These statements and this Presentation are based on current expectations, estimates and projections, which generally are identifiable by statements containing words such as "expects", "believes", "estimates" or similar expressions. Important factors that could cause actual results to differ materially from those expectations include, among others, general economic and industry conditions in markets which are expected to be major markets for eWellness Healthcare Corp.'s products, as well as risks and uncertainties related to product development, regulatory approvals, commercial partnerships, the outcome of intellectual property rights litigation and the competitive situation.

Although for eWellness Healthcare Corp. believes that its expectations and the Presentation are based upon reasonable assumptions, it can give no assurance that those expectations will be achieved or that the actual results will be as set out in the Presentation. for eWellness Healthcare Corp. is making no representation or warranty, expressed or implied, as to the accuracy, reliability or completeness of the Presentation, and neither for eWellness Healthcare Corp. nor any of its directors, officers or employees will have any liability to you or any other persons resulting from your use of the information contained herein.

This Presentation was prepared upon special request and the information contained within will not be updated in this Presentation. The following slides should be read and considered in connection with other information provided by the company.

No shares of for eWellness Healthcare Corp. are being offered in connection with this Presentation and no such shares have been registered under the U.S. Securities Act of 1933, as amended (the "Act"), and such shares may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Act.

Opportunity for Cost-Effective Orthopedic Post-Acute Care Digital Therapies

1 Delivery of post-acute rehabilitation is difficult and expensive to scale; 1-on-1, in-office treatments

2 Shift towards alternative payment model; CMS' goal to move over 50% of Medicare spend to an alternative payment system by 2018

3 Over 1M hip and knee replacement surgeries performed each year in US with high growth rates; expected to more than triple by 2025

