the total number of issued and outstanding Common Stock. The Company shall, instead of issuing or transferring Common Stock in excess of this limitation, suspend its obligation to issue Common Stock in excess of the foregoing limitation until such time, if any, as such Common Stock shares may be issued in compliance with such limitation; provided, that, by written notice to the Company, Hankey Capital may waive the provisions of this section or increase or decrease the maximum percentage to any other percentage specified in such notice; provided further that any such waiver or increase or decrease will not be effective until the 61st day after such notice is received by the Company.

The total debt discount costs related to our outstanding debt for the years ended December 31, 2015 and 2014, was \$623,101 and \$437,115, respectively. These costs were amortized to interest expense. The unamortized debt discount at December 31, 2015 was \$1,383,905. The cost is expected to be recognized over a period of 2 years. The unamortized debt discount at December 31, 2014 was \$1,354,806.

Note Type	Issue Date	Maturity Date	Interest Rate	December 31, 2015	December 31, 2014
<i>Secured Convertible Note</i>	10/24/14	10/24/17	8.5%	5,000,000	5,000,000
<i>Second Secured Convertible Note</i>	5/4/15	5/4/18	8.5%	2,000,000	-0-
				7,000,000	5,000,000
Less: Debt discount				1,383,905	1,354,806
Net Notes payable				<u>\$ 5,616,095</u>	<u>\$ 3,645,194</u>

## 8. Stockholders' Equity

### *Preferred Stock*

The Company's amended and restated certificate of incorporation authorizes the Company to issue a total of 20,000,000 shares of preferred stock. No shares have been issued.

### ***Common Stock***

The Company's amended and restated certificate of incorporation authorizes the Company to issue a total of 100,000,000 shares of common stock. As of December 31, 2015 and 2014, the Company had an aggregate of 32,211,956 shares and 24,269,047 shares of common stock outstanding, respectively.

In connection with the Secured Convertible Notes to Hankey Capital, the Company issued 8,860,760 common shares as collateral. (See Note 7)

Each share of common stock has the right to one vote. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the Board of Directors, subject to the prior rights of holders of all classes of stock outstanding having priority rights as to dividends. No dividends have been declared by the Board.

### ***Agent Warrants***

The Company's engagement with Forefront expired without renewal on February 15, 2015. Under the agreement, Forefront or its designees received the following warrant ("Agency Warrant"). Such Agent Warrant was issued at the closing of the Private Placement and provided, among other things, that the Agent Warrant shall: (i) be exercisable at the price of the securities (or the exercise price of the securities) issued to the investors in the offering, (ii) expire five (5) years from the date of issuance, (iii) include customary registration rights, including the registration rights provided to the Investors, (iv) contain provisions for cashless exercise and (v) include such other terms that are normal and customary for warrants of this type. In addition, Forefront or its designees received an additional warrant ("Advisory Warrant") equal to 2.0% of the Company's post-merger and financing fully diluted shares outstanding upon the closing of \$2.5 million of investors on which Forefront is eligible to receive compensation.

On February 15, 2015, Forefront was issued the Advisory Warrant to purchase 699,037 shares of Common Stock which represents 2.0% of the Company's post-merger fully diluted shares outstanding at \$1.58 per share upon expiration of their engagement. The warrants expire in three years from issuance date. The initial fair value of the warrants was estimated at an aggregate value of \$363,499, using the Black-Scholes option pricing model with the following assumptions at the date of issuance: expected volatility of 97.76%, risk-free interest rate of 1.10%, contractual term of 3 years and dividend yield of 0%.

### ***AFH Revised Milestone Side Letter Agreement***

On August 11, 2015 the Company entered into the Letter Agreement, by and between, Bone Biologics Corporation and AFH to amend the Side Letter Agreement, dated September 7, 2014 (the "Letter Agreement"), by and among Bone Biologics (formerly known as Bone Biologics, Inc.) MTF and AFH. Pursuant to the Letter Agreement, AFH and MTF are each entitled to receive shares of the Company equal to and not to exceed 2.5% of the fully diluted shares of the Company at the time of the completion of the Milestone Targets ("Milestone Shares"). The Milestone Targets have not been met. The Company used commercially reasonably best efforts in pursuit of performance under the Letter Agreement even though the milestones were not achieved, but notwithstanding, desires (and believes it is in the best interest of the Company's stockholders) to issue such equity, Eight Hundred Sixty Seven Thousand One Hundred Sixty-Three (867,163) Common Shares, to AFH so long as AFH forfeits any rights or claims to receive the Milestone Shares under the Letter Agreement.

AFH is clawing back 2.5% (or 867,163 shares) of the fully diluted shares ("Claw-Back Rights shares") as of August 11, 2015, that were previously cancelled. These Claw-Back Rights shares follow the characteristics of the shares issued in connection with the original merger. The milestone provision originally contemplated that the shares issued would serve as additional inducement to AFH to be party to the merger. The parties subsequently agreed that the original milestone provisions would no longer be applicable and therefore the previously cancelled shares were reinstated. The Company recorded these shares as if they were part of the original recapitalization and accordingly there is no expense associated with this transaction with the effect being a reclassification of the reinstated shares.

