The decrease in revenue is primarily the result of a decrease in cash collections from the Company’s customers that are accounted for pursuant to the cash method of accounting. The Company anticipates that its operating expenses for the year ended December 31, 2014 will be significantly less than the year ended December 31, 2013 as a result of decreases in salary and general and administrative expenses. The net loss before income taxes for the year ended December 31, 2014 is expected to be slightly more than the year ended December 31, 2013 primarily as a result of these factors.