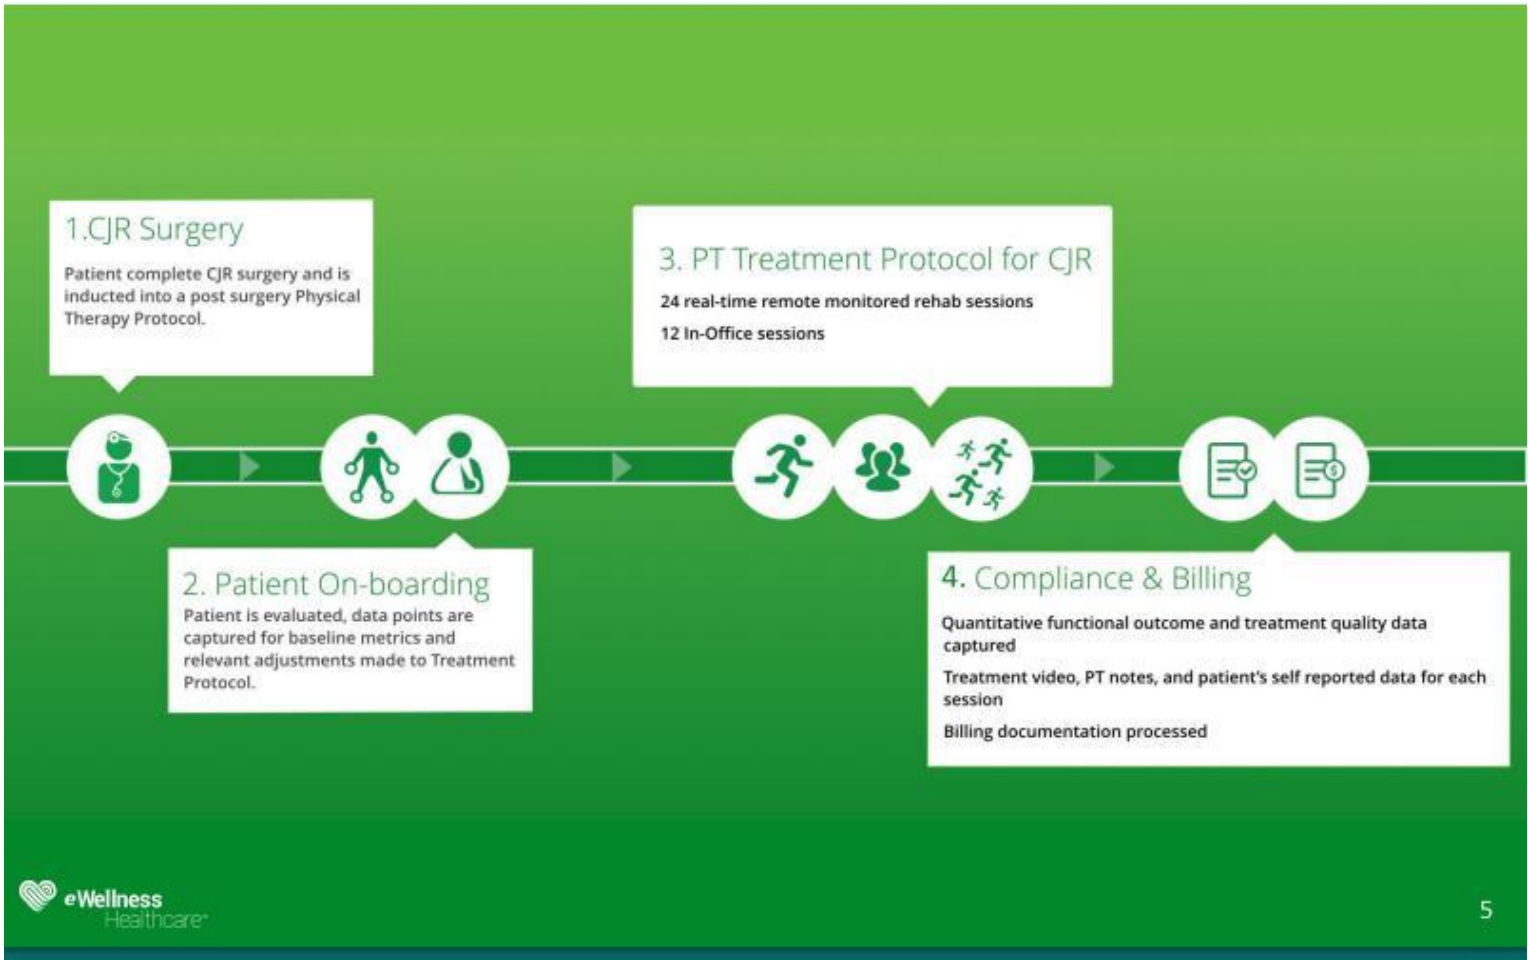

? What if providers had a technology-enabled solution to implement post-acute care physical therapy with better compliance and comparable outcomes than in-office visits at a significantly lower cost?

The Phzio Solution: A New Post-Acute Care Delivery System

- Digital therapeutics for orthopedic conditions such as post-acute care for hip and knee replacement surgeries
- First real-time remote monitored, 1-to-many, SaaS-based physical therapy treatment platform for home use
- Highly economical – significantly reduces the costs of alternative payment models such as Comprehensive Care for Joint Replacement
- Treatment sessions reimbursed by major health plans
- Solves what has been a structural problem and limitation in post-acute care practice growth