### ***MTF Revised Milestone Side Letter Agreement***

On August 11, 2015 the Company entered into the Letter Agreement, by and between, Bone Biologics Corporation and MTF to amend the Side Letter Agreement, dated September 7, 2014 (the “Letter Agreement”), by and among Bone Biologics Corporation (formerly known as Bone Biologics, Inc., the “Company”), Musculoskeletal Transplant Foundation (“MTF”) and AFH. Pursuant to the Letter Agreement, AFH and MTF are each entitled to receive shares of the Company equal to and not to exceed 2.5% of the fully diluted shares of the Company at the time of the completion of the Milestone Targets (“Milestone Shares”). The Milestone Targets have not been reached, and in consideration for the support and cooperation of MTF in trying to reach the Milestone Targets and the closing of certain financings, including the conversion of debt by MTF in order to facilitate certain financings, the Company hereby authorizes the issuance of Company Common Shares to MTF in the amount of 2.5% of the fully diluted shares, Eight Hundred Sixty Seven Thousand One Hundred Sixty-Three (867,163) Common Shares, of the Company as of the date hereof. The Company recognized \$1,370,118 as general and administrative expense.

### ***Founders Agreement***

Bone Biologics Corporation (the “**Company**”) entered into a letter agreement (the “**Letter Agreement**”), effective October 2, 2015, with each of Dr. Chia Soo (who currently serves as a director of the Company), Dr. Eric Kang Ting and Dr. Ben Wu (who currently serves as a director of the Company) (collectively, the “**Founders**”). Pursuant to the Letter Agreement, the Founders agree to deliver to the Company all past work product and past data related to NELL-1 (the “**Data**”) for use by the Company in its sole discretion, within the applicable licensing rights granted by the University of California and in exchange the Company agrees to the future issuance of an aggregate of 1,153,846 shares of the Company’s common stock, par value \$0.001 per share, (the “**Shares**”). The Shares are to be equally distributed between the Founders upon the earlier of (i) the third anniversary of the Agreement and (ii) the occurrence of a Liquidity Event (as defined in the Letter Agreement). The Letter Agreement also provides the Shares with certain piggyback registration rights upon the occurrence of an equity financing by the Company.

The Letter Agreement related to past work product and past data and therefore will be expensed as research and development costs upon the effective date and recorded as shares to be issued.

### ***AFH Consulting Services***

On October 28, 2015, the Registrant agreed (i) to issue a total of 915,614 shares of common stock of the Registrant (the “Shares”) and warrants to purchase 158,229 shares of common stock of the Registrant (the “Warrants”) and (ii) to make a payment of \$275,000. The Warrants have an exercise price of \$1.58. The shares were issued and the payment was made to AFH Holding & Advisory, LLC (“AFH”) as payment for advisory services rendered to the Company. Mr. Amir Heshmatpour is the controlling party of AFH and an affiliate and board observer of the Registrant.

### ***Boden Consulting Agreement***

Effective November 13, 2015, Bone Biologics Corporation appointed Scott D. Boden, MD as Chief Medical Advisor. The Company and Dr. Boden have entered into an Independent Contractor Agreement.

Dr. Boden is a tenured Professor of Orthopaedic Surgery at the Emory University School of Medicine and serves as the Director of the Emory Orthopaedics & Spine Center, Vice Chair of Orthopaedics, CMO/CQO of The Emory University Orthopaedics & Spine Hospital, and Emory Healthcare Physician Director of Strategy and Development for Orthopaedics & Spine Programs. He is also the Clinical Director of the Whitesides Orthopaedic Research Laboratory.

In exchange for the services to be rendered by Consultant hereunder, Company shall issue Consultant a stock option to purchase 1,174,816 shares of the Company’s common stock, which as of the effective date corresponds to approximately 2.75% of the Company’s fully diluted shares outstanding. Such stock option shall have a term of ten (10) years, and all shares shall vest on the date that is the fourth (4th) year anniversary of the date of issuance of such stock option, subject to the terms of the Company’s Equity Incentive Plan. Notwithstanding the foregoing, (i) in the event of a termination of this Agreement by the Company without cause pursuant to Section 4.2, or by Consultant with or without cause pursuant to Section 4.3 and Section 4.2, respectively, a pro-rated portion of the shares issuable pursuant to the stock option (based on the number of months that have then elapsed from the effective date, divided by 48 months) shall, at the option of the Consultant, immediately vest, and (ii) in the event of a change of control of the Company prior to a termination of the Agreement, all shares issuable pursuant to the stock option shall, at the option of the Consultant, immediately vest. For the purposes of the Agreement, the term “Change in Control” means a merger, reorganization or consolidation involving Company in which the voting securities of Company outstanding immediately prior thereto cease to represent at least fifty percent (50%) of the combined voting power of the surviving entity immediately after such merger, reorganization or consolidation. The exercise price per share for the issued stock option will be One Dollar and Fifty Eight Cents (\$1.58), or, if greater, the fair market value per share of the Company’s common stock as of the date of grant, as determined by the Board of Directors of the Company. Consultant shall have the right to forfeit the stock option at any time prior to exercise upon written notice to the Company.

### ***Common Stock Warrants***

As of December 31, 2015, the Company had outstanding unexercised Common Stock Warrants as follows:

<u>Date Issued</u>	<u>Exercise Price</u>	<u>Number of Shares</u>	<u>Expiration date</u>
2006	\$ 0.17	60,920	October 31, 2016
2009	\$ 0.44	118,383	March 16, 2019
2010	\$ 0.44	254,997	February 4, 2020
April 2013	\$ 1.00	50,000	April 28, 2020
September 2013	\$ 1.00	50,000	September 4, 2020
September 2013	\$ 1.00	25,000	September 20, 2020
November 2013	\$ 1.00	75,000	November 14, 2020
July 2014	\$ 1.50	166,667	May 30, 2018
July 2014	\$ 1.50	166,667	September 30, 2018
July 2014	\$ 1.00	500,000	September 30, 2018
July 2014	\$ 1.00	46,667	July 2, 2018
July 2014	\$ 0.00	12,625	July 10, 2018
September 2014	\$ 1.62	625,000	August 31, 2021
September 2014	\$ 1.00	699,671	September 18, 2021
September 2014	\$ 1.00	89,588	September 29, 2021
October 2014	\$ 1.00	126,582	October 23, 2017
October 2014	\$ 1.58	3,955,697	October 23, 2017
February 2015	\$ 1.58	699,037	February 14, 2018
May 2015	\$ 1.58	1,898,734	May 4, 2018
October 2015	\$ 1.58	158,229	October 27, 2018
Total warrants at December 31, 2015		<u>9,779,464</u>	<u>2.81 years</u>

No common stock warrants were exercised or expired during the year ended December 31, 2015 and 2014.

