**TEXTMUNICATION HOLDINGS, INC.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017**

**NOTE 1 – BASIS OF PRESENTATION AND GOING CONCERN**

Basis of Presentation

The accompanying unaudited interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's most recent Annual Financial Statements filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim period presented have been reflected herein. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent fiscal period, as reported in the Form 10-K, have been omitted.

Going concern

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. As of June 30, 2017, the Company has an accumulated deficit of \$14,206,142. The company's ability to continue as a going concern is contingent upon the successful completion of additional financing arrangements and its ability to achieve and maintain profitable operations. While the Company is expanding its best efforts to achieve the above plans, there is no assurance that any such activity will generate funds that will be available for operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might arise from this uncertainty.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Cash**

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents.

The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits. At June 30, 2017, no cash balances exceeded the federally insured limit.

**Accounts receivable and allowance for doubtful accounts**

Accounts receivable are stated at the amount management expects to collect. The Company generally does not require collateral to support customer receivables. The Company provides an allowance for doubtful accounts based upon a review of the outstanding accounts receivable, historical collection information and existing economic conditions. As of June 30, 2017 and 2016 the allowance for doubtful accounts was \$0 and \$0 and bad debt expense of \$0 and \$0, respectively.

**Revenue Recognition**

We recognize revenue in accordance with Accounting Standards Codification, or ("ASC"), 605, Revenue Recognition. We recognize revenue when all of the following conditions are satisfied: (1) there is persuasive evidence of an arrangement; (2) the service has been provided to the customer; (3) the amount of fees to be paid by the customer is fixed or determinable; and (4) the collection of our fees is reasonably assured.

Thus, we recognize subscription revenue on a monthly basis, as services are provided. Customers are billed for the subscription on a monthly, quarterly, semi-annual or annual basis, at the customer's option.

**TEXTMUNICATION HOLDINGS, INC.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017**

**Fair Value of Financial Instruments**

The carrying amounts reflected in the balance sheets for cash, accounts payable and accrued expenses approximate the respective fair values due to the short maturities of these items.

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that is observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The fair value of the accounts receivable, accounts payable, notes payable are considered short term in nature and therefore their value is considered fair value.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below for the six months ended June 30, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Liabilities</b>				
Derivative Financial Instruments	\$ —	\$ —	\$ 444,943	\$ 444,943

Financial assets and liabilities measured at fair value on a recurring basis are summarized below for the year ended December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Liabilities</b>				
Derivative Financial Instruments	\$ —	\$ —	\$ 870,921	\$ 870,921

**Net income (loss) per Common Share**

Basic net income (loss) per share is computed by dividing the net loss attributable to the common stockholders by the weighted average number of shares of common stock outstanding during the period. Fully diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

**TEXTMUNICATION HOLDINGS, INC.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017**

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Stock-Based Compensation**

The Company accounts for employee stock-based compensation in accordance with the guidance of FASB ASC Topic 718, Compensation – Stock Compensation which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered.

The Company follows ASC Topic 505-50, formerly EITF 96-18, “Accounting for Equity Instruments that are Issued to Other than Employees for Acquiring, or in Conjunction with Selling Goods and Services,” for stock options and warrants issued to consultants and other non-employees. In accordance with ASC Topic 505-50, these stock options and warrants issued as compensation for services provided to the Company are accounted for based upon the fair value of the services provided or the estimated fair market value of the option or warrant, whichever can be more clearly determined. The fair value of the equity instrument is charged directly to compensation expense and additional paid-in capital over the period during which services are rendered.

**Investments in Securities**

Investments in securities are accounted for using the equity method if the investment provides the Company the ability to exercise significant influence, but not control, over an investee. Significant influence is generally deemed to exist if the Company has an ownership interest in the voting stock of the investee between 20% and 50%, although other factors, such as representation on the investee’s Board of Directors, are considered in determining whether the equity method is appropriate.

**Recent Accounting Pronouncements**

No new accounting pronouncements issued or effective during the fiscal year has had or is expected to have a material impact on the financial statements.

**NOTE 4 – RELATED PARTY TRANSACTIONS**

As of June 30, 2017, the Company had advances due to a related party. The loans are due on demand and have no interest. Amounts outstanding as of June 30, 2017 and December 31, 2016 were approximately \$11,750 and \$11,750, respectively

**NOTE 5 – LOANS PAYABLE**

**NOTE 6 - CONVERTIBLE NOTE PAYABLE**

Convertible notes payable consist of the following as of June 30, 2017 and December 31, 2016:

Less discounts	(4,669)	(101,595)
Convertible notes net of discount	<u>\$ 465,308</u>	<u>\$ 555,464</u>

The Company accounts for the fair value of the conversion features of its convertible debt in accordance with ASC Topic No. 815-15 “Derivatives and Hedging; Embedded Derivatives” (“Topic No. 815-15”). Topic No. 815-15 requires the Company to bifurcate and separately account for the conversion features as an embedded derivative contained in the Company’s convertible debt. The Company is required to carry the embedded derivative on its balance sheet at fair value and account for any unrealized change in fair value as a component of results of operations. The Company values the embedded derivatives using the Black-Scholes pricing model.