Phzio Comprehensive Joint Replacement (CJR) Workflow

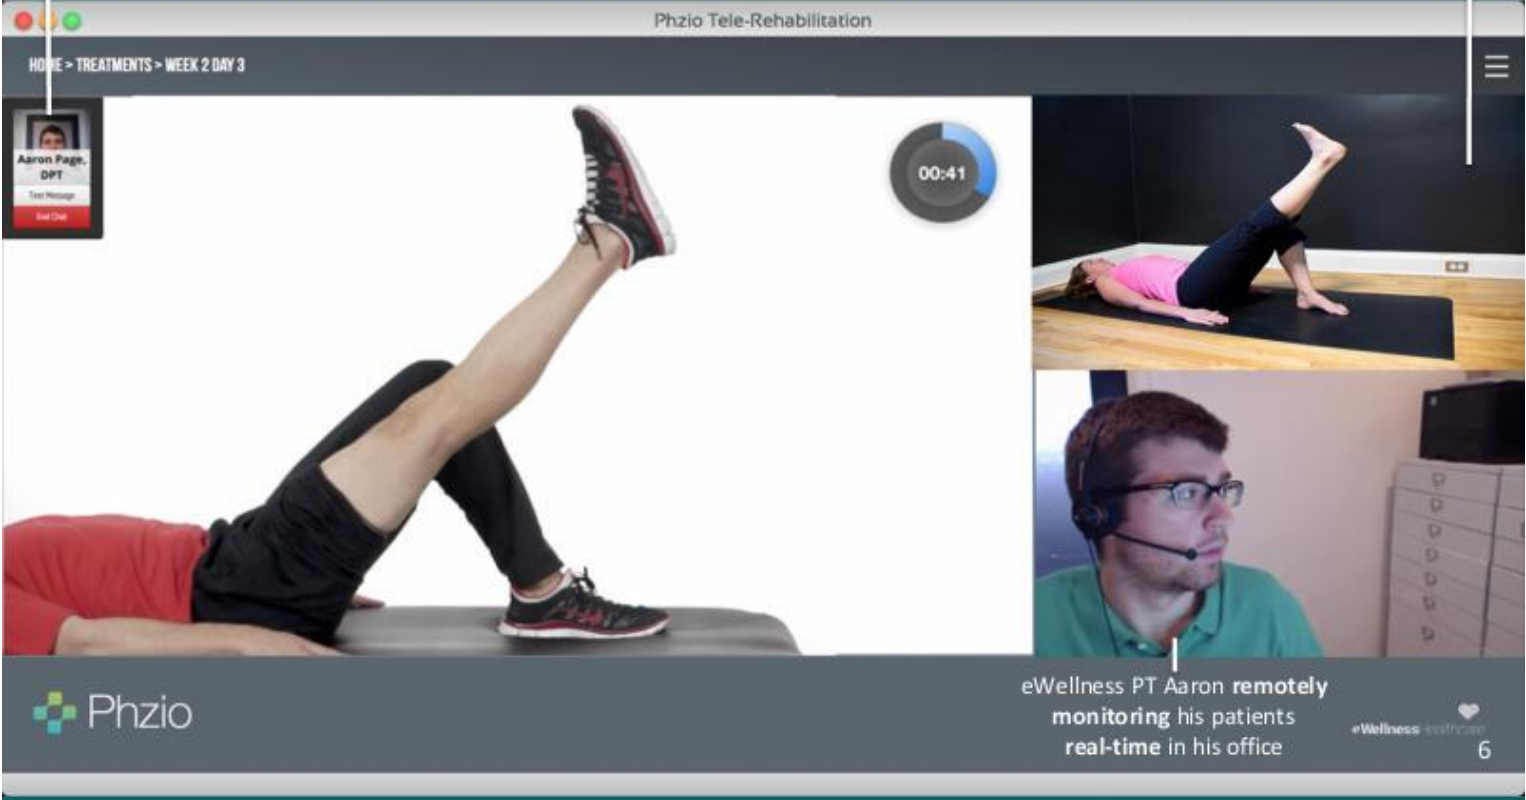

Real-time monitoring of patients with bi-directional live communication

Live communication between patient and PT conducted via text / video messaging

The patient is able to examine her form during exercises

Phzio

7

What does Phzio mean for Patients?

- **Convenience:** Easy to follow, safe exercises in their own home monitored by a PT/PTA
- **Decrease in office visits**
- **Privacy:** HIPAA compliant, secure cloud
- Increased **accountability** due to real-time physical therapy observation and feedback
- **Compliance leads to better outcomes:** less pain and more strength building

“The mix of in-person and online sessions just fits for me. I would not have stuck with the program otherwise.”

- MM, Patient

What does Phzio mean for Providers? (I)

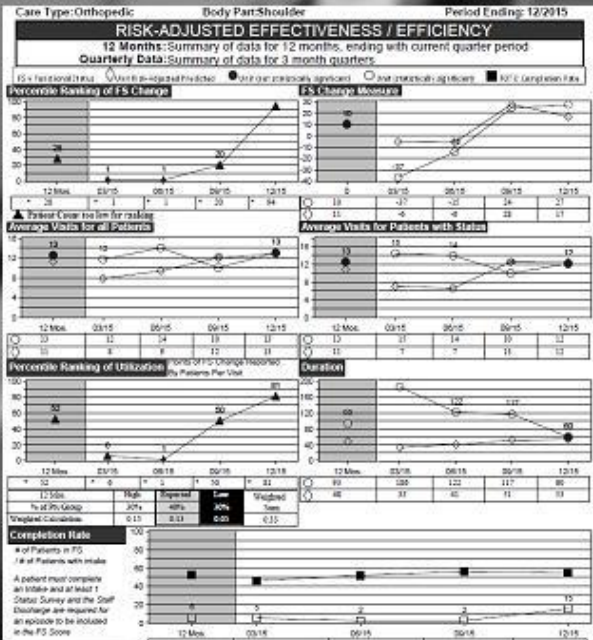

- Drives transparency into the quality of outpatient post-acute care required by new payment models
- Comparable outcomes of 1-many real-time monitored digital delivery model to traditional 1-1 in-office model
- Decrease costs of post-acute care rehabilitation
- Further increase provider profits with 1-many delivery
- Treatment sessions reimbursed by major health plans
- Compliance and billing built into system