### **9. Stock-based Compensation**

#### ***2015 Equity Incentive Plan***

The Company has 14,000,000 shares of Common Stock authorized and reserved for issuance under our 2015 Equity Incentive Plan for option awards. This reserve may be increased by the Board each year by up to the number of shares of stock equal to 5% of the number of shares of stock issued and outstanding on the immediately preceding December 31. Appropriate adjustments will be made in the number of authorized shares and other numerical limits in our 2015 Equity Incentive Plan and in outstanding awards to prevent dilution or enlargement of participants' rights in the event of a stock split or other change in our capital structure. Shares subject to awards granted under our 2015 Equity Incentive Plan which expire, are repurchased or are cancelled or forfeited will again become available for issuance under our 2015 Equity Incentive Plan. The shares available will not be reduced by awards settled in cash. Shares withheld to satisfy tax withholding obligations will not again become available for grant. The gross number of shares issued upon the exercise of stock appreciation rights or options exercised by means of a net exercise or by tender of previously owned shares will be deducted from the shares available under our 2015 Equity Incentive Plan.

Awards may be granted under our 2015 Equity Incentive Plan to our employees, including officers, director or consultants, and our present or future affiliated entities. While we may grant incentive stock options only to employees, we may grant non-statutory stock options, stock appreciation rights, restricted stock purchase rights or bonuses, restricted stock units, performance shares, performance units and cash-based awards or other stock based awards to any eligible participant.

The 2015 Equity Incentive Plan will be administered by our compensation committee. Subject to the provisions of our 2015 Equity Incentive Plan, the compensation committee determines, in its discretion, the persons to whom, and the times at which, awards are granted, as well as the size, terms and conditions of each award. All awards are evidenced by a written agreement between us and the holder of the award. The compensation committee has the authority to construe and interpret the terms of our 2015 Equity Incentive Plan and awards granted under our 2015 Equity Incentive Plan.

Our 2014 Stock Option Plan was never submitted for approval to the shareholders therefore ineffective. Our 2015 Equity Incentive Plan was approved by majority shareholder consent on December 30, 2015 and all options outstanding as of the effective date were re-issued under the new plan at current plan terms.

During the year ended December 31, 2015 and 2014, the Company had stock-based compensation expenses of \$829,667 and \$148,334, respectively, related to issuances to the Company's employees and directors, included in our reported net loss. Stock-based compensation for the year ended December 31, 2015 related to the issuance of stock options was \$529,667. Stock-based compensation for the year ended December 31, 2015 related to the issuance of shares was \$300,000.

A summary of stock option activity for the year ended December 31, 2015, is presented below:

<b>Subject to Exercise</b>	<b>Number of Shares Remaining Options</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Life (Years)</b>	<b>Aggregate Value</b>
<b>Outstanding as of January 1, 2014</b>				
<b>Granted – 2014</b>	757,977	\$ 1.59	10.00	-
<b>Forfeited – 2014</b>	-	-	-	-
<b>Exercised – 2014</b>	-	-	-	-
<b>Outstanding as of January 1, 2015</b>	757,977	\$ 1.59	10.00	-
<b>Granted – 2015</b>	5,536,249	1.59	10.00	-
<b>Forfeited – 2015</b>	-	-	-	-
<b>Exercised – 2015</b>	-	-	-	-
<b>Outstanding as of December 31, 2015</b>	<u>6,294,226</u>	<u>\$ 1.59</u>	<u>10.00</u>	<u>-</u>

Date Issued	Exercise Price	Number of Shares	Expiration date
September 2014	\$ 1.59	583,059	December 27, 2025
November 2014	\$ 1.59	174,918	December 27, 2025
August 2015	\$ 1.59	3,121,787	December 27, 2025
September 2015	\$ 1.59	300,000	December 27, 2025
November 2015	\$ 1.59	1,224,640	December 27, 2025
December 2015	\$ 1.59	889,822	December 27, 2025
<b>Total options at December 31, 2015</b>		<b>6,294,226</b>	

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (*i.e.*, the difference between our closing stock price on the respective date and the exercise price, times the number of shares) that would have been received by the option holders had all option holders exercised their options. There have not been any options exercised during either the year ended December 31, 2015 or December 31, 2014.

There were 5,536,249 options issued during the year ended December 31, 2015. Vesting of options differs based on the terms of each option. The Company has valued the options at their date of grant utilizing the Black-Scholes option pricing model. As of the issuance of these consolidated financial statements, there was not an active public market for the Company's shares. Accordingly, the fair value of the underlying options was determined based on the historical volatility data of similar companies, considering the industry, products and market capitalization of such other entities. The risk-free interest rate used in the calculations is based on the implied yield available on U.S. Treasury issues with an equivalent term approximating the expected life of the options as calculated using the simplified method. The expected life of the options used was based on the contractual life of the option granted. Stock-based compensation is a non-cash expense because we settle these obligations by issuing shares of our common stock from our authorized shares instead of settling such obligations with cash payments.