The following table presents details of the Company’s derivative liabilities associated with its convertible notes as of June 30, 2017 and December 31, 2016:

	Amount
Balance December 31, 2016	\$ 870,921

The conversion of the derivative liabilities has been recorded through additional paid-in capital.

The Black-Scholes model utilized the following inputs to value the derivative liability at the date of issuance of the convertible note and at June 30, 2017:

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words “believes,” “project,” “expects,” “anticipates,” “estimates,” “intends,” “strategy,” “plan,” “may,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. We intend such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and are including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Further information concerning our business, including additional factors that could materially affect our financial results, is included herein and in our other filings with the SEC.

### **Results of Operation for Three and Six Months Ended June 30, 2017 and 2016**

#### ***Revenues***

For the three months ended June 30, 2017, we earned revenues in the amount of \$307,788, as compared with revenues of \$103,449 for the three months ended June 30, 2016. For the six months ended June 30, 2017, we earned revenues in the amount of \$536,548, as compared with revenues of \$191,859 for the three months ended June 30, 2016.

The increase in revenues for the three and six months ended June 30, 2017 over the prior year period is due to more customer accounts achieved from a change in our pricing model to become more competitive. We expect to achieve greater revenues for the rest of 2017.

### ***Cost of Revenues***

Cost of revenues was \$84,047 for the three months ended June 30, 2017, as compared with \$32,843 for the same period ended June 30, 2016. Cost of revenues was \$157,466 for the six months ended June 30, 2017, as compared with \$50,519 for the same period ended June 30, 2016.

### **Gross Profit**

Our gross profit was \$223,741 for the three months ended June 30, 2017 or approximately 73% of revenues, as compared with \$70,606 for the same period ended June 30, 2016, or approximately 68% of revenues. Our gross profit was \$379,082 for the six months ended June 30, 2017 or approximately 71% of revenues, as compared with \$141,340 for the same period ended June 30, 2016, or approximately 74% of revenues.

We had spent more on web hosting costs and that is the main reason for the decrease in margin in the six months ended June 30, 2017 compared with the same period ended 2016. However, we experienced an increased margin in the three months ended June 30, 2017 over the same period ended 2016 and we expect that our increased revenues will result in a similar or greater margin in future quarters.

### ***Operating Expenses***

Our operating expenses were \$310,097 for the three months ended June 30, 2017, as compared with \$184,301 for the three months ended June 30, 2016. Our operating expenses were \$6,473,348 for the six months ended June 30, 2017, as compared with \$377,777 for the six months ended June 30, 2016.

Our operating expenses for the six months ended June 30, 2017 mainly consisted of a share issuance to our officer and director of 2 billion shares valued at \$6,000,000. We expect that our operating expenses for the rest of 2017 will decrease, provided that we do not have to issue stock for services, which was the main reason for our increased expenses for the half year. Given our lack of operating capital, we have been forced to issue shares for services rendered to the company. We hope that increase revenues will lessen that trend for 2017 and beyond.

### ***Other Income/Expenses***

We had other income of \$4,085,716 for the three months ended June 30, 2017 compared with other expenses of \$198,388 for the same period ended June 30, 2016. We had other expenses of \$671,004 for the six months ended June 30, 2017 compared with other expenses of \$377,777 for the same period ended June 30, 2016.

Other income for the three months ended June 30, 2017 consisted mainly of \$4,032,108 change in the fair value of derivative liabilities based on Black Scholes.

### ***Net Income/Loss***

We had net income of \$3,999,360 for the three months ended June 30, 2017, as compared with a net loss of \$305,420 for the three months ended June 30, 2016. We had a net loss of \$6,766,996 for the six months ended June 30, 2017, as compared with net loss of \$1,535,343 for the three months ended June 30, 2016.

### **Liquidity and Capital Resources**

As of June 30, 2017, we had total current assets of \$79,256, consisting of cash and receivables. Our total current liabilities as of June 30, 2017 were \$1,065,573. We had a working capital deficit of \$98,317 as of June 30, 2017.