What does Phzio mean for Providers? (II)

- Phzio collects and supplies providers with:
 - Quantitative functional outcome & treatment quality data using Focus on Therapeutic Outcomes (FOTO), an assessment tool recommended by CMS
 - Treatment video, physical therapist notes, and patient's self-reported data for each session
- Phzio also collects objective data such as strength, range of motion, and balance

Initial Focus on Private Payers; CMS Coverage Expected by 2018

Ages 18-64

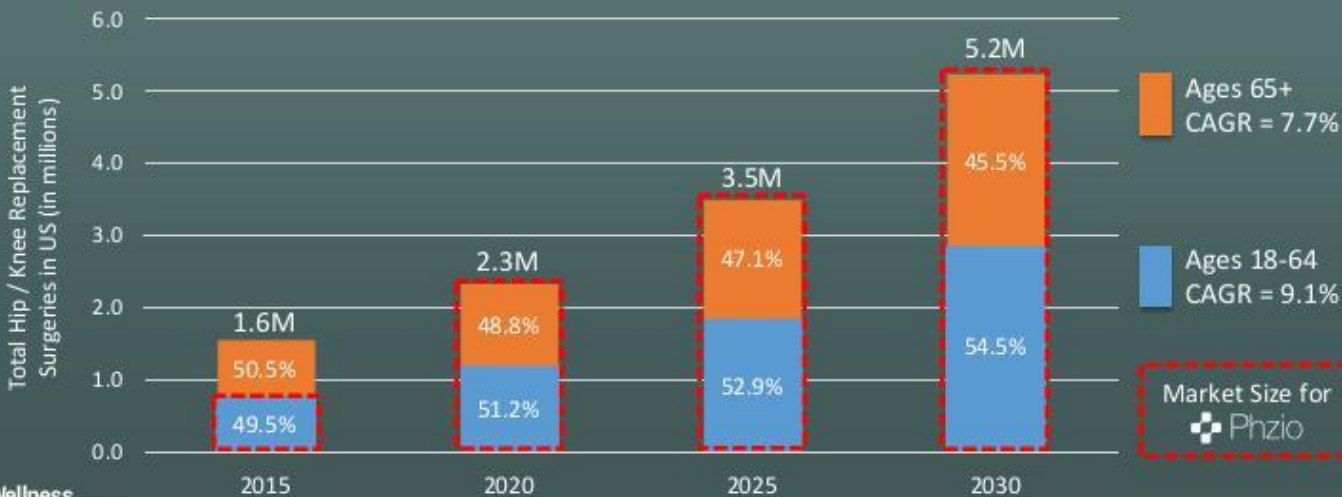

Covered by Private Insurance

- Telemedicine currently covered in 29 states, and parity laws being enacted rapidly across remaining states