There were 322,860 shares issued during the year ended December 31, 2015 per our director's compensation agreement.

The Company utilized the Black-Scholes option pricing model. The assumptions used for the year ended December 31, 2015 are as follows:

	December 31, 2015
Risk free interest rate	0.97%-1.88%
Expected life (in years)	3-6
Expected Volatility	109.81%-114.73%
Expected dividend yield	0%

A summary of the changes in the Company's non-vested options during the year ended December 31, 2015, is as follows:

	Number of Non-vested Options	Weighted Average Fair Value at Grant Date	Intrinsic Value
Non-vested at January 1, 2014	-	-	-
Granted in 2014	757,977	\$ 0.73	
Vested in 2014	(256,508)	\$ 0.73	-
Non-vested at January 1, 2015	501,469	\$ 0.73	-
Granted in 2015	5,536,249	\$ 1.29	-
Vested in year ended December 31, 2015	(881,008)	\$ 0.73	-
Non-vested at December 31, 2015	5,156,710	\$ 1.29	-
Exercisable at December 31, 2015	1,137,516	\$ 1.06	-
Outstanding at December 31, 2015	6,294,226	\$ 1.29	-

As of December 31, 2015, total unrecognized compensation cost related to unvested stock options was \$6,159,462. The cost is expected to be recognized over a weighted average period of 2.20 years.

2016	2017	2018	2019
\$ 3,532,582	\$ 1,555,178	\$ 744,807	\$ 326,895

## 10. Income Taxes

The provision for income taxes consists of the following:

Year Ended	December 31, 2015	December 31, 2014
Current:		
Federal	\$ -	\$ -
State	8,840	1,600
Total current	8,840	1,600
Deferred:		
Federal	-	-
State	-	-
Total deferred	-	-
Provision for income taxes	\$ 8,840	\$ 1,600

The components of deferred tax assets and liabilities consist of the following:

	December 31, 2015	December 31, 2014
Deferred tax assets		
Net operating losses	\$ 6,507,000	\$ 2,631,000
Patents	175,000	326,000
Accrued expenses	60,000	952,000
R&D credits	137,000	85,000
Warrants	2,675,000	765,000
Total	9,554,000	4,759,000
Less: Valuation allowance	(9,554,000)	(4,759,000)
	\$ -	\$ -

The Company's federal and state net operating loss carryforwards at December 31, 2015 and 2014 were approximately \$16,226,000 and \$6,638,000, respectively, and will begin to expire in 2020 if not utilized.

The Company reviews its deferred tax assets for realization based upon historical taxable income, prudent and feasible tax planning strategies, the expected timing of the reversals of existing temporary differences and expected future taxable income. The Company has concluded that it is more likely than not that the deferred tax assets will not be realized. Accordingly, the Company has recorded a valuation allowance against the net deferred tax assets in the amount of \$9,554,000 at December 31, 2015. The net change in the valuation allowance for the year ended December 31, 2015 was \$4,795,000.

The effective tax rate differs from the statutory tax rate principally due to the change in valuation allowance, nondeductible permanent differences, credits, and state income taxes.

The Company's effective tax rate is 0% for income tax for the years ended December 31, 2015 and 2014. Based on the weight of available evidence, including cumulative losses since inception and expected future losses, the Company has determined that it is more likely than not that the deferred tax asset amount will not be realized and therefore a valuation allowance has been provided on net deferred tax assets.

The Company files tax returns for U.S. Federal and State of California. The Company is not currently subject to any income tax examinations. Since the Company's inception, the Company had incurred losses from operations, which generally allows all tax years to remain open.

#### ***Uncertain Tax Positions***

The Company recognizes the financial statement effects of a tax position when it becomes more likely than not, based upon the technical merits, that the position will be sustained upon examination.

The Company recognizes interest and/or penalties related to uncertain tax positions. To the extent accrued interest and penalties do not ultimately become payable, amounts accrued will be reduced and reflected in the period that such determination is made. The interest and penalties are recognized as other expense and not tax expense. The Company currently has no interest and penalties related to uncertain tax positions.

#### **11. Related Party Transactions**

Starting in September 2006, the Company entered into a series of consulting agreements with one of its stockholders whom previously served as Chairman, President and CEO of the Company. The Company paid \$75,000 and \$90,000, for the year ended December 31, 2015 and 2014, respectively, in consulting fees to this related party.

On September 19, 2014, the Company granted the consultant warrants to purchase up to 3% of the Company's fully diluted shares of Common Stock outstanding as of the date of closing of the Merger totaling 699,671 shares of Common Stock of at a strike price of \$1.00 per share, with a 7 year term to a consultant. The warrant will vest over a two year period from the effective date, with 33.33% of the shares subject to the warrant becoming vested and exercisable on the date that the consulting agreement is executed, 33.33% of the shares subject to the option becoming vested and exercisable on the date that is twelve (12) months after the effective date, and 33.34% of the shares subject to the warrant vesting and becoming exercisable on the date that is twenty four (24) months after the effective date. The initial fair value of the warrant was estimated at an aggregate value of \$614,049, using the Black-Scholes option pricing model with the following assumptions at the date of issuance: expected volatility of 113.7%, risk-free interest rate of 2.29%, contractual term of 7 years and dividend yield of 0%. The fair value on the warrant was recorded as general and administrative expense and amortized over the term of the agreement. As of December 31, 2015, all costs associated with the warrants were recognized.

On February 29, 2015, the Company terminated the consulting contract. As per the contract, the consultant was provided a ninety (90) day notice and all warrants issued became fully vested.