### ***Cash Flows from Operating Activities***

Operating activities used \$12,349 in cash for the six months ended June 30, 2017, compared with cash provided of \$23,335 for the six months ended June 30, 2016. Our negative operating cash flow for the six months ended June 30, 2017 was largely the result of our net loss for the period of \$6,766,995, offset by share based compensation of \$6,115,100 and loss on derivative liabilities of \$627,952.

### ***Cash Flows from Financing Activities***

Cash flows provided by financing activities during the six months ended June 30, 2017 amounted to \$114,869, compared with cash flows provided by financing activities of \$215,164 for the six months ended June 30, 2016. Our positive cash flows for the six months ended June 30, 2017 consisted of proceeds from convertible notes and loans payable, offset by payments on such.

Our optimum level of growth for success will be achieved if we are able to raise \$250,000 in the next twelve months. However, funds are difficult to raise in today's economic environment. If we are unable to raise \$250,000 our ability to implement our business plan and achieve our goals will be significantly diminished.

We have experienced a history of losses. With our revenues increasing, however, we are less reliant on outside capital as we have been in the past. We will need at a minimum \$120,000 in capital to operate in the next 12 months. We are dependent on investment capital to continue our survival. We have raised money through convertible debt, almost always on unfavorable terms. There is no guarantee that these small convertible loans will be available to us in the future or on terms acceptable to us.

We do not have any formal commitments or arrangements for the sales of stock or the advancement or loan of funds at this time. There can be no assurance that such additional financing will be available to us on acceptable terms, or at all.

### **Going Concern**

As of June 30, 2017, we have an accumulated deficit of \$14,206,142. Our ability to continue as a going concern is contingent upon the successful completion of additional financing arrangements and our ability to achieve and maintain profitable operations. While we are expanding our best efforts to achieve the above plans, there is no assurance that any such activity will generate funds that will be available for operations. These conditions raise substantial doubt about our ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

### **Off Balance Sheet Arrangements**

As of June 30, 2017, there were no off balance sheet arrangements.

### **Critical Accounting Policies**

In December 2001, the SEC requested that all registrants list their most "critical accounting policies" in the Management Discussion and Analysis. The SEC indicated that a "critical accounting policy" is one which is both important to the portrayal of a company's financial condition and results, and requires management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Our critical accounting policies are disclosed in Note 2 of our audited financial statements included in the Form 10-K filed with the Securities and Exchange Commission.

### **Recent Accounting Pronouncements**

No new accounting pronouncements issued or effective during the fiscal year has had or is expected to have a material impact on the financial statements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

A smaller reporting company is not required to provide the information required by this Item.

## **Item 4. Controls and Procedures**

### **Disclosure Controls and Procedures**

We conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, as of June 30, 2017, to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission's rules and forms, including to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of June 30, 2017, our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses identified and described below.

Our principal executive officers do not expect that our disclosure controls or internal controls will prevent all error and all fraud. Although our disclosure controls and procedures were designed to provide reasonable assurance of achieving their objectives and our principal executive officers have determined that our disclosure controls and procedures are effective at doing so, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute assurance that the objectives of the system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented if there exists in an individual a desire to do so. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

### **Remediation Plan to Address the Material Weaknesses in Internal Control over Financial Reporting**

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Management identified the following three material weaknesses that have caused management to conclude that, as of June 30, 2017, our disclosure controls and procedures, and our internal control over financial reporting, were not effective at the reasonable assurance level:

1. We do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act as of the period ending June 30, 2017. Management evaluated the impact of our failure to have written documentation of our internal controls and procedures on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.
2. We do not have sufficient segregation of duties within accounting functions, which is a basic internal control. Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.
3. Effective controls over the control environment were not maintained. Specifically, a formally adopted written code of business conduct and ethics that governs our employees, officers, and directors was not in place. Additionally, management has not developed and effectively communicated to employees its accounting policies and procedures. This has resulted in inconsistent practices. Further, our Board of Directors does not currently have any independent members and no director qualifies as an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K. Since these entity level programs have a pervasive effect across the organization, management has determined that these circumstances constitute a material weakness.

To address these material weaknesses, management performed additional analyses and other procedures to ensure that the financial statements included herein fairly present, in all material respects, our financial position, results of operations and cash flows for the periods presented. Accordingly, we believe that the financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented.

To remediate the material weakness in our documentation, evaluation and testing of internal controls we plan to engage a third-party firm to assist us in remedying this material weakness once resources become available.

We intend to remedy our material weakness with regard to insufficient segregation of duties by hiring additional employees in order to segregate duties in a manner that establishes effective internal controls once resources become available.

### **Changes in Internal Control over Financial Reporting**

No change in our system of internal control over financial reporting occurred during the period covered by this report, the period ended June 30, 2017, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