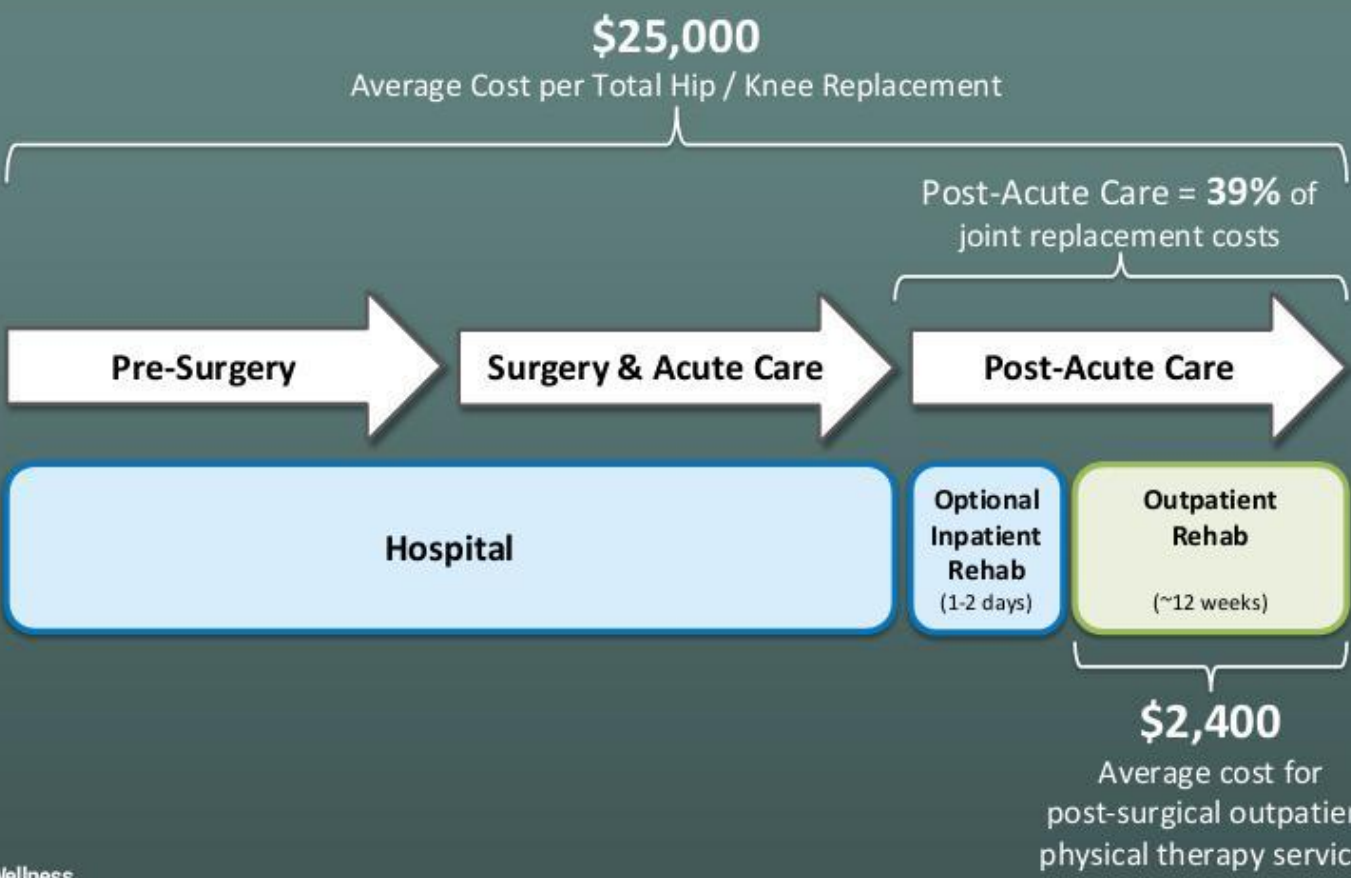

Ages 65+

Covered by Medicare CMS CJR

- Currently does not cover telehealth services, but the bill CONNECT for Health Act would expand telehealth services through Medicare

Significant Post-Acute Care Costs for Joint Replacement Surgeries

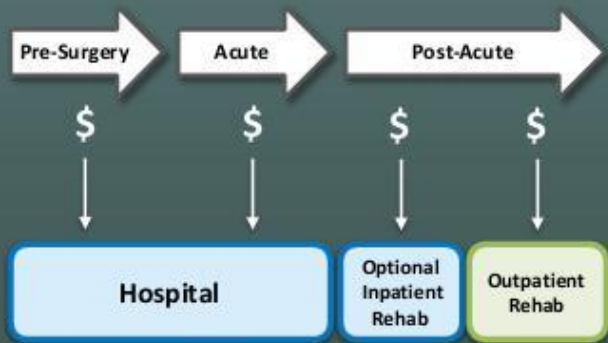

Shift to Alternative Payment Models Driving Need for Post-Acute Care Accountability

Phzio provides HCPs with adherence, quality, and outcomes data required under bundled and value-based payment models