In September 2014, the Company entered into a consulting agreement with MTF, which has agreed to provide the services of Mr. Michael Schuler to the Company as a contractor. Pursuant to the agreement, Mr. Schuler will serve as the Company's Interim Chief Executive Officer for a period of 6 months. The agreement shall automatically renew for successive three (3) month periods unless either party provides written notice to the other party at least 10 days in advance of the renewal term of its decision not to renew the term. The agreement is intended to be temporary in nature and will cease once the Company retains a permanent Chief Executive Officer. There are no payments due to MTF or Mr. Schuler with respect to any change in control of the Company or termination of the consulting agreement. For the year ended December 31, 2015, the Company recognized \$112,500 of expense related to this contract.

On August 17, 2015, the Company appointed Steven R. LaNeve as our full-time Chief Executive Officer and our agreement with MTF for the services of Mr. Schuler concluded.

See Note 6 for related party notes payable to MTF.

See Note 8 for related party transactions with AFH. In addition to the shares and warrants issued for services, AFH received cash for services of \$408,750 during the year ended December 31, 2015.

## 12. Employment Agreements

Bone Biologics Corporation, a Delaware corporation (the “Company”) appointed Mr. Stephen R. La Neve, age 56, as the Company’s Chief Executive Officer and President, and Mr. Jeff Frelick, age 50, as the Company’s Chief Operating Officer, each to be effective on August 17, 2015 (the “Effective Date”).

Steve La Neve brings thirty years of health care experience, leadership and success to Life Science Enterprises. Prior to his current position, Steve held leadership roles in the device and diagnostic segments which include: CEO and President of Etex Corporation; President of Becton Dickinson’s Pre-Analytical Systems business; President of Medtronic’s \$3.5b Spine and Biologics business; and President of Medtronic’s second largest country business unit, Medtronic Japan. He also served as Senior Vice President and Executive Vice President at Premier, one of the largest GPOs in the United States and ran the global Injection Systems business unit for Becton Dickinson. Additionally, Steve has held a number of commercial leadership roles at Becton Dickinson, Roche Diagnostics and E Merck Diagnostic Systems in sales, marketing, strategic planning and project management both in the US and outside the US. He serves on the board of directors for SkelRegen, LLC and Rapid Pathogen Screening, Inc. (RPS), and he consults for private equity companies in the medical device area. Steve holds a B.S. in Health Planning and Administration from the Pennsylvania State University, an M.B.A. from West Chester University, and is a member of the omicron delta epsilon honor society for academic excellence in economics.

Jeffrey Frelick was the COO of Life Science Enterprises, where he brings more than 25 years of med-tech experience. He spent the past 15 years on Wall Street as a sell-side analyst following the med-tech industry at investment banks such as Canaccord Genuity, ThinkEquity and Lazard. Prior to becoming an equity research analyst, Jeff worked at Boston Biomedical Consultants where he provided strategic planning assistance, market research data and due diligence for diagnostics companies. He previously held sales and sales management positions at Becton Dickinson’s Primary Care Diagnostic Division after gaining technical experience as a laboratory technologist with Clinical Pathology Facility. Jeff received a B.S. in Biology from University of Pittsburgh and an M.B.A. from Suffolk University’s Sawyer Business School.

Pursuant to the employment agreement entered into between the Company and Mr. La Neve on September 8, 2015, the initial term of his employment began on August 17, 2015 and will continue for three years until August 16, 2018, which term will automatically be extended for successive one year periods, unless earlier terminated. Mr. La Neve shall receive a base salary in the gross amount of \$500,000 per annum to be paid semi-monthly in equal installments. In addition, Mr. La Neve is eligible to earn a yearly bonus targeted at 70% of the base salary based on reasonably achievable key performance indicators established by Mr. La Neve, the Company’s Chief Operating Officer and the Board of Directors after consultation. On Mr. La Neve’s start date, he received an option to purchase 6% of the then outstanding shares of the Company’s common stock, at an exercise price that equals to the fair market price on the date of the grant. These options will vest annually over three (3) years such that they are vested in full on the third year anniversary of the employment agreement date, provided, that any stock option that is unvested on the date of termination shall be forfeited on such date of termination, subject to certain exceptions. If Mr. La Neve is terminated by the Company without cause, or by non-renewal without cause, or terminated for good reason (each as described in the employment agreement), Mr. La Neve shall receive a severance payment equivalent to one year of base salary, and shall also be eligible for a pro-rata annual bonus for the year of termination if the Board of Directors exercise its discretion to award such a bonus. All severance payments will be paid in equal installments over a one year period starting on the ninetieth day following the termination. The severance payment will be contingent upon Mr. La Neve’s execution of a full release of claims against the Company and a non-compete and non-solicitation agreement as provided in the employment agreement.

Pursuant to the employment agreement entered into between the Company and Mr. Frelick on September 8, 2015, the initial term of his employment began on August 17, 2015 and will continue for three years until August 16, 2018, which term will automatically be extended for successive one year periods, unless earlier terminated. Mr. Frelick shall receive a base salary in the gross amount of \$300,000 per annum to be paid semi-monthly in equal installments. In addition, Mr. Frelick is eligible to earn a yearly bonus targeted at 50% of the base salary based on reasonably achievable key performance indicators established by Mr. Frelick, the Company's Chief Executive Officer and the Board of Directors after consultation. On Mr. Frelick's start date, he received an option to purchase 3% of the then outstanding shares of the Company's common stock, at an exercise price that equals to the fair market price on the date of the grant. These options will vest annually over three (3) years such that they are vested in full on the third year anniversary of the employment agreement date, provided, that any stock option that is unvested on the date of termination shall be forfeited on such date of termination, subject to certain exceptions. If Mr. Frelick is terminated by the Company without cause, or by non-renewal without cause, or terminated for good reason (each as described in the employment agreement), Mr. Frelick shall receive a severance payment equivalent to one year of base salary, and shall also be eligible for a pro-rata annual bonus for the year of termination if the Board of Directors exercise its discretion to award such a bonus. All severance payments will be paid in equal installments over a one year period starting on the ninetieth day following the termination. The severance payment will be contingent upon Mr. Frelick's execution of a full release of claims against the Company and a non-compete and non-solicitation agreement as provided in the employment agreement.

