NOTE 1 NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS

Sandgate Acquisition Corporation ("Sandgate" or "the Company") was incorporated on July 23, 2012 under the laws of the State of Delaware to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. Sandgate has been in the developmental stage since inception and its operations to date have been limited to issuing shares to its original shareholders. Sandgate will attempt to locate and negotiate with a business entity for the combination of that target company with Sandgate. The combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange. In most instances the target company will wish to structure the business combination to be within the definition of a tax-free reorganization under Section 351 or Section 368 of the Internal Revenue Code of 1986, as amended. No assurances can be given that Sandgate will be successful in locating or negotiating with any target company. Sandgate has been formed to provide a method for a foreign or domestic private company to become a reporting company with a class of securities registered under the Securities Exchange Act of 1934.

BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for interim financial information. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. The accompanying unaudited financial statements include all adjustments, composed of normal recurring adjustments, considered necessary by management to fairly state our results of operations, financial position and cash flows. The operating results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

CONCENTRATION OF RISK

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash. The Company places its cash with high quality banking institutions. The Company did not have cash balances in excess of the Federal Deposit Insurance Corporation limit as of June 30, 2013.

INCOME TAXES

Under ASC 740, "Income Taxes", deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary

differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Valuation allowances are established when it is more likely than not that some or all of the deferred tax assets will not be realized.

LOSS PER COMMON SHARE

Basic loss per common share excludes dilution and is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted loss per common share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the loss of the entity. As of June 30, 2013, there are no outstanding dilutive securities.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company follows guidance for accounting for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. The guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

NOTE 2 - GOING CONCERN

The Company has sustained operating losses since inception. It has an accumulated deficit of \$2,157 as of June 30, 2013. The Company's continuation as a going concern is dependent on its ability to generate sufficient cash flows from operations to meet its obligations, which it has not been able to accomplish to date, and /or obtain additional financing from its stockholders and/or other third parties.

These financial statements have been prepared on a going concern basis, which implies the Company will continue to meet its obligations and continue its operations for the next fiscal year. The continuation of the Company as a going concern is dependent upon financial support from its stockholders, the ability of the Company to obtain necessary equity financing to continue operations, successfully locating and

negotiate with a business entity for the combination of that target company with the Company.

Tiber Creek Corporation, a company affiliated with management, will pay all expenses incurred by the Company until a business combination is effected, without repayment. There is no assurance that the Company will ever be profitable. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

NOTE 3 - RECENT ACCOUNTING PRONOUNCEMENTS

In April 2013, the FASB issued ASU No. 2013-07, Presentation of Financial Statements (Top 205): Liquidation Basis of Accounting. The objective of ASU No. 2013-07 is to clarify when an entity should apply the liquidation basis of accounting and to provide principles for the measurement of assets and liabilities under the liquidation basis of accounting, as well as any required disclosures. The amendments in this standard is effective prospectively for entities that determine liquidation is imminent during annual reporting periods beginning after December 15, 2013, and interim reporting periods therein. We are evaluating the effect, if any, adoption of ASU No. 2013-07 will have on our financial statements.

(unaudited)

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the United States Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future financial statements.

NOTE 4 STOCKHOLDER'S EQUITY

The Company is authorized to issue 100,000,000 shares of common stock and 20,000,000 shares of preferred stock. As of June 30, 2013, 20,000,000 shares of common stock and no preferred stock were issued and outstanding.

In July, 2012, the Company issued 20,000,000 common shares to two directors and officers for an aggregated amount of \$2,000 in cash.

As of June 30, 2013, the stockholders made a capital contribution in the amount of totally \$2,157 to pay the auditing and operating expenses incurred by the Company.

NOTE 5 SUBSEQUENT EVENT

On July 18, 2013, the Company has changed its name from Sandgate Acquisition Corporation to Sunstock, Inc. and filed a Form 8-K with the Securities and Exchange Commission noticing such name change.

On July 18, 2013, the Company redeemed an aggregate of 19,500,000 of the then 20,000,000 shares of outstanding stock at a redemption price of \$0.0001 per share for an aggregate redemption price of \$1,950.

On July 18, 2013, Jason Chang and Dr. Ramnik S. Clair were named as the directors of the Company.

7

CONDITION AND RESULTS OF OPERATIONS

Sandgate Acquisition Corporation ("Sandgate") was incorporated on July 23, 2012 under the laws of the State of Delaware to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions.