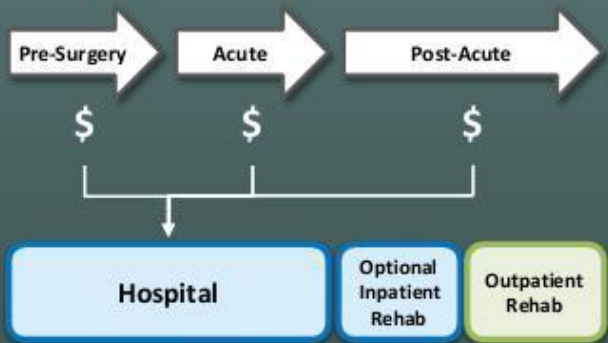

Fee-for-Service Model

HCPs have little control over outpatient post-acute care costs and quality

Bundled & Value-Based Models

HCPs are now accountable for the quality and cost of an entire episode

**Outpatient
Rehab**
(~12 weeks)

Fee-for-Service Model

- Reimbursed similar to in-clinic visit by private insurers in certain states
- Average \$50+ reimbursement per remote-monitored session to Clinic
- \$20 licensing fee per remote-monitored session to eWellness
- \$480 Phzio program costs for 12 weeks

Bundled & Value-Based Models

- 12-week program consisting of:
 - 24 remote-monitored sessions
 - Quantitative functional outcome and treatment quality data
 - Treatment video, PT notes, and patient self-reported data for each session
- \$480 Phzio program costs for 12 weeks

Fee-for-Service Model

>110% increase in revenue
and >20X increase in gross
profit per physical therapist

25% increase in patient
capacity

25-30% improvement in
patient adherence and
compliance

Bundled & Value-Based Models

In addition...

>40% annual cost savings for
post-acute care rehabilitation

Phzio provides treatment and
outcomes data required under
value-based payment model

Enhanced marketability when
selling into hospitals participating
in value-based care programs

Crowded Market; Phzio is the ONLY Real-Time Monitored Software Platform

Avatar / Kinect-based Telerehab Platforms

Phzio's Advantages

- No special hardware or sensors (e.g., Kinect) required
- Real-time remote monitoring by physical therapists
- Treatments reimbursable by Health Plans