#### ***Walsh Employment Agreement***

On November 9, 2015, the Board of Directors of Bone Biologics Corporation (the "Company") appointed Deina H. Walsh, age 51, to a full-time position as Chief Financial Officer ("CFO") and principal accounting officer of the Company effective as of December 1, 2015. Ms. Walsh will provide services as CFO pursuant to an employment agreement effective December 1, 2015 (the "Employment Agreement").

Ms. Walsh is a certified public accountant and founded DHW CPA, PLLC a Public Companies Accounting Oversight Board (PCAOB) registered firm since 2014. Prior to forming her firm, Ms. Walsh has 13 years at a public accounting firm where as a partner she was actively responsible for leading firm audit engagements of publicly held entities in accordance with PCAOB standards and compliance with SEC regulations, including internal control requirements under section 404 of the Sarbanes-Oxley Act. Ms. Walsh had a global client base including entities throughout the United States, Canada and China. These entities encompass a diverse range of industries including manufacturing, wholesale, life sciences, pharmaceuticals, and technology. Her experience includes work with start-up companies and well-established operating entities. She has assisted many entities seeking debt and equity capital. Areas of specialty include mergers, acquisitions, reverse mergers, consolidations, complex equity structures, foreign currency translations and revenue recognition complexities. Ms. Walsh has an Associates of Science Degree in Business Administration from Monroe Community College and a Bachelor of Science Degree in Accounting from the State University of New York at Brockport.

Under the terms of the Employment Agreement, Ms. Walsh will serve as the Company's full-time Chief Financial Officer at-will and not for any specified period and may be terminated at any time with or without cause. Her base salary will be \$200,000. During each calendar year beginning in 2016, Ms. Walsh shall be eligible to earn an annual target bonus of thirty-five percent (35%) of her base salary as in-effect for the applicable calendar year, subject to the achievement of personal and corporate objectives or milestones to be established by the board of directors, or any compensation committee thereof, (after considering any input or recommendations from Ms. Walsh) within sixty (60) days following the beginning of each calendar year during Ms. Walsh's employment. In order to earn the annual bonus under this provision, the applicable objectives must be achieved and Ms. Walsh must be employed by Company at the time the annual bonus is distributed by Company. The annual bonus, if any, shall be paid on or before March 15th of the calendar year following the year in which it is considered earned. The actual annual bonus paid may be more or less than thirty-five percent (35%) of Ms. Walsh's base salary.

Mr. Walsh is entitled to purchase 465,795 shares of Common Stock of the Company as of the date of the grant on the condition that i) the exercise price will be the current market price on the date of the grant; and ii) 155,265 of the shares underlying the grant shall vest on the first anniversary of the execution of the Letter Agreement, 155,265 of the shares underlying the grant shall vest on the second anniversary of the execution of the Letter Agreement and 155,265 of the shares underlying the grant shall vest on the third anniversary of the Letter Agreement. Any portion of the stock option grant that is unvested on the date of her termination shall be forfeited on such date of termination except: (i) in the case of termination by the Company without cause; and (ii) upon a change in control (as defined in the equity incentive plan) of the Company, which shall result in the immediate accelerated vesting of all options granted but unvested under the letter agreement as of (i) or (ii). Such options shall be subject to the terms of the equity incentive plan and stock option agreements which shall be entered into at a later mutually agreed-upon date to prevent or mitigate dilution of her equity interests in the Company, in connection with each financing, she shall be provided an opportunity to invest in the Company such that her interest, at her option, remains un-diluted or partially diluted.

### **13. Subsequent Events**

Effective January 8, 2016 (the “Effective Date”), the “Company entered into separate Professional Services Agreements (each an “Agreement” and, collectively, the “Agreements”) with each of Dr. Bessie (Chia) Soo, Dr. Kang (Eric) Ting, and Dr. Benjamin Wu (each, an “Advisor” and, collectively, the “Advisors”). Pursuant to each of the Agreements, each Advisor has agreed to provide certain services to the Company, including providing strategic advice and strategic introductions to the Company’s management team as well as specific services set forth on an Exhibit to each Agreement. The Agreements are substantially identical. In consideration for the services to be rendered under the applicable Agreement, each Advisor is granted 10-year stock options (the “Options”) to purchase 1,800,364 shares of the Company’s common stock corresponding to 4% of the Company’s outstanding common stock, on a fully diluted basis, at an exercise price of \$1.59 per share. The shares subject to the Option will vest 25% on each of the first, second and third anniversary of the effective date and 12.5% on each of the fourth and fifth anniversary of the Effective Date. The options fully vest on a change of control of the Company (as defined in the Agreement) if the Company terminates the Agreement without cause or the Advisor terminates the Agreement with cause. Additionally, beginning January 1, 2017, the Company will pay each Advisor an annual consulting fee of \$200,000 in cash or, at the option of the Company, in shares of its common stock valued as provided in the Agreement.