Since inception Sandgate has been in the developmental stage and its operations to date have been limited to issuing shares of common stock to its original shareholders and filing a registration statement on Form 10 with the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934 as amended to register its class of common stock.

Sandgate has been formed to provide a method for a foreign or domestic private company to become a reporting company with a class of securities registered under the Securities Exchange Act of 1934.

With the redemption of 19,500,000 shares of stock and the issuance of the 1,000,000 shares of stock, on July 19, 2013 the Company effected a change in its control and the new majority shareholder(s) elected new management of the Company. A Form 8-K was filed on July 22, 2013 noticing the change in control and the resignation of the then officers and directors and election of new directors and officers.

New management intends to develop the Company for the acquisition and operation of hotels and residential properties in the high demand areas of California, particularly Southern California and the San Francisco Bay Area. As of the date of this report, no acquisitions have been entered into or effected. When any such business combination is effected, the Company will file a Form 8-K but until such time the Company remains a shell company seeking an acquisition business combination.

The most likely target companies are those seeking the perceived benefits of a reporting corporation. Such perceived benefits may include facilitating or improving the terms on which additional equity financing may be sought, providing liquidity for incentive stock options or similar benefits to key employees, increasing the opportunity to use securities for acquisitions, providing liquidity for shareholders and other factors.

Business opportunities may be available in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities difficult and complex.

In analyzing prospective business opportunities, Sandgate may consider such matters as the available technical, financial and managerial resources; working capital and other financial requirements; history of operations, if any; prospects for the future; nature of present and expected competition; the quality and experience of management services which may be available and the depth of that management; the potential for further research, development, or exploration; specific risk factors not now foreseeable but which may be anticipated; the potential for growth or expansion; the potential for profit; the perceived public recognition or acceptance of products, services, or trades; name identification; and other relevant factors. This discussion of the proposed criteria is not meant to be restrictive of the virtually unlimited discretion of Sandgate to search for and enter into potential business opportunities.

A combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange. In most instances the target company will wish to structure the business combination to be within the definition of a tax-free reorganization under Section 351 or Section 368 of the Internal Revenue Code of 1986, as amended.

Sandgate has, and will continue to have, no capital with which to provide the owners of business entities with any cash or other assets. However, Sandgate offers owners of acquisition candidates the opportunity to acquire a controlling ownership interest in a reporting company.

As of June 30, 2013, Sandgate has not generated revenues and has no income or cash flows from operations since inception. The continuation of Sandgate as a going concern is dependent upon financial support from its stockholders, its ability to obtain necessary equity financing to

continue operations, to successfully locate and negotiate with a business entity for the combination of that target company with Sandgate.

Tiber Creek Corporation, a corporate solely owned by the former president of the Company, a former majority shareholder of the Company and a current owner of 250,000 shares of the Company, paid, without expectation of repayment at any time, all expenses incurred by Sandgate until the change in control. Subsequent to the change in control, new management will pay all the expenses of the Company without expectation of repayment by the Company.

The Company has sustained operating losses since inception. It has an accumulated deficit of \$2,157 as of June 30, 2013. The Company's auditors have issued a note regarding the continuation of the Company as a going concern. Continuation of the Company as a going concern is dependent on its ability to generate sufficient cash flows from operations to meet its obligations, which it has not been able to accomplish to date, and /or obtain additional financing from its stockholders and/or other third parties.

I
ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.

Information not required to be filed by Smaller reporting companies.

ITEM 4. Controls and Procedures.

Disclosures and Procedures

Pursuant to Rules adopted by the Securities and Exchange Commission, the Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rules. This evaluation was done as of the end of the period covered by this report under the supervision and with the participation of the Company's principal executive officer (who is also the principal financial officer).

Since the change in control the controls and procedures have not been changed, and based upon that evaluation, the Company's new principal executive officer believes that the Company's disclosure controls and procedures are effective in gathering, analyzing and disclosing information needed to ensure that the information required to be disclosed by the Company in its periodic reports is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

This Quarterly Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Quarterly Report.

Changes in Internal Controls

With the change in control, there was a change in the Company's internal control over financial reporting that was identified in connection with such evaluation that occurred during the period covered by this report. The Company does not believe that the change in management resulting from the change in control has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting as the new chief executive officer who is also the new chief financial officer is experienced and knowledgeable in the parameters of the internal controls required for accurate and timely financial reporting and filing.