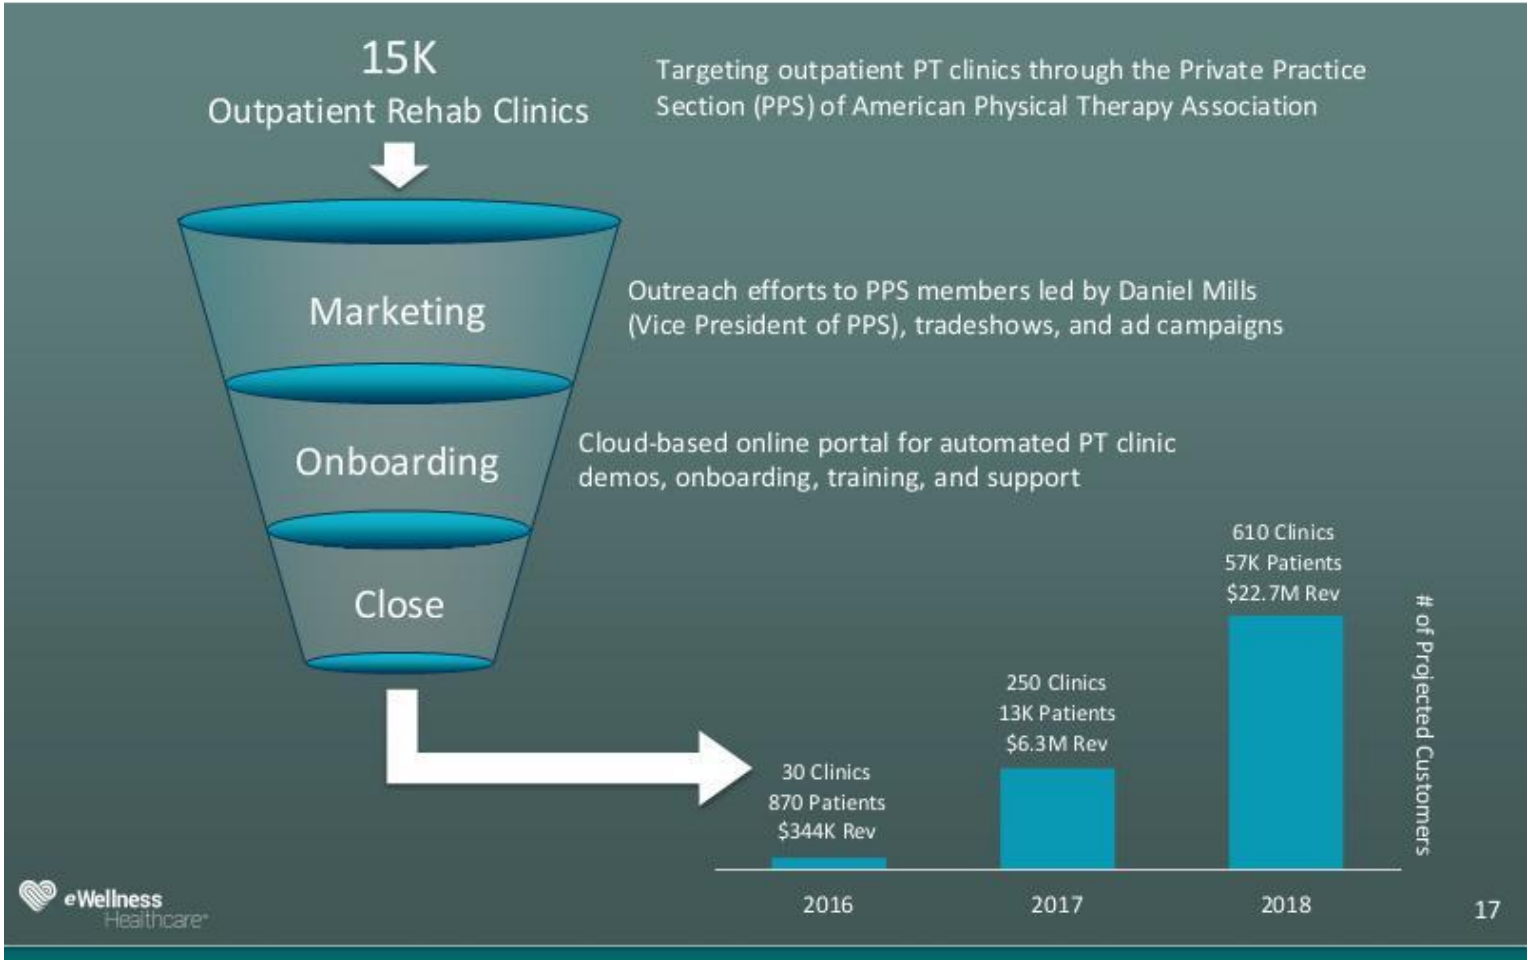

Other Video-based Physical Therapy Solutions

Phzio's Advantages

- Real-time remote monitoring by physical therapists versus on-demand videos
- Accountability drives superior patient compliance & adherence
- Treatments reimbursable by Health Plans

Go-to-Market Strategy and Projections

Financial Projections

\$ in Thousands	2016	2017	2018
U.S. Licensing Gross Revenue	\$344	\$6,320	\$22,713
Phzio Revenue Share	\$8	\$201	\$797
Corporate Wellness Gross Revenue	\$0	\$275	\$2,685
Corporate Wellness Strategic Revenue Share	\$0	\$12	\$117
eWellness Total Net Revenue	\$335	\$6,382	\$24,483
Cost of Goods Sold	\$0	\$774	\$740
Gross Profit	\$335	\$5,608	\$23,743
Gross Margin	100.0%	89.4%	97.2%
SGA Expense	\$2,234	\$5,982	\$8,628
EBIT	-\$1,898	-\$374	\$15,115
Pretax Margins	-565.8%	38.0%	69.7%

Investment Opportunity

- \$2.6M invested to date to develop and launch product to market
- Publicly traded company (OTCQB: EWLL)
- Currently raising \$2.5M
- Proceeds will be used for:
 - Growth and expansion of business
 - New platform feature development

Management Team

Darwin Fogt, MPT, CEO

- Founder of Evolution Physical Therapy, a state of the art clinic in Los Angeles
- Licensed Physical Therapist in New York and California
- Specializes in neurological rehabilitation, orthopedic and sports medicine

Curtis Hollister, CTO

- Founder of Social Pixels and Ripplefire
- Founded a Canadian internet service provider in 1995 (sold in 1997)
- Has grown and sold a number of startups afterwards

David Markowski, CFO

- Former CEO and Co-Founder of GFNN, Inc.
- Former VP, Finance of Medcom USA, a NASDAQ listed company
- A decade of investment banking experience on Wall Street

Douglas MacLellan, Chairman

- 27+ years of senior-level international executive business experience, primarily in the financial information, pharmaceuticals, telecoms, software, consumer products and IT industries
- Helped raise \$775M+ for development stage, startup and mid-cap companies