Dr. Soo and Dr. Wu are directors of the Company, and Dr. Ting is on the Company’s Scientific Advisory Board. Each of the Advisors were involved in the founding of the Company.

Pursuant to a letter agreement dated February 10, 2016, the Company agreed to issue a total of 1,260,255 shares of common stock of the Company to AFH. The Letter Agreement was entered into in connection with the AFH/MTF Agreement under which AFH and its affiliated entities, individuals or assignees (“AFH Group”) were entitled to 10% of the outstanding shares of common stock of the Company on a fully diluted basis (the “Share Adjustment”) after giving effect to an anticipated private placement of between \$8,000,000 and \$10,000,000 (the “PIPE”). In the Letter Agreement, the Company recognized that, at the time the AFH/MTF Agreement was entered into, it was not anticipated that certain events in addition to the PIPE would dilute directly or indirectly the interest of AFH Group as stockholders of the Company, including the Ninth Amendment to the UCLA License Agreement and the issuance of the Company’s Common Shares pursuant to the Professional Services Agreement with each of Dr. Chia Soo, Dr. Ben Wu, and Dr. Eric Ting discussed above. Accordingly, the Company agreed to issue the 1,260,255 shares in connection with the Share Adjustment.

On February 22, 2016, the Company entered into share purchase agreements, pursuant to which the Company sold an aggregate of 1,219,511 shares of common stock of the Company at a price per share equal to \$2.05 for gross proceeds of \$2.5 million.

On February 24, 2016, the Company issued a convertible promissory note in the amount of \$2,000,000 to Hankey Capital. The Convertible Note matures on February 23, 2019 (the "Maturity Date") and bears interest at an annual rate of interest at the "prime rate" (as quoted in the "Money Rates" section of The Wall Street Journal) plus 4.0%, with a minimum rate of 8.5% per annum until maturity, with interest payable monthly in arrears. Prior to the Maturity Date, Hankey Capital has a right, in its sole discretion, to convert the Convertible Note into shares of the Company's common stock (the "Conversion Shares"), at a conversion rate equal to \$1.58 per share. The Convertible Note is secured by certain collateral shares of Common Stock issued by the Company in the name of Hankey Capital, in such amount so as to maintain a loan to value ratio of no greater than 50%. The number of Collateral Shares will be adjusted on a yearly basis. The Convertible Note is further secured by all of the Company's personal property, including collateral assignments of all the Company's license agreements and the Option Agreement. The principal amount of the loan is prepayable in whole or in part at any time, without premium or penalty. Upon any voluntary partial prepayment of outstanding principal, Hankey Capital will return Collateral Shares to the Company in the amount necessary, if any, to maintain the loan to value ratio at no less than 50%. Upon a full payment of the outstanding principal, all Collateral Shares will be returned and cancelled. Hankey Capital will also return Collateral Shares under the same terms in case of partial or full conversion of the Convertible Note. In connection with the Convertible Note to Hankey Capital, on February 24, 2016 the Company issued 2,531,646 common shares as collateral. In connection with the Convertible Note, on February 24, 2016, the Company issued a warrant to Hankey Capital for 1,463,415 shares of Common Stock at an exercise price per share of \$2.05. The Warrant will expire on February 23, 2021. The Note and Warrant contain provisions limiting the exercise/conversion thereof.

In connection with the financing with Hankey Capital, Hankey Capital exercised warrants to purchase an aggregate of 791,139 shares resulting in gross proceeds to the Company of \$1,250,000, and the parties agreed to extend the maturity date of the first two convertible secured notes to December 31, 2019 and fix the conversion rate to \$1.58. The Company also agreed to extend the term of all outstanding warrants to five years from issuance.

On February 24, 2016 the Company entered into an Option Agreement for the Distribution and Supply of Sygnal™ demineralized bone matrix ("Sygnal") with MTF pursuant to which:

- a. MTF grants to the Company the exclusive right and option (the "Option") to distribute Sygnal upon the critical terms as described in the Option Agreement (the "Option Rights"). The Company will exercise the Option, if at all, by providing written notice to MTF of its intent to do so. During the term of the Option, MTF will not enter into any agreements with any third parties which include the transfer by MTF of the Option Rights.
- b. Upon the exercising of the Option, the Company will grant to MTF 700,000 shares of common stock in the Company.
- c. Within 30 days of exercising the Option, MTF will provide the Company with a written proposal of a Definitive Agreement that includes, inter alia, the Critical Terms and those other commercially reasonable terms as agreed upon by the parties. The parties will fully negotiate in good faith all of the terms of the Definitive Agreement, and any ancillary agreements thereto consistent with the Critical Terms.
- d. In the event the Company does not exercise the Option within the Term of the Option Agreement, MTF will be free to enter into any other agreement relating to the Option Rights as it deems appropriate without liability to the Company.

Sygnal is a bone void filler contouring allograft bone that has the inorganic mineral removed, leaving behind the organic "collagen" matrix.

On March 14, 2016, the Company and William Jay Treat entered into a Separation Agreement (the "Separation Agreement") pursuant to which Dr. Treat resigned as the Company's Chief Technology Officer effective March 1, 2016. Under the Separation Agreement, the Company agreed to pay Dr. Treat's current base salary (at the rate of \$300,000, when annualized) in installments corresponding to the regular pay periods of the Company and transition expenses of \$2,500. Additionally, the Company granted to Dr. Treat fully vested stock options to purchase 54,000 shares of the Company's common stock at an exercise price of \$2.05 per share exercisable through February 16, 2021, and extended the term for the exercise of Dr. Treat's existing stock options (for 799,414 shares) until February 16, 2021.

The Company has evaluated subsequent events through March 21, 2016, the date which the consolidated financial statements were available to be issued. There were no additional subsequent events noted that would require adjustment to or disclosure in these consolidated financial statements.

## Exhibit Index

Exhibit No.	Description
2.1	Agreement and Plan of Merger, dated as of September 19, 2014, by and among AFH Acquisition X, Inc., Bone Biologics Acquisition Corp., and Bone Biologics, Inc. (incorporated herein by reference to Exhibit 2.1 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
2.2	Certificate of Merger as filed with the California Secretary of State effective September 19, 2014 (incorporated herein by reference to Exhibit 2.2 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
3.1(i)	Amended and Restated Articles of Incorporation, of Bone Biologics Corporation, as filed with the Delaware Secretary of State on July 28, 2014 (incorporated herein by reference to Exhibit 3.1(i) to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
3.1(ii)	Amended and Restated Bylaws of Bone Biologics Corporation (incorporated herein by reference to Exhibit 3.1(ii) to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.1	Bone Biologics Corporation September 2013 Warrant issued to AFH (incorporated herein by reference to Exhibit 4.1 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.2	Bone Biologics Corporation June 2013 Warrant issued to Orthofix (incorporated herein by reference to Exhibit 4.2 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.3	Bone Biologics Corporation April 2013 Warrant issued to MTF (incorporated herein by reference to Exhibit 4.3 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.4	Amendment to Bone Biologics Corporation April 2013 Warrant issued to MTF, June 2013 Warrant issued to Orthofix and September 2013 Warrant issued to AFH (incorporated herein by reference to Exhibit 4.4 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.5	Bone Biologics Corporation Warrant issued to Marie Antonia Gray (incorporated herein by reference to Exhibit 4.5 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.6	Bone Biologics Corporation March 2009 Warrant issued to MTF (incorporated herein by reference to Exhibit 4.6 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.7	Bone Biologics Corporation Warrant issued to T.O. Medical Development Inc. (incorporated herein by reference to Exhibit 4.7 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.8	Bone Biologics Corporation Warrant issued to Chia Soo (incorporated herein by reference to Exhibit 4.8 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.9	Bone Biologics Corporation Warrant issued to Aragen Bioscience, Inc. (incorporated herein by reference to Exhibit 4.9 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.10	Bone Biologics Corporation Warrant issued to Alquest, Inc. (incorporated herein by reference to Exhibit 4.10 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
4.11	Bone Biologics Corporation October 2013 Warrant issued to Orthofix (incorporated herein by reference to Exhibit 4.11 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)

- 4.12 Bone Biologics Corporation June 2014 Warrant issued to MTF, as thereafter assigned to Orthofix (incorporated herein by reference to Exhibit 4.12 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 4.13 Bone Biologics Corporation July 2014 Warrant issued to Orthofix (incorporated herein by reference to Exhibit 4.13 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 4.14 Bone Biologics Corporation July 2014 Warrant issued to AFH (incorporated herein by reference to Exhibit 4.14 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 4.15 Bone Biologics Corporation Warrant issued to Catherine Doll (incorporated herein by reference to Exhibit 4.15 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 4.16 Bone Biologics Corporation Warrant issued to Forefront Capital Markets, LLC (incorporated herein by reference to Exhibit 4.16 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 4.17 Bone Biologics Corporation September 2014 Warrant issued to MTF(incorporated herein by reference to Exhibit 4.17 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 4.18 Form of Registration Rights Agreement, by and between Bone Biologics Corporation, AFH, HIC and MTF (incorporated herein by reference to Exhibit 4.18 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)
- 10.1 Director Offer Letter, dated July 2, 2014, by and between Chia Soo and Bone Biologics Corporation (incorporated herein by reference to Exhibit 10.3 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)+
- 10.2 Director Offer Letter, dated July 1, 2014, by and between Bruce Stroever and Bone Biologics Corporation (incorporated herein by reference to Exhibit 10.4 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014) +
- 10.3 Director Offer Letter, dated August 22, 2014, by and between John Booth and Bone Biologics Corporation (incorporated herein by reference to Exhibit 10.5 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)+
- 10.4 Director Offer Letter, dated June 23, 2014, by and between Jimmy Delshad and Bone Biologics Corporation (incorporated herein by reference to Exhibit 10.6 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)+
- 10.5 Director Offer Letter, dated, June 25, 2014, by and between William Coffin and Bone Biologics Corporation (incorporated herein by reference to Exhibit 10.8 to current report on Form 8-K, File No. 000-53078, filed September 25, 2014)+

CERTIFIED PUBLIC ACCOUNTANTS

**CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders

Bone Biologics, Corp.:

We consent to the inclusion in the foregoing Registration Statement on Form S-1/A Amendment No. 2 of our report dated March 25, 2015, relating to our audits of the consolidated balance sheets of Bone Biologics, Corp. as of December 31, 2015 and 2014, and the related consolidated statements of operations, changes in stockholders' deficit, and cash flows for the years then ended.

We also consent to the reference to us under the caption "Experts" in the Form 10-K.

**Exhibit 31.1**

**Certification of Principal Executive Officer  
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002  
and Securities and Exchange Commission Release 34-46427**

I, Stephen R. LaNeve, certify that:

1. I have reviewed this annual report on Form 10-K of Bone Biologics Corporation.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. As the registrant's Principal Financial Officer, I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and I have:
  - a) designed such disclosure controls and procedures or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of the annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Certification of Principal Executive Officer**  
**Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to**  
**Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Report of Bone Biologics Corporation (the "Company") on Form 10-K for the period ended December 31, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Stephen R. LaNeve, Principal Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
